## ROASTED KNUTE

Senator Hompe, of Otter Tail, Roasted Gov-  
ernor Nelson in Reference to the  
Capitol Bill.

The Bill Annexing Part of the Minneapolis  
District to Duluth District Passed  
the Senate.

Mr. Markham Denies the Charges of Seek-  
ing Boodle From Lumbermen and  
Demands an Investigation.

Lon Merritt and About Twenty Legislators  
Will Reach Duluth Tonight, Going  
to the Mesaba.

ST. PAUL, April 8.—[Special to The  
Herald.]—The bill changing the bound-  
aries of the Duluth district and  
taking in a large portion of the Minne-  
apolis district passed the senate this  
morning after suspension of the rules on  
motion of Senator Daugherty. The bill  
validating the Park Point street railway  
franchise was reported back to the sen-  
ate by the committee with a recommenda-  
tion of indefinite postponement. Sen-  
ator Daugherty tried to get it placed upon  
general orders but failed to do so.

Mr. Stevens introduced a bill amend-  
ing the capitol bill by providing that the  
capitol site may be chosen within three  
quarters of a mile of the old site. It was  
ordered printed and placed on general  
orders.

Senator Hompe roasted the governor  
this morning, alleging that he refused to  
sign the capitol bill until house file 371,  
providing that all grain elevators except  
terminal points be declared public, was  
passed.

Senator Crawford introduced the omni-  
bus appropriation bill of the session. It  
contains \$1,750,000 for the erection of build-  
ings.

In the house, Mr. Cotton acting as  
speaker, the Duluth elevator bill was  
recommended by the house  
warehouse committee. It is amended to  
provide for an appropriation of \$30,000  
more.

An omnibus resolution was passed in  
the house to investigate all charges of  
boodling against any members of the  
legislature and appointing a committee  
of three.

The omnibus appropriation bill intro-  
duced in the house appropriates about  
\$800,000 for public buildings for this  
year.

Lon Merritt and about twenty other  
legislators left at 1 p. m. over the East-  
ern Minnesota road by a special car for  
Duluth.

The joint legislative committee that is  
investigating the coal combine had a  
consultation yesterday afternoon with  
Governor Nelson and Attorney-General  
Childs, as a result of which it was de-  
cided to ask for a change of venue in the  
cases of Rhodes and Mr. Walsingham and  
the other members of the committee  
for damages. The application will be  
made by the attorney general in a few  
days, and the cases will be heard at  
Duluth or at Otter Tail county.  
The committee, in view of the  
recent developments with which the  
public is familiar, has decided to hold  
a session before the Ramsey or Hennepin  
courts. The committee also decided to  
engage Judge Page Morris, Senator John  
Day Smith, of Minneapolis, and V. P.  
Warner, of St. Paul, as counsel for the  
defense, to assist the attorney general.

The report that has been industriously  
circulated about the alleged boodling  
of Mr. Markham, of Aitkin county, in con-  
nection with the surveyor general bill  
was brought to the attention of the house  
yesterday afternoon.

Mr. Markham, rising to a question of  
privilege, read from the Minneapolis  
Journal some paragraphs calling atten-  
tion to the fact that he had not been  
charged with the charges that he had offered to  
sell his influence. Mr. Markham said that he  
had not been able to find the original  
article, and these references were the first  
he had himself seen. He vigorously de-  
nied that he had directly or indirectly so-  
licit money for a vote at any time in  
his life. That was all he would say at  
this time, but he asked the house to ap-  
point a committee to fully investigate the  
case.

Mr. Wilson said, in view of the start-  
ling statements made and with a view of  
maintaining the integrity and character  
of the house, he would move the appoint-  
ment of a committee of five to investi-  
gate the charges, with full powers to  
send for persons and papers, to admin-  
ister oaths and instructed to make a  
thorough and searching investigation.  
The motion was adopted and the speaker  
said he would appoint the committee  
later.

Subsequently Mr. Wilson, of Goodhue,  
amended his resolution to read as fol-  
lows:  
Whereas, It appears from the remarks of  
Joseph Markham, personal privileges that  
certain newspapers have made damaging state-  
ments respecting the character and acts of  
members of this house in relation to H. F. 28; there-  
fore

Resolved, That a committee of five be ap-  
pointed by the speaker to inquire into the said  
matter, with full power and authority to sum-  
mon, compel the attendance and examine wit-  
nesses, administer oaths and take testimony and  
make a speedy report thereon to this house with  
such recommendations as they deem proper in  
the premises.

The amended resolution was adopted.  
The house committee on labor and  
labor legislation met yesterday afternoon  
to hear Minneapolis lumbermen on the  
bill of Mr. Boggs to provide for mer-  
chant and dealers selling goods to lumber  
employees, having a lien on the logs cut.  
The bill was indefinitely postponed. The  
Wyman child labor bill was amended  
and recommended to the senate.

The senate was engaged all yesterday  
afternoon in committee of the whole dis-  
cussing the general charter bill and its  
amendments. It seems to be the gen-  
eral opinion that the bill will not pass.  
There is strong opposition in the sen-  
ate to Dunn's reapportionment bill com-  
ing from senators of the southern portion

of the state and they are holding back  
other important legislation to act as a  
club in killing off the reapportionment  
bill.  
The railroad committee of the senate  
has decided to indefinitely postpone the  
Park Point street railway franchise bill  
on the ground that it is a judicial matter  
and should be settled in the courts.

## A VERY FURIOUS STORM.

Much Damage Done in Chicago and Several  
People Injured.

CHICAGO, April 8.—A furious wind  
storm swept over the southern portion  
of this city last evening, doing consid-  
erable damage. Trees were leveled, win-  
dows were broken and several persons  
and carriages were overturned and their  
occupants thrown into the street.  
Little Mary Mayce was knocked  
down by a runaway horse and seriously  
injured. The doctors think she will re-  
cover. John Ordway, of Englewood,  
while riding in a street car, was struck  
by the back of the neck by a piece of  
glass from the car window which had  
been broken by hail stones and one of  
the veins of his neck was cut. Before  
medical aid could be given, he had lost  
so much blood that his recovery is  
doubtful.

Fred Glasse, a lad 11 years old, was  
seriously and perhaps fatally injured by  
being thrown from a wagon. The horse  
became frightened and ran away. Glasse  
was thrown from the wagon, and striking  
the curbstone on his head fractured his  
skull.

Panics occurred in several of the apart-  
ment buildings but no serious accidents  
from this cause have been reported. The  
Chicago Floral company had 1000 panes  
of glass broken in their green house.  
Several other green houses suffered from  
broken glass.

Severe wind storms accompanied by  
electrical disturbances prevailed through-  
out Wisconsin, Iowa and Illinois yester-  
day. At Bloomington, Ill., Miss Kate  
Fuey was struck by a flying board and  
fatally injured.

## DISASTROUS PRAIRIE FIRES.

Heavy Loss to Ranchers and Farmers in  
Nebraska.

NORTH PLATTE, Neb., April 8.—A dis-  
astrous prairie fire broke out east of  
Sutherland in this county yesterday. The  
loss will probably reach \$10,000. It is  
claimed the fire was started by a passen-  
ger engine.

Never has such a disastrous prairie fire  
devastated the Platte Valley. Every-  
thing within a distance of twenty miles  
is in ruins. The fire started south of  
Sutherland yesterday afternoon and  
swept everything before it. It ran at the  
rate of thirty miles an hour.

The fire companies responded to the  
alarm as soon as it was known, the fire  
was raging west of the city, and when  
they reached the outskirts of the city a  
fire was upon them and fought them  
back within the water limits. Most ev-  
erything outside the water limits was  
destroyed by the flames.

The farmers and ranchers in the neigh-  
borhood will lose everything.

Several Counties Devastated.  
OMAHA, Neb., April 8.—A violent gale  
prevailed throughout Nebraska all day.  
Reports from many portions of the  
state indicate prairie fires of consid-  
erable magnitude. Banner, Keith, Blaine  
and adjoining counties are completely  
devastated by fire.

A Burlington bridge at Dunning and  
another at Hastings on the Elkhorn  
were destroyed. At Kearney the fire  
destroyed the near end of the bridge. At  
Dunning, an old lady named Bartlett  
was burned so badly she may die.

## LIVE PIGEON SHOOTING.

Match Between Capt. Brewer and Thomas  
Peacock Won by Brewer.

NEW YORK, April 8.—Lovers of pigeon  
shooting traveled through the rain and  
slush to Dexter park on the Jamaica  
road, Long Island, yesterday, to witness  
the live bird match between Capt. Jack  
Brewer and Thomas Peacock, which  
would end the three days' shooting of the  
Interstate Manufacturers' and Dealers'  
association.

The conditions of the match were  
thirty yards rise and fifty yards bound-  
ary. Capt. Brewer was to shoot at 100  
birds and Mr. Peacock at 104. The  
shoot was for a wager. After the match,  
when Capt. Brewer was declared the  
winner, he stated that he had been given  
\$1200 by the stakeholder.

When the shooting began at noon, the  
small crowd of spectators were huddled  
around the stove in the gunroom like so  
many sheep. They would rush to the  
stove and when a trap was pulled, but  
would immediately seek the stove again  
when the bird was brought down.

Capt. Brewer started the ball rolling  
and killed forty-nine birds in succession,  
but his fifteenth fell just outside the  
bounds. Peacock's work was not so  
good, for out of the first fifty birds he  
killed three. When the match ended at  
6:15, the score stood: Brewer 96 and  
Peacock 87.

## TO COLLECT THE MONEY.

A Cherokee Delegation Appointed to Go to  
Washington.

TALFORD, I. T., April 8.—The  
Cherokee senate passed a bill last night  
designating the chief and treasurer and  
two other delegates to go to Washington  
to get the money amounting to \$8,300,000,  
due on the sale of the strip. The bill  
will pass the lower house today.

Quite a sensation is being caused here  
by the recent offer of the Mexican gov-  
ernment to sell the Cheyennes a portion  
of old Mexico, to be the United States  
take the country away from them.

## The Revolution in Brazil.

NEW YORK, April 8.—The Herald's  
correspondent in Valparaiso has had  
confirmation of news of the taking of  
San Juan by the revolutionary forces.  
They have also captured Turabay and  
Bacon. Col. Hagado has deserted the  
government and joined the revolution-  
ary forces. From Buenos Ayres the  
Herald correspondent telegraphs that the  
revolution is spreading.

## A BLOODY CRIME

Stillwater Was the Scene Last Night of a  
Tragedy, Which Was Due to  
Jealousy.

Joseph Probst Slashed Henry Hathaway in  
the Neck Because He Walked With  
His Girl.

An Artery of the Jugular Cut But Physi-  
cians Closed It and Hathaway May  
Recover.

Probst Fled at Once and Officers Now in  
Pursuit—The Girl Arrested as a  
Witness.

STILLWATER, Minn., April 8.—A  
bloody tragedy occurred on Third  
street last evening at 9 o'clock. Joseph  
Probst, a young miller in the employ of  
Isaac Staples, has been paying attention  
to a young girl named Gussie Refcus,  
formerly a cook at the Elliott house.  
They were engaged to be married. They  
quarrelled a few months ago and the girl  
went to Menominee, Wis.

Evidently a reconciliation had been  
effected, as the girl came back, arriving  
here last Wednesday. Probst met her  
at the station and she has several times  
visited him at his boarding place. Last  
evening she went to Pat Hennessy's, ad-  
joining the blacksmith shop of Harry  
Hathaway, who has long been an ardent  
admirer of the girl. Young Hathaway  
saw her, and as she came out of Hen-  
nessy's offered to escort her down town.  
She reluctantly assented, and they had  
only gone a few steps when Probst ap-  
peared, and approaching the two, re-  
marked in a threatening manner: "You  
get out of this, young man; I'll see this  
girl home," to which Hathaway only re-  
plied, "I guess not," when a flash came  
a knife, the weapon cutting a terrible  
gash in the left side of Hathaway's neck  
just below the left jaw.

The girl fainted. Probst fled, while the  
wounded man staggered along the street  
and after reaching the engine house,  
he fainted and was taken to the hospital.  
Medical aid was summoned and it was  
found that the sub-maxillary artery of  
jugular was cut.

After a nurse's help by several physi-  
cians the artery was closed and it is  
thought he may recover. The girl was  
locked up as a witness but will disclose  
nothing. Officers are in pursuit of  
Probst.

## NORTH DAKOTA ELEVATOR.

Attorney General Standish States the Object  
of Building It.

GRAND FORKS, N. D., April 8.—At-  
torney General Standish states the  
purpose of his project to establish a  
North Dakota state elevator at Duluth  
the bill for granting a site to which is  
pending in the Minnesota legislature.  
"The object of the North Dakota ele-  
vator is not for North Dakota to buy and  
have a warehouse where it will not be  
mixed while they are gathering a cargo,  
and prepare arrangements on the route  
so that our wheat can be shipped for  
Liverpool without being mixed en  
route, so that these buyers will know  
they will get to grind in Europe and in  
the East the actual North Dakota wheat  
they buy in Duluth. The talk the North  
Dakota people have heard of fixing  
this by the grade system and then let  
the grades be diluted before it goes  
abroad wouldicken a child. The juris-  
diction bill has passed the Minnesota  
senate and gone through the committee  
in the house, and is now being fought  
here by the Minneapolis elevator and  
millers' combine."

## FARIBAUT COUNTY EXCITED.

Sensational Charges Made Against a Leading  
Physician.

WELLS, Minn., April 8.—All Faribault  
county is excited over a petition to the  
state board of medical examiners asking  
that the license of John L. Livingstone,  
one of the most prominent physicians in  
the state, be revoked on the ground of  
unprofessional, dishonorable and im-  
moral conduct.

The petition says that the physician  
has been guilty of protracted sprees;  
that at various times he threatened to  
shoot J. H. Joice, a banker, Robert An-  
drews and a dozen other prominent men;  
that he instigated Dennis O'Day to shoot  
and kill Dr. Daniel Straw, and that he  
attempted to induce E. W. Morgan, a  
druggist, and several other persons to  
combine to ruin the business of Dr. W.  
L. Gundlach. The petition closes with  
the charge that Dr. Livingstone fre-  
quently boasted that he had been im-  
properly intimate with many married  
women of Wells.

## New Postmasters.

WASHINGTON, April 8.—The total num-  
ber of fourth class postmasters appointed  
to take effect on April 1, of this number 71  
were to fill vacancies caused by resigna-  
tion and forty-nine removals. Of the  
postmasters removed, eighteen served  
four years and over.

## Distillery Shut Down.

NEW YORK, April 8.—The Press  
special from Louisville, Ky., says J. G.  
Mattingly & Sons' distillery company  
has been compelled to shut down owing  
to complications from the A. R. Sutton  
forced warehouse receipts. Sutton had  
forged his partner's name on notes.

## Noted Artist Dead.

LONDON, April 8.—Yungmann, a no-  
table German artist, fell dead in the  
street yesterday. He was patronized by  
the British and royal family for many  
years.

## A SECESSION MOVEMENT.

Scheme to Divide British Columbia  
Provinces.

NEW YORK, April 8.—A Times special  
from Tacoma, Washington, says: For  
some time a number of secessionists in  
Vancouver and New Westminster have  
been agitating against the present provin-  
cial government, ostensibly because  
the latter failed to bring a redistribution  
measure at the present session of the  
legislature.

The government has not looked upon  
it seriously until yesterday, when it was  
learned that a huge scheme was on foot  
to bring about the separation of the main-  
land from the island and establish the  
former as a sort of a province.

A Vancouver special says that the  
principal movers are Gen. Twigg, at  
whose residence several meetings of the  
secessionists have been held; J. B. Keith,  
manager of the bank of British Colum-  
bia; J. C. Brown, M. P. from New West-  
minster; S. S. Cotton, M. P. and manag-  
ing editor of the News-Advertiser; Capt.  
K. G. Tatlow; Thomas Kitchen, M. P.  
from the New Westminster district; J.  
Balfour Kerr, a real-estate speculator,  
and a number of other well known char-  
acters. The special says:

The New Westminster Columbian and  
the People's Journal of this city are con-  
trolled by the secessionists to dissemi-  
nate their views. Agents are to be sent  
out through the rural districts of the  
mainland to educate them in favor of the  
scheme. The first step in this direction  
has been arranged to take place in the  
Market hall in this city on Saturday  
night.

The secessionists have actually gone  
so far as to nominate the personnel of  
the provisional government for the main-  
land, and as soon as the people are ready  
for secession S. S. Cotton is to be pro-  
vincial secretary and premier; J. C.  
Keith, finance minister; J. M. Duval,  
minister of lands and works. As yet the  
schemers have not been able to get a  
lawyer to take the position of attorney  
general, consequently this position has  
been left open for the time being.

## THE ARIZONA GOVERNOR.

Why Republican Senators Are Trying to Delay  
Confirmation.

BALTIMORE, April 8.—The Sun's  
Washington correspondent telegraphs  
his paper as follows: The senate Re-  
publicans are making a strong effort to  
delay action on the nomination by the  
president of a governor of Arizona.

The legislature of Arizona will ad-  
journ in about ten days. The senate of  
the territory is strongly Democratic, and  
if a Democratic governor is now in office,  
his appointments will be local offices will,  
of course, be promptly confirmed by the  
senate. To have all the territorial offi-  
cials in accord with the Democratic  
policy is of much importance, in view of  
the fact that full preparations for state-  
hood are expected to be made during the  
coming summer and it is believed Ariz-  
ona will be admitted into the Union at  
the next session of congress.

All the local officers of the territory are  
now Republican. If they hold over, in-  
fluence and powers will be exerted in the  
direction of securing a Republican state  
organization for the election of two Re-  
publican United States senators.

For this reason, the Republican sen-  
ators have set themselves to work to put  
obstacles in the way of the nomination  
made by Mr. Cleveland, but the Demo-  
cratic senators appreciate the impor-  
tance of the occasion and have resolved  
to have no nominations unacted upon  
when the final adjournment takes place  
next week.

## MISSIONARIES IN DANGER.

German Authorities Causing Trouble in the  
Marshall Islands.

NEW YORK, April 8.—A special to the  
Tribune from San Francisco says: Through  
private letters which are from Jaluit,  
the chief city of the Marshall islands,  
it is learned that the American mis-  
sionaries on the islands, about forty in  
number, are threatened with deportation  
by the German authorities.

When Branders was forced out of Sa-  
moa he was appointed German commis-  
sioner at Jaluit. He has recently been  
assigned to New Guinea, and his place  
filled by Maj. Schmidt, who is extremely  
unpopular because of his dictatorial  
ways.

## A PROTEST BY GERMANY.

French Postal Authorities Charged With De-  
taining Letters.

BERLIN, April 8.—The government has  
made a strong protest in Paris against  
the action of the French postal authori-  
ties in detaining for a week the letters  
sent by a German named Durthe to the  
German consul in Rouen and the Ger-  
man ambassador in Paris.

Durthe was arrested in Rouen as a spy  
and was imprisoned. He wrote letters  
protesting his innocence to Count Mun-  
ster and to the consul the first day of his  
imprisonment.

As no proof of his guilt was obtained  
by the authorities, he was released a  
week later and was expelled from the  
country without receiving an apology.  
After he was across the border his letters  
of complaint were delivered to the per-  
sons addressed.

## Three Resignations.

WASHINGTON, April 8.—Allen T.  
Lawrence, of Illinois, a postoffice in-  
spector in the money order service, has  
resigned. Arthur A. Holmes, of Indiana,  
a special examiner in the pension office,  
has resigned. Robert T. Frazer, ex-  
aminer of mail matter, has resigned.

## Fighting in Sumatra.

SINGAPORE, April 8.—The means of  
communication have been restored in  
east Sumatra and more details have  
been ascertained concerning the recent  
fighting between Dutchmen and natives.  
As first reported, the Dutchmen were  
victorious. They captured eight forts  
and many guns. They lost six killed  
and forty-five wounded. Sixty-three  
Chinese were killed.

## BAKER ACCEPTS

The St. Paul Editor, After Seeing President  
Cleveland, Decides to Take the Cen-  
tral American Mission.

Major Baldwin Again Urges Hawkins for  
Governor of Alaska and Now Believes  
He Will Win.

James B. Eustis Appointed as Ambassador  
to France and the Nomination Con-  
firmed by the Senate.

The Claims of Capt. Dewitt and Dr. Speier  
for Consulships Presented to the  
President.

WASHINGTON, April 8.—[Special to  
The Herald.]—Representative Baldwin  
was at the White House today accom-  
panied by Editor Baker of the St. Paul  
Globe. When first presented to the  
president, Mr. Baker was rather in-  
clined not to accept the Central Ameri-  
can mission offered him. The president,  
however, convinced Mr. Baker that the  
mission for which he had been named  
would be very important during the  
next four years both from a political  
and business standpoint.

This was because, as the president  
put it, the Nicaraguan canal scheme was  
likely to be pushed, and without doubt  
this would make the position of United  
States representative there not only de-  
sirable but important. Mr. Baker saw  
the matter in the same light and it is be-  
lieved now that he will accept.

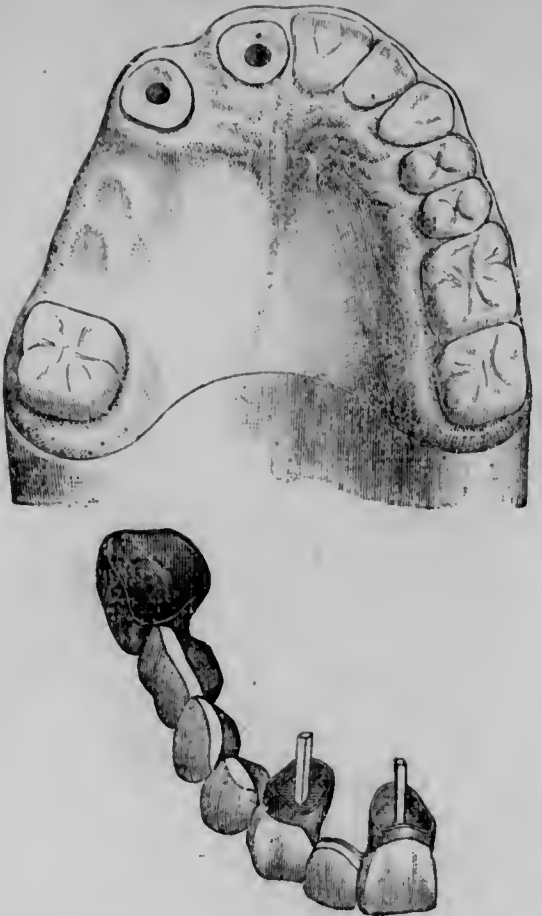

# COLUMB'S System of Bridgework, or Teeth WITH-OUT Plates!

## INQUIRE INTO THIS!

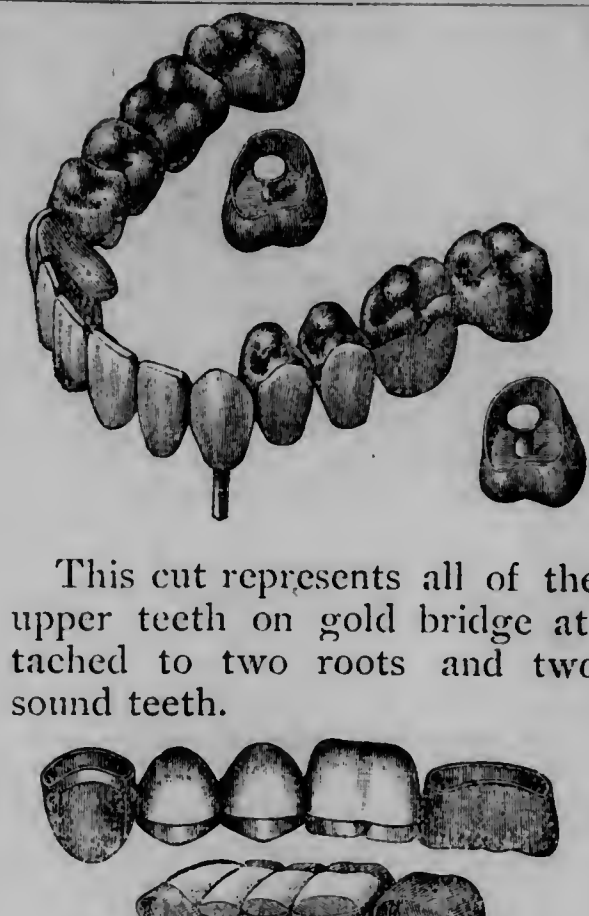

Top Floor of Palladio,  
Corner Superior Street  
And Fourth Avenue West.

This cut represents a bridge of seven teeth, using one sound tooth and two roots as abutments, and is comfortably worn.

These cuts represent various small bridges anchored to one or two sound roots.

This cut represents all of the upper teeth on gold bridge attached to two roots and two sound teeth.

The above cuts represent a system of regulating children's teeth which parents should inquire into.

West Duluth's Manufacturing Institutions  
All Report a Gratifying Increase in Output.

Blast Furnace Company is Turning Out One Hundred Tons of Pig Iron Each Day.

Sixty Cars Turned Out at the Car Works—Progress of Operations at the Electrical Works.

The past week has been a busy one with the West Duluth manufacturing and a most gratifying increase in output is reported from the various industries. At several of the shops repairs and additions are being made to increase the capacity. The furnace company has turned out about 100 tons of pig iron and Superintendent Richards seems well pleased with the workings of the plant. The masons are at work laying the foundation for the new blowing engine which is on the grounds and which will probably be in running order in thirty or forty days. The output of the furnace will then be largely increased and the liability of loss and stoppage by a breakdown of one of the engines will be avoided.

The Duluth Manufacturing company has turned out about sixty and flat cars besides an amount of miscellaneous stock such as mill cars, etc. The manufacture of cars is not the only source of revenue derived by this company and the amount of rolled iron turned out by the rolling mill and placed directly upon the market would surprise most people who are unacquainted with the business. There is at present in and about the stock house from 700 to 800 tons of flats and rounds ready for sale, besides car loads which are shipped out of the yards almost daily to Minneapolis, Superior and other points in the Northwest.

The Great Western Manufacturing company now has over 100 men at work, with the number steadily increasing. The building formerly used by the Iron Bay company as a boiler shop is now being changed from one story to two and will contain the wire machinery. The work of transforming the old foundry building for the wire machinery is progressing rapidly and will be ready for it as soon as it arrives, which will be in about a month. The lower story will be devoted to machinery for heavy insulation, while the upper will be used for lighter grades of wire. A small addition is also being added to this building for a drying room. There will be nearly 200 insulating machines in the building.

The big lumber mills are cleaning up and repairing machinery, preparatory to a big season's work. It is understood that both the Mitchell & McClure and Merrill & Ring will work night and day crews, which will nearly double the capacity of last year and will require an army of employees to handle the vast amount of lumber.

**R. P. Goggin Hurt at Biwabik.**  
The many friends of R. P. Goggin will be pained to learn that he was badly injured at Biwabik on Thursday while assisting in unloading some large French plate glass at the station. Two were placed on sleighs with safety, but while loading the third the team started, throwing Mr. Goggin to the ground and precipitating the glass on top of him. He was pinned to the ground for some time, the artery of his right hand severed, with cuts in other places. He was taken to the hospital quite weak from the loss of blood. At last reports he was doing well.

**HIS RESIGNATION ASKED.**

The Aged Brother of Ex-Secretary Blaine Is Resigned.

WASHINGTON, April 8.—Robert G. E. Blaine, the only surviving brother of the late James G. Blaine, has been asked to resign his position in the agricultural department by Secretary Morton, to take effect April 15. Robert G. E. Blaine is chief of the quarantine division of the bureau of animal industry in this department.

Without doubt this will be one of the most unpropitious moves of the present administration. "Whether President Cleveland has knowledge that Blaine's resignation has been demanded is not known. Soon after Cleveland was inaugurated in 1884, the resignation of Blaine was also asked by his superior officer, L. Q. Lamar, who was then Cleveland's secretary of the interior, heard that Blaine's resignation had been asked and he immediately went to the White House and advised the president to have the request for the resignation withdrawn. Lamar said to the president: "Action of this kind is not chivalrous and is not worthy of you. Let me advise you not to allow resignation to be forced on the brother of the man you have just defeated for the presidency."

The demand for Blaine's resignation was withdrawn immediately. Since that time he has remained unmolested in office. He is somewhat aged at this time; is not wealthy, and if compelled to resign the act will be disapproved, it is believed, not only by Republicans throughout the country, but by thousands of Democrats, who have always had a warm feeling for J. G. Blaine or any member of the dead statesman's family.

**A Mysterious Murder.**

RICHMOND, Va., April 8.—A mysterious murder was committed yesterday near Chester, twelve miles south of Richmond. The victim whose identity is not known, was a well-dressed young man with his left arm missing. The murderer is supposed to have been a tramp in whose company the young man was seen Thursday evening.

**A Steamship Sold.**

RICHMOND, Va., April 8.—A dispatch from Newport says: The steamship Finance, of the United States and Brazil line, was sold at Newport News yesterday by Deputy United States Marshal Cross of Norfolk. Ludlow & Co. of New York were the purchasers, for \$88,000.

### THE KEY WEST RAILROAD.

The Question of a Receivership Is Before the Courts.

JACKSONVILLE, Fla., April 8.—Judge Don A. Pardee, of the United States court of appeals, presided in the United States district court yesterday and took up the Jacksonville, Tampa & Key West railroad cases and said he would sign an order restoring the receivership of M. V. Cable.

In making the announcement, he said the court still had power to change the receiver, if it is shown that Mr. Cable is not the proper person for the position.

Col. Horatio Hisee of Mr. Young's side of the fight gave notice he would file a cross bill in the pending suit, one which involved the question whether or not Mr. Cable be retained, and if a receiver was appointed, he should ask that his receivership be extended over all of the property of the Jacksonville, Tampa & Key West Railroad company.

The question now for the court to determine is whether or not Mr. Cable shall be retained. Meanwhile the road is only formally under his jurisdiction.

**WAS NIPPED IN THE BUD.**

An Anarchist Conspiracy in Spain Frustrated by Soldiers.

MADRID, April 8.—The government has discovered an alarming conspiracy of anarchists at Xeres, evidently having for its object an insurrection against the authorities.

A body of soldiers recently surrounded a farm house near Xeres, where anarchists congregated, and after forcing an entrance captured the entire band. Documents were found showing that preparations had been made for an outbreak in revenge for the execution of four anarchists in February, 1892, and that the outbreak was to have taken place today.

The prisoners were conveyed to Xeres and lodged in jail.

**WENT THROUGH A BRIDGE.**

A Monon Train Wrecked and Engineer Brooks Killed.

CINCINNATI, April 8.—The train on the Louisville, New Albany & Chicago line which left Cincinnati last night, met with an accident near Frankford, Ind., this morning.

At the hamlet of Rossville is a bridge which is believed to have been weakened by recent washouts. The engine crashed through the bridge going down thirty feet.

Engineer Brooks was killed and Fireman O'Brien probably fatally hurt. The passengers were uninjured.

**Newspaper in Trouble.**

MONTREAL, April 8.—The L'Entendard newspaper is in financial difficulties and has offered to settle with its creditors on a basis of ten cents on the dollar. The liabilities are between \$50,000 and \$60,000.

**Was Nearly Frozen.**

GARY, S. D., April 8.—Ole Lund started for this place last night from Canby, Minn., but in the darkness lost his way and was compelled to stay out all night. He was found in the morning in a half frozen condition.

**Harris Succeeds McLeod.**

PHILADELPHIA, April 8.—At a meeting of the board of directors of the Reading Railroad company, held at noon today, the resignation of President A. A. McLeod was accepted and Joseph F. Harris was chosen to fill the vacancy.

### Inconvenient.

She was a little old fashioned girl, raised among people very much older than herself. One of the cold nights of this old fashioned winter she was sent to bed and a jug of hot water placed as a protection against cold feet. She made an earnest protest against this, and the mother had to threaten punishment before the little hopeful yielded the point. No doubt she did some literal kicking after getting to bed, for shortly after doing so she hopped to the top of the stairway with one foot parboiled from the contents of the jug, and with tears streaming down her cheeks called lustily, "Mamma, it is really very inconvenient for me to have that jug in my bed." It was removed, and the nurse sat up with the foot.—Detroit Free Press.

## THE LUMBERMEN ACT

The First Steps Towards the Establishment of a System of Uniform Grades Taken Yesterday.

J. Newton Nind, of Minneapolis, Spoke of the Advantages and Satisfaction Arising From Uniform Grades.

G. W. Stevens Has Some Doubts as to Its Practicability—A Committee Appointed to Consider It.

A majority of the lumbermen in the Duluth district met at the chamber of commerce yesterday afternoon to take steps toward a uniform grade for lumber. Of the total annual cut of the Duluth district 37,500,000 feet were represented. Twenty or twenty-five of the manufacturing lumbermen of the Duluth and Ashland districts were present and the greatest harmony and enthusiasm was displayed.

The meeting was called to order by L. A. Barber, of Peyton, Kimball & Barber. George W. Stevens was chosen chairman and J. F. Hobbs secretary. J. Newton Nind then stated the object of the meeting, the advantages and desirability of a uniformity and the results of a uniform grading in other districts. The movement is gaining rapid headway in all of the other districts and in the La Crosse Winona district the greatest satisfaction results therefrom. In that district a man was hired to go from yard to yard and instruct the crews in one uniform system of grading.

All of the lumbermen favored the movement, but Geo. W. Stevens had some doubts as to the complete practicability of it, fearing that some manufacturers would be a little independent and averse to being bound to any agreement. He favored the scheme, however, and all the rest felt that it could be made an unqualified success.

Upon motion of Capt. Shaw a committee composed of Chas. A. Duncan, J. W. Howe and Mr. White was appointed to examine into the condition of the grades, sound the manufacturers of the district on their willingness to establish a uniformity, see if a "teacher" can be secured and at what cost and report at a meeting to be called by the committee. At that time, if all is favorable, an agreement will be drafted providing for the establishment of this uniformity in grades.

Various companies in the district were represented yesterday as follows: Mr. White of C. N. Nelson Lumber company, Cloquet, annual cut, 15,000,000 feet; George W. Stevens, of Cranberry Lumber company, Duluth, 40,000,000 feet; D. A. Duncan and F. E. Brewer, of Duncan, Brewer & Co., Duluth, 20,000,000 feet; W. E. Conklin, of Mitchell & McClure, Duluth, 15,000,000 feet; J. W. Howe, of Howe Lumber company, Tower, 30,000,000 feet; Arthur McDonald, of Mesaba Lumber company, 20,000,000 feet; Capt. G. S. Shaw, of Cloquet Lumber company, Cloquet, 60,000,000 feet; L. A. Barber, of Peyton, Kimball & Barber, Duluth, 16,000,000 feet; Frank C. Du Bois, of B. B. Richards Lumber company, New Duluth, 8,000,000 feet; H. Humble, Merrill & King, Duluth, 10,000,000 feet; Mark Paine, of Paine Lumber company, West Superior, 15,000,000 feet; Capt. W. W. Lea and D. S. Clark, of Lea-Ingram and Co., Duluth, 15,000,000 feet; W. D. Bohn, of Iron River Lumber company, Iron River, P. W. Ehr, Ebr Bros. Lumber company, Moose Lake. The Mississippi Valley Lumber company was represented by J. Newton Nind in person and by D. E. Wood, Duluth correspondent. J. F. Hobbs represented the Northwestern Lumberman of Chicago as well as performing the duties of secretary.

## TOMORROW'S CONCERT.

Program Which Will Be Rendered by Prof. Meier's Band.

Prof. Meier has prepared another brilliant program for the concert tomorrow afternoon at the Pavilion and there will doubtless be a much larger attendance than on any Sunday previous. The program is as follows:

March—"Bell of Chicago." Sousa.  
Waltz—"Golden Shower." Waldteufel.  
Schottische—"Belles and Bells." Rollman.  
Idylle—"In the Forest." Ellensberg.  
Romance—"Day Dream." Rollman.  
INTERMISSION.  
March—"Col. Mitchell." Taylor.  
Overture—"To Open Zang." Farrow.  
Polka—"Anril." Farrow.  
Selection—"Fant." Farrow.  
Patrol—"Salvation Army." (Gonard).  
Galeop—"Hailo Hailo." Steinhausen.

## Was Favorably Received.

Since the publication in The Herald a few days ago of Professor Meier's sentiments regarding the assistance of the band by the council, that gentleman has been approached by a large number of citizens who gave warm expressions in favor of it. Professor Meier says that he expected to find a great many unfavorable to it because it might seem to be for the benefit of the street railway company, but this number has been surprisingly small, nearly everyone taking a sensible view of it.

## Church Dedication.

The first church on the Mesaba range to be dedicated is the First M. E. church at Biwabik. The ceremonies will take place tomorrow, when Rev. Robt. Forbes D. D., of West Duluth, will preach at

10:30 a. m., 2:30 p. m., and 7:30 p. m. He will be assisted by the pastor, Rev. Geo. P. Watson. The church was built mainly from contributions of Duluth people, the Merritts leading in the enterprise.

## NEW DULUTH HAPPENINGS.

The Hurd Refrigerator Company's Exhibit for the World's Fair.

New Duluth, April 8.—Several hundred people called on the Hurd Refrigerator Wednesday afternoon to see the nine refrigerators made for the World's fair. Oak, birch, maple, southern gum wood and ash were used in making them. They are all beautifully carved and highly polished. The bird's-eye maple sideboard and refrigerator combined, was probably admired the most, with French plate glass and water tank which would really be an improvement to any sideboard. Altogether it is a fine collection and the Refrigerator company may well be proud of it. It will occupy a place in the manufacturers and fine arts building and was sent Thursday to be in place by April 10. All Duluthians should look for it next May.

The camps are being broken up and men and teams coming in, owing to the bad condition of roads, caused by the recent warm weather.

A representative of the St. Louis Water Power company was in town Tuesday, trying to interest the factories and secure patronage in case the water power of the St. Louis dikes was developed. As the cost of running machinery would be much less with this power, he received considerable encouragement from the different firms.

Mr. Vollar is selling out his stock of furniture and will start a restaurant. Mrs. Vollar will have a millinery store in one side of the building.

Eddie Herman has decided not to return to Owatonna this term, and is attending the Duluth high school instead. A birthday party was given by Mr. and Mrs. John Randall at their home Monday night. Dancing was the amusement of the evening and lasted until morning.

Harry Herbert, who has been with Mr. Lowers in the grocery store for the past year, left for his home in St. Paul Thursday. Mr. Murphy will take his place.

Wm. Shibe received a visit from an old school friend the early part of the week. His brother from Eau Claire, is also staying a few days with him.

Mr. and Mrs. Murphy are moving into the rooms over the post office. The winter term of school closed yesterday, for a week's vacation, to open the 18th and last until June 16.

Appropriate services were held at all the churches last Sunday. At the Baptist church, Mrs. Smith, of Minneapolis, preached in the evening. She is assisting Mr. Tysen at Duluth this week. Rev. Mr. Moore is "at home" now at Fred Herman's.

An orange sociable will be given tonight at the Congregational church. Orange cake, ice cream and coffee will be served, a program given and New Duluth people will be out in force. It was postponed from Thursday night on account of the storm.

Bert Holmes has started in the mercantile business on the range. Mrs. Bisconer has returned from Wisconsin and moved in one of the land company's houses.

J. Herman returned Thursday from a business trip out west. He will remain here a short time.

## Would Not Prosecute.

Last night Simon Hunnedy robbed a companion of a pay check of \$130. Complaint was made to the police. Hunnedy was arrested and lodged in jail. He had only \$20 and a ticket to Saginaw. This morning he confessed that he took the check, cashed it, got a new suit of clothes and the ticket. The man who had been robbed whose name has slipped Chief Horgan's mind refused to prosecute, so the light fingered Simon was released.

## Two Stripping Contracts.

Arthur Stevens, who recently was at work stripping the Moose and Ohio properties on the Mesaba under a sub-contract from J. B. Weimer has secured a contract from Moore & E. E. for removing 25,000 yards of stripping from the Lone Jack. He has also secured the contract for stripping and mining the Lowmore property near Mountain Iron. The contracts will be commenced soon.

## His Farewell Sermon.

Dr. Stocking will preach his farewell sermon to his people tomorrow morning preparatory to his removal to his new charge at St. Joseph, Mo. All who wish to hear the last of his course will remember the hour and not come in the evening expecting to hear that particular sermon.

## Struck by the Train.

Conrad Kalb who lives at Lakeside, was struck by a freight engine yesterday on the Iron Range road and his left leg broken and his body bruised considerably. He is 65 years of age. He was removed to the home of his daughter.

## The Competitive Examination.

Superintendent Denfeld this morning stated that he expects to hold the competitive examination for candidates for an appointment to the military academy at West Point on April 17. He has selected to act with him T. T. Hudson, Dr. Slaughter and Superintendent Stultz.

## Attend the opening, you are invited, everybody is.

## THE MUNICIPAL COURT.

A Few Drunks and Vags Sent Up to Paul Sharkey's Jail.

In police court this morning Patrick Carl, disorderly, Frank Murphy, vagrant, and Henry Elwood, vagrant, were sent up for five days each. Elwood was a smooth-faced young fellow, who seemed a little down in his luck and who said he was trying to get from Spooner to his home in some town about eighty miles west of here. He reached town yesterday afternoon and was run in last night. After sentence was passed he appealed to the judge, but he did not see sufficient merit in the case to reconsider his sentence. After his honor passed into his private office the young fellow lowered his head, placed his hat to his eyes and wept tears of disappointment.

Alex. McRea, a husky riverman, while going home from an evening spent at Ole Olson's resort last evening, lost his hat by the wind, so he said, and while hunting for it between some buildings was arrested. This morning he pleaded not guilty to the charge of vagrancy and trespass. His honor found him guilty, but suspended sentence.

Mat McGowan, who came up from St. Paul two days ago, last evening stole a pair of shoes from Mack & Johnson. The culprit said that he did so, it was while drunk. Ten days in jail were given him.

Rudolph Hall, a young son of T. O. Hall, was up on complaint of Michael Amatez who charged that "One Hall" whose first name was to affirm unknown had broken a window glass at 202 East Second street, by maliciously throwing a stone. The trial was set for April 15.

Just then Chief Horgan came in and said it was not Rudolph but his brother who was wanted. Mr. Hall said that he would bring both of his sons and the one wanted could then be picked out.

Charged with Fraud.

Warrant issued for County Commissioner Wegner, of Beaver Bay.

A warrant was issued this week, on complaint of F. C. Mott, for the arrest of County Commissioner A. H. Wegner, of Beaver Bay, says the Two Harbors News. He is charged with presenting a fraudulent claim to the county, for nineteen of an eleven ox team.

The complaint claims there was not over eight days work done. There are four other charges. The bills were presented for the payment of county road between Baptism river and Cook county line last summer, which Wegner was in charge of. Sheriff Wilson has gone to Beaver Bay to make the arrest. The complaint was sworn out before Justice Seligman.

### What's the Use of Sweltering

In that big, heavy overcoat. It's a nice day tomorrow you'll want a Spring Overcoat: weather moderate enough now anyway for a change. Sure to want one before the summer's over. No use putting it off. Besides, it's too cold to go without one. Any one of these three coats you'll find good value at \$12. Black, brown or fawn Meltons, satin lined and faced to edge. "Just the proper style," with satin sleeve linings.

Then those blue and black Kerseys, well tailored and trimmed. Good enough for any man, \$15. But knowing there are as many minds as people, we have selected our stock accordingly. Consequently our prices run from \$8 up to \$28, in just as big a variety of cloths. If you are a stout man we can fit you just as easy as your friend, who may be a great, tall fellow, or an ordinary shaped man. Because we don't tell you all about Spring Suits, Hats, Caps, Shoes or Furnishings every time, that's no sign we don't keep 'em.

### Get a Mackintosh

Now during the rainy season and you will get some benefit from it. Don't wait for pleasant weather; it may be a long time coming. You should see the ones we are selling at.

#### WAR OVER A CROSSING.

The Missabe Road Tried to Cross the Iron Range Tracks.  
The two leading roads of the Mesaba have had their first brush in the way of a crossing war, says the Mesaba Range. About five miles west of McKinley, on the Virginia extension of the Duluth & Iron Range, there is a deep ravine running at right angles with the surveyed line of the road.

The Duluth, Missabe & Northern officials evidently thought this ravine offered a good opportunity of building a spur to the McKinley mine and the other properties in that vicinity. Anyway, they have had a crew of men at work for some time past laying the ties and rails for a spur from their Biwabik branch.

Last Friday the rails were laid within 100 feet of the Iron Range grade. Then the fun commenced. The Missabe crew began laying ties just on top the ground and had nearly reached the crossing when discovered by Winston Bros., men. Immediately there was a blockade. The Range was unable to learn just how serious the trouble was but it was so serious that warrants were sworn out for six of the Missabe ringleaders and the marshal of McKinley went out to make the arrests, but was unsuccessful. The Missabe men had made themselves scarce by the time he arrived.

## THE DISTRICT COURT

Both Judges Occupied This Morning in Hearing the Special Calendar of Seventeen Cases.

The Old Case of T. B. Hawkes & Co. vs. Northern Pacific Railway Company Heard and Submitted.

Another Motion Argued in the Backus vs. Burke Case—Judge Hooker Also Hearing a Case.

There were seventeen cases on the special term calendar today and nearly all of them were disposed of by noon. The old case of the state of Minnesota ex rel T. B. Hawkes & Co. vs. Northern Pacific railway was heard and submitted. The case was begun more than a year ago and relates to the refusal of the Northern Pacific railway to deliver cars to the plaintiff because certain demurrage charges of the Lake Superior Car Services association were not paid. In the case of Hattie W. Backus et al. vs. Frank Durke et al. the defendants' motion for a new trial and the opening of judgment on dismissal was argued before Judge Lewis. Decision was reserved. The case of Duncan McLachern vs. W. H. Allen et al. is being heard by Judge Hooker.

A motion to correct the findings was denied in Joseph LePage et al. vs. Timothy Ryan. In the Duluth, Missabe & Northern Railroad company vs. A. H. Hedderly et al. R. F. Wilcox, John H. Upham and Alex. Fraser were appointed commissioners in condemnation. In the case of the assignment of Ludwig Kahn an order was entered allowing two claims to be entered and releases to be filed. In the matter of the Duluth, Missabe & Northern Railroad company vs. Francis A. O'Hara et al. J. E. Cooley, W. E. Richardson and Charles W. Hoyt were appointed commissioners in condemnation.

A motion to open judgment in John P. Schmitz vs. Alexander Gilmer was denied. The report of the receiver was filed in Hunsree-Brown Lumber company vs. M. C. Wynant et al. In M. W. Bates vs. R. H. Richards Lumber company the defendant was given twenty days time from April to make its case. The matter of the assignment of T. O. Hall was heard and submitted. The divorce action of Lizzie Morse vs. John P. Morse was continued.

Before Judge Lewis in the case of Charles Ith vs. the city of Duluth, the motion of the defendant for judgment on the pleadings was denied. In the Duluth Transfer railway vs. Grassy Point Land company et al. the appeal of A. P. Lind was dismissed on stipulation. In James Duggan vs. James Turner, the demurrer was overruled and the defendant given ten days to answer.

The Regular Term. In the district court yesterday afternoon the case of William Stevenson vs. Hubbard & Vincent was not concluded and was adjourned until Monday. The plaintiff was a sawyer in the defendant's mill and received injuries which he wants \$10,000 to satisfy.

The following setting of cases was made for next week: Monday—75, 80, 95, 101. Tuesday—105, 106, 107, 110, 118, 11, 14. Wednesday—25, 27, 33, 44, 42, 45—criminal cases. Thursday—50, 60, 63, 71, 77, 82. Friday—38, 89, 90, 91, 92, 93.

This afternoon a number of the prisoners were arraigned and required to plead.

Miss Kate Ball Talked to the Teachers on "Art Education" This Morning.

Miss Kate Ball, the representative of the Prang Educational company, who has been in Duluth the past few days, addressed the teachers of the public schools at the Central high school assembly room this morning on "Art Education." She spoke particularly and enthusiastically of the opportunities here for teachers as a pupil for models and subjects as well as inspiration, the rocks, terraced hillside, buildings and their stone carvings, towers and all the features afforded by various industries.

Miss Ball stands prominent as a teacher of drawing, having been superintendent of that branch in the Omaha public schools alone for eight years. She is an expert and her exemplification of the principles underlying the Prang system has been of great value to the teachers.

The LEGISLATIVE PARTY. The Mining Committee Will Arrive Tonight and Go Up on the Range.

The committee on mines and mining will arrive from St. Paul this evening over the Eastern Minnesota road at 7 o'clock and with them will come seven other members of the legislature. Lon Merritt, chairman of the committee, will also be "chaperone" of the party. A banquet will be given the visitors at the St. Louis hotel at 8:15 o'clock.

Immediately afterward a special train will leave for the range bearing the party. Mountain iron will be reached in time for breakfast. The properties around Virginia will be inspected and the party will then leave for Biwabik. From the latter place the return home will be made, the train arriving here Sunday evening.

The Bethel Social. The social given at the Bethel Workmen's club last evening was largely attended and was an entertaining affair. A program was given.

Miss Belle Hopkins gave piano solos, Miss McKenzic and Miss Okerlund sang, and Prof. K. G. had larger than a year ago, and about the same as two months ago. # DULUTH EVENING HERALD.

ELEVENTH YEAR.

SATURDAY, APRIL 8, 1893.

FIVE O'CLOCK EDITION.

THREE CENTS

## PANTON & WATSON

### GLASS BLOCK STORE,

Superior Street, Michigan Street and Second Avenue West, Duluth, Minn.

## THE GRAND FORMAL OPENING OF OUR NEW STORE

WILL POSITIVELY TAKE PLACE

MONDAY, APRIL 10, 11, 12, 13, 14, 15.

## Our Mammoth Spring Stock

is now complete, and we can readily say without fear of contradiction that our stock, for quality, quantity and selection, has no equal in any city in America three times the size of Duluth and Superior put together. We think it unnecessary for us to go into any detail regarding our methods of doing business; regarding the advantages we have over small merchants in buying; regarding our integrity as merchants. We simply invite you one and all to visit our store any time you wish during the week of our opening. Our store in itself is the second largest in Minnesota, and is acknowledged to be the most complete finest equipped and best furnished and best lighted store in America. All four floors will be thrown open for your inspection and criticism, including our boiler, engine and dynamo rooms. The system of this mammoth institution will be found very interesting to everybody.

**SPECIAL NOTICE:**—For the entire week of our opening we will offer the greatest bargains ever offered by any house in the United States as an inducement to bring every lady and gentleman out to visit an institution every inhabitant at the head of Lake Superior ought to be proud of.

## FIRST JOBBING HOUSE

Henry Truelsen Thinks He is Entitled to Be Called Duluth's First Wholesale Merchant.

He Relates Some Reminiscences of Early Life in the Zenith City and the People Then Here.

Election of the First Mayor and the Murder of Northrop By a Gang On That Day.

The story of the inception and evolution of Duluth is old, yet ever new. Those who, with their own hands, wrought portions of the history, and with their own eyes beheld the resilient and inevitable effects of time and circumstances, like the aged warrior, love to hear the old, old stories. Those who have since appeared upon the scene consider that a full knowledge of the past not only of the deepest interest, but an invaluable guide to the future with all its great triumphs and full realized possibilities.

First, in the shady portion of the '50's came the "fish eaters," who were the John the Baptists of civilization at the head of the lakes. In some respects, John the Baptist was in better shape, for he had garments of soft camel's hair to wear, and succulent locust pods and delicious wild honey to eat. The "fish eaters" were strangers to white flour but not strangers to garments of buckskin, and as for their daily food only too many times were they compelled to fall back upon the members of the finny tribe captured by hook or trook in the chilly waters of Gitchie Gumbo.

The dark days of the rebellion came and went. The days of reconstruction drew on apace and in the closing days of the '60's the "fish eaters" were steadily reinforced by those who were to hasten the miracle of the consummation of the prince of cities—Duluth.

Alderman Cox lays claim to having started the first successful manufacturing enterprise in this city. The story was told some months ago in the Herald's columns. The man who holds undisputed claim to having established the first wholesale house in Duluth is Henry Truelsen, who began his career in public works. While in a reminiscent mood recently, he spoke somewhat at length of his pioneer days. With his consent The Herald has reproduced his modest tale.

"Twenty-four years ago the 8th of next May," said Mr. Truelsen, "I first saw Duluth. The charter of the Paul & Duluth railway required that road, when extended, to stop in Minnesota at Lake Superior on this side of the bay. Full operations for the extension from White Bear were under way and there was much excitement in the northern part of the United States over the importance to which Duluth would rise in consequence.

"I had been keeping books for my brother at Eagle River, Mich., before I decided to cast my lot here. Superior was quite lively then and as there was as yet no hotel in the city, the newcomers were compelled to stop at the city across the bay. I first landed in Duluth at Peyton & Kimball's dock, Capt. Thompson, who now lives at Washburn, was then running a small ferry across the bay. There was a small sawmill on Connor's Point on the other side, while on this side, the houses of the lumbermen and the only population a few 'fish eaters' and a sprinkling of halfbreeds. Superior street was a county road that had just been cut through. The forest on the hillside ran right down to it and when a new settler wished to erect his cabin, he was compelled to clear away the forest where now stand the big blocks and magnificent homes. The street was very rolling, up and down, like billows on the sea. Its present comparatively level condition is due to filling in the hollows.

"On Minnesota Point there were not over ten houses. Commodore Saxton lived there and Dr. Foster was running his newly born paper, 'The Minnetonan,' in a small shack in the place. Among others who were here at the time, I remember Clinton Marshall and J. D. Key. Portland division had less than half a dozen houses and but little of the city was then laid out. Onora, to the west, had possibly seventy people.

"As I said, I got here in 1869. I wanted to go into business but could find no building to rent. If I erected one, my capital was so limited I would have none left with which to purchase a stock and run a business, so I hired out. My first work was mixing mortar for Peterson & Tucker. I followed that all summer, and in the fall of '69 worked on a gravel train on Rice's Point. It finally fell to my lot to boss the gang that laid the rails on the St. Paul & Duluth railway into Duluth. In January, 1870, I helped blast rock and build the breakwater at the old elevator at the East End. All the business then was east of Second avenue east. Portland was the center. When the ship canal was built, Lake avenue was the favored spot.

"After I got through with my job blasting rock, I formed a partnership with Mike Pastore in the grocery and saloon business. I attended to the former and he to the latter, the firm being Pastore & Truelsen. In the fall of '71 I bought him out, abolished the saloon and pushed the grocery business. At that time Duluth was a stranger to traveling men. Our goods were purchased from traders who came up from Detroit. They carried quite an assortment, aside from fruit, butter, eggs and provisions, and anything they did not have, took orders and delivered the goods the next trip. When they reached port we local dealers in Duluth would strike the lantern, sing out, 'Well, what have you got today?' and then nearly tear them to pieces in our efforts to see who would get the first chance at the produce. The principal traders of that kind were Hi Holmes, 'Big' Holmes and George Smith, who now travels for a Detroit cigar house and whom, by the way, I and all around the head of the lakes met on the street one day this week. Hi Holmes is up at Portage and I don't know what became of his brother.

"My grocery business prospered and from time to time I increased my line of goods, adding clothing and then boots and shoes. From the time I struck Du-

luth until the panic in 1873 times and trade were good. After that the town dwindled down from 5000 to 2500 people. Many failures resulted, credits were sent glimmering, men with corner lots were not considered good for a sack of flour in fact the man who could control a sack of flour was king in those days. About 1878, things started up again and gradually improved. I built up a large wholesale trade, supplied all the lumbermen and in seasons of depression carried men who now are independent financially of times and circumstances. I think no one will deny the statement that I was the pioneer wholesaler of Duluth.

"In those early days we were wonderfully happy and contented. Every man lived simply and within his income. All were acquainted and there were no elaborate amusements. Once in awhile there would be a social gathering, a little dance, some music and things of that kind. The churches soon came. When I got here there was one little school house in Portland. In that was held the election by which Duluth's first mayor was chosen, J. B. Culver was the man honored and a man worthy of honor he was, too.

"I will remember that day, by this seat on my cheek and the fact that murder was committed. There had been working on the railroad a gang of men called the 'murderous joo,' and tears were shed. They had been sent out from the slums of Philadelphia. They all came into town election day. Trouble resulted and the gang got after a man named Northrop. He ran into a butcher shop at First avenue east and Superior street and slipped out the back door to get to his house at the corner of Second avenue east and Second street. The butcher came to the door and stood off the gang with a long knife. It was soon found that Northrop had escaped. The roughs started after him and met his brother coming down the hill. A dispute followed in which the brother was stabbed, his death following in a few hours.

"I was standing on the shop steps under a wooden awning. I thought the gang had passed and looked out after it. A member of it came along and hit me under the eye with a stone, of which this scar you see is the result. A friend led me down to the water and washed off the blood which saved me from being taken for one of the toughs.

"Several of that gang were indicted and sent up. One who went to the penitentiary was the son of the mayor of Philadelphia, who had gone to the dogs and then drifted west with the scum of the streets. He afterwards was pardoned through the efforts of those in high positions.

"In 1879, I erected my large store on Lake avenue. An offer of a lot free was made me if I would locate on Superior street. I laughed at it and built on the avenue. Today the Superior street lot is worth \$60,000, but there was nothing then to indicate such a future. That was another case showing that man's foresight is not as good as his hindsight.

### World's Fair Visitors.

An intending visitor to the coming World's fair at Chicago need have no fear as to the possibility of securing satisfactory accommodations, at reasonable rates, at either the many hotels or residences listed in a recent pamphlet entitled, "Homes for Visitors to the World's Fair," compiled at great expense and published by a trustworthy Chicago firm. This book contains a list of about 600 private families who will accommodate visitors in Chicago during the time of the fair, viz: May 1st to October 30th; gives their names and addresses, and number of rooms each will have to spare. The book also gives a list of the hotels and their locations; has twelve full-page, large-scale maps, each representing a section of the city, so that with this information before him the intending visitor himself can, at leisure, select the quarter of the city in which he would prefer to stop, corresponding in advance with one or more families in that locality with regard to rates and the accommodations desired.

The Wisconsin Central lines will in due time publish low excursion rates to Chicago and return for this occasion, while its double daily passenger train service, including through sleeping and dining cars to Chicago, will as usual be at the head of the list in every particular. To help you in fixing in advance upon your place of residence while attending the World's fair, we have placed in the hands of our agent at your station copies of this work, which may be obtained at 50 cents per copy.

## POPULAR IN CONCERT.

Representatives of a Brilliant Profession.

The Concert Stage Made Popular by Patti and Nilsson.

Two Well-Known Musicians Have the Same Experience.

The concert stage, rendered so popular by Patti and Nilsson, has several eminent representatives in our own country. Among them few dulute more prominent than Mr. and Mrs. W. Ryno, of Perth Amboy, N. J. Mr. Ryno is a violin virtuoso and his wife is a singer of high merit.

These two musicians have recently passed through experiences so singular, with results so identical, that they desire to give the facts publicly. "I am a violinist," said Mr. Ryno, "and for some time I was troubled with a nervousness and a numbness in my right

arm, caused, I suppose, by too close application to my studies, both of mind and body. I am pleased to state that two bottles of Dr. Greene's Nervura blood and nerve remedy cured me of an attack that I was afraid would end in paralysis, and so incapacitate me from my calling. The curative powers of this remedy are wonderful."

Mrs. Ryno said: "For several years I suffered with a form of indigestion that baffled the skill of three eminent physicians. At times I despaired of my life. I then began taking Dr. Greene's Nervura blood and nerve remedy and I cannot say too much

in its praise. All my troubles have given place to a healthy tone of both mind and body, and I feel like a new being." Dr. Greene's Nervura blood and nerve remedy is exactly what you need if you are sick or ailing. It is exactly what is needed at this season of the year to invigorate your blood, strengthen your nerves and regulate the liver, kidneys and bowels. It is in fact, the best and most reliable remedy for all nervous and chronic diseases. The doctor can be consulted free, personally or by letter.

Railway Conductions. What is the railway mileage of the United States? 170,601 miles. What has been the cost? Over ten billion dollars.

What state heads the list in point of mileage? Illinois—10,079 miles. What is the average cost of constructing a mile of railroad? About \$30,000. Who built the first locomotive in the United States? Peter Cooper.

What is the cost of a palace sleeping car? About \$15,000, or \$17,000 if vestibule.

What road carries the largest number of passengers? The Manhattan Elevated railroad, New York—525,000 a day or 191,625,000 yearly.

What are the chances of fatal accident in railway travel? Statistics show one killed in every 10,000,000.

What road runs the famous vestibule, electric lighted and steam heated train between St. Paul, Minneapolis and Chicago? The Chicago, Milwaukee & St. Paul railway. It leaves St. Paul at 8:10 o'clock every evening. Considered one of the most complete and handsome trains in this country.

## SAVE MONEY!

Until May 1 You Can Take Advantage of an Offer So Liberal That People

WONDER HOW IT CAN BE MADE

Catarrah and All Kindred Diseases Treated Until Cured for \$5 a Month. All Medicines Free.

"Well, doctor, I have come back, and I must confess your words came true, but I thought I was all right and needed no more assistance, and I felt that I could save my name and be believed from the trouble of taking medicine. I see now that I was feeling well because of the approach of summer and the good effect worked upon me by the bland, wholesome air of the season; but I have not improved as I thought I would, and I feel that I am going backward, and inasmuch as the predictions that you made have come true, I have concluded to come to you and act upon your advice."

The above statement is only one of many made to the physicians of the Copeland Medical Institute daily at this season of the year by patients who have neglected their advice to take a thorough, systematic course of treatment for their catarrhal troubles. Many patients, because of the quick results obtained by the system of treatment, imagine that they are entirely well, and that further treatment is unnecessary. The physicians of the Copeland Medical Institute have repeatedly in these columns, and also in the consultation room, urged the necessity for continuous and systematic treatment in all chronic troubles, more particularly those of a catarrhal nature. That is the reason they inaugurated their \$5.00 rate for treatment, so that patients could afford to continue with them long enough to receive a perfect cure. Catarrh is a treacherous, insidious and powerful disease. It is no less dangerous when it slumbers than when it is awake and active. It should be resisted at all times. A word of advice to those who are neglecting treatment of the disease should be received by them carefully, and acted upon promptly. Call upon the physicians of the Copeland Medical Institute and consult with them, take treatment from them, and you will be astonished at the wonderful results. The physicians of the Copeland Medical Institute want to reach every patient who during the winter months only remained under treatment a short time, under the impression that because they got such quick results, and felt comparatively well, that they permanently cured. Therefore, take timely advice

and renew your treatment, broken off by vacations and other similar causes, and determine to remain under treatment until pronounced cured by the physicians of the Copeland Medical Institute.

THE ANNOUNCEMENT OF THE EXTENSION OF THE POPULAR \$5 RATE HAS BROUGHT HUNDREDS OF PEOPLE TO OFFICES OF THE COPELAND MEDICAL INSTITUTE DURING THE LAST FEW DAYS. FORGIBLY DEMONSTRATING THAT THE PUBLIC APPRECIATES THE GENEROUS OFFER MADE BY ITS PHYSICIANS. THE TIME HAS ONLY BEEN EXTENDED TO MAY 1. AND IT IS TO THE INTEREST OF ALL DESIRING TREATMENT TO CONSULT THEM EARLY, THUS AVOIDING THE RUSH OF THE LAST DAYS.

Hearing Impaired by Neglect. The case of Miss D. Appelgren, of 1703 Second street west, aptly illustrates what skillful treatment has done for a discharge from the ears that had troubled her for the last fifteen years.

"I had diphtheria when I was five years old," said the lady, "and since that time I have been troubled with my ears. My hearing was greatly affected, I could hear the ordinary sound of voices but could not distinguish words. Incusant noises were in my ears. I suffered awfully with headaches. At times the discharge from my ears was very profuse, so much so that it would saturate the pillow on which I lay at night, sometimes my ears would bleed. I tried

many times to have my trouble remedied, but without success. Nothing seemed to do me the good the Copeland system of treatment has done. I was induced to try the Copeland Medical Institute by a friend who had received beneficial treatment there and am glad I did so. I began to improve at once and now I am happy to say my hearing is good, there are no noises in my ears, no headaches and there is no profuse discharge from my ears such as I suffered with heretofore. My testimony is gladly given so that others suffering as I did may know where they can secure the best services for a small fee."

Notable Credentials. The location of the offices of the Copeland Medical Institute in the city of Duluth is a permanent one. Their leases and contracts are for a term of years. Dr. Copeland is a graduate of the Bellevue Hospital Medical College of New York city, was president of his class in that famous institution, and after thorough hospital training and experience devoted his entire time and attention to the special lines of practice named below. Passed through a similar course, Dr. Hunt and Dr. Drenning also devote themselves exclusively to the treatment of these specialties. Years of experience in their special lines, preceded by extensive hospital work, have fitted them in a notable degree for the practice of their profession.

My hearing was greatly affected, I could hear the ordinary sound of voices but could not distinguish words. Incusant noises were in my ears. I suffered awfully with headaches. At times the discharge from my ears was very profuse, so much so that it would saturate the pillow on which I lay at night, sometimes my ears would bleed. I tried

many times to have my trouble remedied, but without success. Nothing seemed to do me the good the Copeland system of treatment has done. I was induced to try the Copeland Medical Institute by a friend who had received beneficial treatment there and am glad I did so. I began to improve at once and now I am happy to say my hearing is good, there are no noises in my ears, no headaches and there is no profuse discharge from my ears such as I suffered with heretofore. My testimony is gladly given so that others suffering as I did may know where they can secure the best services for a small fee."

## SOME COURT SCENES

Some Incidents Occurring in the Hall of Justice at the Opening of the April Term.

An Attorney Serves a Notice of a Trial By Telegraph and the Court Held It Good.

Judge Ensign Tells an Amusing Story of a Former Well Known Duluth Attorney.

There are sometimes bursts of sunshine amid the gloom of legality, and sometimes the ogre, the court sits down with a squash on fresh attorneys in a manner that blanches their cheeks. Several little incidents of court life have been flying around the last day or two and as they may prove interesting in print The Herald has gathered them together for the benefit of its readers.

During the call of the calendar on Tuesday, case no was called and one of the attorneys for the prosecution rose and said: "May it please your honor this is a jury case, but the name of the plaintiff should be James Magee, and not James Mayer as printed."

The attorney for the defense said: "Your honor, if you please, this is a jury case."

"Is it?" shouted the prosecution; "we have a right still left to us—that of trial by jury, and we insist on that right; it's a jury case."

The case was an injunction matter, or something of that sort, and was clearly not a matter for jury deliberation, and Judge Ensign said: "I am somewhat familiar with the case and know that it is a court case and I have so entered it."

This brought the prosecution to its feet and the young Blackstone of well known nautical proclivities said: "It's a jury case; it's a joined action, and I want an exception noted."

To this burst of eloquence the court simply said "I will not give you an exception; and some unimpaired brother limb of the law rose and said that the attorney went behind the partition to commune with his indignation."

At the same call of the calendar the attorneys were asking that their cases might be placed at the foot of the calendar, and Attorney McManus, when case 58 was called arose and said "your honor, this is a jury case and we are ready for trial; I would ask if no objection is made, to have it tried as the first jury case."

The court looked up and said "It is ordered. This is a rather unusual request at this time, Mr. McManus, for judging by the appearance of things this term of court has convened about a week too early for the majority of counsel."

The judge laughed in unison at this little bit of the judge's and the call proceeded.

There was a rather unusual happening in legal circles, during Wednesday afternoon, before Judge Lewis. In the case of J. B. Douglas vs. the North Star Construction company, through an oversight, service had not been made of some necessary papers on Barr & Catlin, the St. Paul attorneys, until about noon on March 27, the last day that the law would allow, and Attorney Keyes, for the plaintiff, went to the Western Union Telegraph office in Duluth and wired the entire notice of trial down to St. Paul, where he had messengers in waiting who served the notice on Messrs. Barr & Catlin, who acknowledged service by wire. The bill for telegraphing was something like \$100, but the action was in legal extremis and something had to be done.

The matter came up before Judge Lewis for argument Wednesday and he decided that the service was good and sufficient. There was no reason why it should not be, but it was the first instance of the kind on record in the North-west, if not in the country, where a notice of trial entire was telegraphed in the pursuit of legal service.

Judge Ensign told a little story during the week to a small coterie of old friends. It was something like this: Away back in the 70's, when the judge was conducting his ordinary law business, he was interested, as counsel, in a case which was to be heard before H. N. Setzer, an old Duluth lawyer, as referee. The proceedings were held in the old municipal court room in the Hayes block and were conducted by proxy in their nature. Referee Setzer was very methodical in his habits, even to his occasional drinks, which he always took at stated hours.

The proceedings went along and the hour at which Mr. Setzer imbibed arrived, and he said: "Gentlemen, this court will now take a recess to enable it to take a drink; the defendant will foot the bill," and he adjourned until the drink was secured, after which the gavel was resumed. During the long time that the action was being heard Referee Setzer never missed a regular "nip" and he always announced "the defendant will foot the bill." Mr. Setzer is still practicing law, but is now located at Taylor's Falls.

**PREACHING AMONG THE PINES.**  
A Missionary's Vivid Description of Life at Iron River.

William T. Patchell has written for the Buffalo Express an interesting account of his experiences as a missionary to the lumber districts of Northern Wisconsin, particularly his life at Iron River. His description of the life which visited that town last year is interesting.

Sitting in my room on Sunday afternoon of July 24th, I was startled by the cry of "Fire!"

Rushing down stairs I looked up the street and saw that the last building at the end of Main street was burning. What little wind there was blew down the street, threatening destruction to the whole town. The alarm sounded at 4:30 in the afternoon, and at six o'clock Iron River was cleared off the face of the earth.

The fire caught hold with fearful rapidity, and soon it was evident that everything was doomed and some effort was made to save what household goods could be gotten out. The fire flew in

open defiance. The open saloons, and we then had twenty-four, were speedily emptied, the contents being carried back in the woods and hidden, while the refugees returned for more. Not a hand would they lend to save anything else. No persuasion could move them; and hundreds of great brawny men stood by and watched indifferently while stores and houses and household goods went up in smoke.

That night was a desolate one for Iron River. Those who had saved anything stood around all night with drawn revolvers. Two-thirds of what had been saved from fire had been stolen and "cached" in the woods. The scene as night came on was wild and trying. By a o'clock the women and children had been placed under such shelter as we could find. The sawmills back in the woods had escaped, and their boarding houses could care for many. Here and there through the woods were scattered little shacks into which the people were taken to get on as best they could.

It would take a Dante to picture the scene that night as I walked through the main street. It was very dark, although the sky was clear overhead and the stars shone, but in the west the lightning flashed and occasionally the low rolling thunder could be heard. The sandy streets had been baked hard by the fierce heat, and the cyclone of flame and wind rushing down had swept it clean as a billiard-table. On either side the flickering embers gave some light, intensifying the deep blackness of the girdling forest and shedding a strange, shifting glare on the street scenes.

A hundred feet from the track was a crowd of demons surrounding a barrel of whisky. The lung was out, and fifty at least were crowding around with broken glasses, bottles, dishes, anything to get the liquor as it flowed, and then to pour it like water down their throats. They howled and shrieked, and in the dull, uncertain glare they indeed looked like beings fresh from hell. Three hundred feet up the road the scene was again being acted. I was heart sick and discouraged and surely felt that hell had broken loose.

Food was sent in by 5 o'clock the next morning; at 7:30 five saloons were running on planks resting on kegs. At 12 noon, a dozen saloons more had erected shacks out on the street and were doing business actively with what little stock they might have. "The Royal Bottega on Earth Again," was the legend on one, and tired as I was and sick of the fearful work their ministry had caused, I could not but smile at the audacity of such a sign stuck to a structure so low and high. The next day other shacks were erected, and before three days had elapsed, almost every merchant was doing business, a little crippled, perhaps, but still able to help out somewhat.

Tents were sent in to shelter the people, old clothes, food and the necessities of life. Within a week the town again looked almost normal. Permanent structures were arising, and in several instances brick blocks were put up where pine shacks and stood. The D. & S. S. railroad began an extension. This brought more money into town, and today the young city is strong and vigorous, closely crowding 2000 inhabitants, with water works, an electric plant, school house, a beautiful church that cost \$2400, and is only about a year old.

Describing the beginning and sudden growth of Iron River, Mr. Patchell says: "The place became advertised, all Wisconsin became interested in this little bit of the judge's and the call proceeded."

Each saloon had a piano, a fiddle and a vocalist who was paid according to lung capacity; a variety theater was opened with as many and full attractions as any city resort—attractors that were certain to win from the device with scrupulous certainty, money, respect and everything good he possessed. It was a strange collection of people. The wickedness was open and flagrant. Deeper back in the dense forest, with only a trail leading to them, houses sprang up like mushrooms in a night, and from the east and west and north and south, there came flocking brazen-faced women and girls. Strange indeed was the contrast to find hidden back in the virgin forest, in a spot where nature yet seemed to exert her mightiest force, a very carnival of demons, where night after night wild orgies were conducted and manhood and womanhood seemed something worse than the inheritance of brutes.

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her household. E. H. Johnson, of C. K. ## BILL IN CALIFORNIA

William Rooms at Large in Its Luxurious Orange Groves and Eats the Luscious Fruit.

Why Nye Will Not Visit the World's Fair, With Something About a Big Hotel.

A Meeting With An Old Friend, Whose Case Shows Honestly Is Not Fatal to Prosperity.

(Copyright, 1893, by Edgar W. Nye.)  
AMONG THE ORANGES AND LEMONS.

The contrast between Maine and southern California as rival winter resorts is very great. Here the orange is picked during the entire year, and it is estimated that enough oranges fall off and are plowed under as fertilizer each year to supply the new state of Wyoming completely the year round.

It is estimated that established orange orchards of a good quality yield 10 per cent on the investment. Of course poor brands of oranges, just like ill chosen orchards of poor, miserable apples, yield much less. A young orchard not only does this after it is in bearing, but incurs very great expense in taking care of it. This information I got from old and tried friends and not from agents, and I speak especially of Riverside, where the orange is found in its greatest perfection and free from disease.

The banana grows in southern California, but would rather not. It was induced to try this country by the tarantula, which flourishes here and loves to dust off one's chest with his hairy legs. An amateur Cleopatra here used the tarantula with great effect in taking her own life in the closing scene, but the bite of the tarantula involved so much sick dancing and calisthenics that the scenic effect was good and did much to revive "Cleopatra" on the coast.

As I write this it is raining great big invoices of eastern rain of the wet kind, and yet a hospitable man has his open victoria at the door for me to go riding for the purpose of adding to my collection of scenery.

Hospitality is one of the best products of the human heart, and there is no danger of overproduction, but I am so thoroughly gorged with scenery from the Natural Bridge in Virginia to the Golden Gate that when any one says scenery to me I writhe. Orange orchards are rare and beautiful sights, but when I can sit in this warm room gathered about a big coal fire and see miles of them from the window, why should I not be content? The climate and they are so soft and equable that most every consumptive has a nice big palm over his grave.

This statement is not intended to reflect on the climate. Many consumptives come here and live as long as they care to. Still it is a lovely spot.

At Riverside I met my old friend W. J. W. typist. He was the agent of the government at the seal islands. He staid there with his family for years among the Aleut Indians and studied the whole seal industry. He made a long and careful report, showing how the government could save thousands of dollars by supervision bill 100,000 seals per year and not damage the plant. This report took all his spare time while there. He returned in fur garments, he and his wife and little girl, and with a head of whiskers that people came hundred of miles to see.

The New York press was eager to get some of the water contained in his report, but he said, "No, it belongs to the government." So, although he was not rich, he was loyal to his report to his chief and offered it to him.

The chief, who is now no more, having been ere this judged for his crookedness, said haughtily to Captain McIntyre: "What does the government want a report from you, it will signify it. Good morning." Captain McIntyre, who was reworded then and did not know that cabinet officers sometimes stood in with a seal killing syndicate, threw the carefully prepared document in the grate and began the practice of law. His advice would, if followed, have saved all Behring seal trouble.

He has been rewarded, and I am glad to see that things are going his way. Honesty is not always fatal to prosperity.

California is noted for its roads and streets. I took a 12-mile ride the other day without fatigue, ate 16 large navel oranges and picked out a good orange grove for my wife. Orange groves are worth from \$200 to \$1,100 per acre, according to the age of the trees and the quality or variety of the fruit. Ten acres or twenty is the size of the average orchard. A man can be hired reasonably to take care of the trees and attend to the marketing. I took half an acre.

countered. As the poet so truly and so graphically goes on to state:  
Oh, how I love to write upon the leaf letterhead  
And chase a thought with nimble, trenchant pen.  
To squeeze the berry of the poet judiciously  
And jerk with joy a drop of ink!  
Oh, what a glorious thing is thought,  
And what a joy to make a nation think!

In using the above and quoting from myself I give utterance to a sentiment that every one has experienced.  
The Coronado Beach hotel, near San Diego, is about the largest hotel at which I ever put up so much as I did when I came away from the place. The surf is heard beating with a low San Diego boom against the beach. This boom costs one \$2 per day. Food, lodging and boom each \$2. Still that is cheap for a boom.

I remained three-quarters of a day at the San Diego hotel and then resumed work. I hate to be idle. The Coronado cost a very large sum of money, but did not pay, so a creditor bought it for \$100,000, and while he was thinking what he would do with it was offered \$1,600,000. He accepted it at once, as he already had another hotel.

It was full when I was there at living rates, say \$6 to \$65 per day. The courtyard contains 80 acres of land, which is very valuable, as people are constantly settling up in the neighborhood—if they can. The dining room is bounded as follows: Beginning at the southeast corner at a sideboard; then running 8 poles 2 chains and 3 links to a palm tree; thence south 11 poles 2 chains and 4 links to a fence; thence west 47 degrees 5 poles 3 chains and 2 links; thence north 10 poles 1 chain 2 links to a point of beginning.

Invalids are admitted if they will agree not to die in the house. In one room, the bell must, the following statement was made:  
"Guests need not ring for water, as a glass of water is always at hand."

The way to find the Coronado hotel on landing in San Diego is to look first for the opera house, where we appear. The following is a drawing of it from memory:

A represents the auditorium. B, proscenium. C, dressing room. D, people easily entering. Inquire there, and you will be shown the Coronado, which you will recognize by the rates which come into view long before the hotel is reached.

Carriage hire and Mount Hood are the two highest things on the coast aside from that.

San Diego county is larger than Massachusetts, but not so thickly populated. It is a laim for the consumptive if he will be a little careful about taking cold. The climate and they are so soft and equable that most every consumptive has a nice big palm over his grave.

seer and will introduce it into California. The Pacific ocean reminds me very much of the Atlantic and evidently belongs to the same family. It contains salt, seaweed and the Sandwich Islands.

The people of California are, after all, the best feature of the whole country. The cream of the ambition, kindness, industry and thrift of the older states is here. It explains why you sometimes strike an old deserted village in the far east, where only the old or incapacitated are to be met with. The young are here. Booms may come, and booms may go, but California will go on forever.

Miss Millions—Why, yes; I haven't the slightest use for it.—Truth.

A Generous Soul.  
He was leaning against the corner of a building on Main street and discussing the hardships incident to the life of a laboring man. "I don't care what they say," he announced, "I believe it's the duty of every man to provide liberally for his family. Of course I don't say that the wife should help, if she can, but I mean that a man who is married and has children should be liberal and not go around blowing in his stuff at bars for poor whisky. My wife and I always work on that plan. She's got a job as janitress of a public school and takes in washing on days when she isn't busy at the school. I work whenever I can, and between us we get along pretty comfortably."

"I understand," said one of the circle, "that your wife supported your family, and I got it pretty straight too."

"Well," said the man who was leaning against the corner indignantly, "it's a blamed lie! I'm liberal with my family. I am."

"But your wife buys all the groceries and pays the rent, doesn't she?" inquired the next man.

"Yes," said the first speaker confusedly.

"Then, what do you do?"

"He thought for a moment. The other man began to guff him. Finally he broke out in triumph: "What do I do? Why, I've bought every bit of stove blacking that's been used in that house for six years."—Duffalo Express.

His Conclusion.  
The man from the country wanted his tooth pulled, and the dentist fixed him in the chair and began to unlimber his gas machine.

"What's that?" asked the patient in start, "times as he half rose from the chair."

"Gas," replied the dentist briefly.

"That stuff that knocks a man senseless?"

"Not so bad as that, but it renders you insensible to pain."

"Won't it hurt me to take it?"

"Of course not."

"I'm afraid I won't get over it."

"Yes, you will. Why, man, I'll guarantee that you'll be right as a new pin."

The patient sat up and looked around the room.

"Do you own all this?" he asked.

"Yes, and the building it is in and a couple more up town."

The old fellow rubbed his chin thoughtfully a moment.

"Guess I won't take the stuff," he said. "If I don't hurt me, the guarantee don't count, and if it kills me the guarantee ain't good to do me no good as far as I see," and he lay back in the chair and opened his mouth.—Detroit Free Press.

He Was Glad to Know.  
The really acceptance by lawyers of fees and costs from an attorney, and especially from those whom the public feel to be working against their interests, is often the occasion of sarcastic remarks.

A certain prominent lawyer was asked by an acquaintance if the report were true that he had gone into the service of a corporation which had been suspected on pretty good evidence of bribing members of a legislature.

"Oh," said the lawyer, "I've not gone into their service. I have simply agreed not to join the other side."

"And you have taken a fee for that?"

"Oh, naturally they sent me an honorarium."

"Ah, I'm glad to know it was that. I might have got the idea that it was a dishonorarium."—Youth's Companion.

A Pleasant Surprise.  
"What a beautiful child!" exclaimed Mrs. Inthetwin, pausing before a baby carriage which a nurse was wheeling through the park. "What a lovely complexion! Your face is familiar to me," she added, addressing the nurse. "Will you please tell me to whom the child belongs?"

"Bless your heart, ma'am, she's your own, but she has grown a great deal since you saw her last."—New York Press.

Last Saturday was a wonderfully prosperous business day at the old store. Whole counters full of Suits and Spring Overcoats were sold as if by magic. And yet—history repeats itself. So do our Saturdays, only one succeeds the other and taxes our resources to the very uttermost.

There's surely a magnetic attraction at the old store. Haven't you noticed the smile of satisfaction as buyers carried away their bundles of clothing? Haven't you noticed the beautiful new styles in Spring Overcoats? Haven't you noticed the great Bargain \$12 Serge Suits—men's—and All Wool? Haven't you noticed the grandest stock of Boys' Clothing? Haven't you noticed the very low prices? The magnet is the very excellent clothing and the low price we're willing to sell for. We owe to these the magnificent increase of our business day by day.

## LEGISLATIVE DOINGS

Board of Corrections and Charities Directed to Investigate a Death at Fergus Falls Asylum.

Bill Favorably Reported to the Senate For Taxation of Sleeping Cars and Parlor Cars.

The Inquiry Into Assessment of Pine Lands in the Northern Counties is Being Pressed.

St. Paul, April 10.—[Special to The Herald.] Senator Day introduced a resolution this morning instructing the board of corrections and charities to investigate the sudden death of Adolph Anderson at the Fergus Falls asylum.

The committee reported back to the senate in favor of the passage of house file No. 608, providing for the taxation of sleeping cars and parlor cars as amended.

Senator Leavitt introduced a bill empowering the governor to appoint a man to assess property which is left off the tax rolls or which has been undervalued by township and county assessors. This bill was introduced in behalf of the committee which is investigating the death of Adolph Anderson.

The same committee had John S. Pillsbury and his books and clerks before them this morning and proposed to make him tell what he knows. No one is allowed in the room.

In the house Mr. Fleming introduced resolution to prevent any talking on the floor or anyone getting within the circle of the members' desks during the last week of the session. The resolution passed.

The following bills were passed: Senate file 451, suits against receivers; senate file 457, relating to religious corporations; senate file 466, regarding trustees of religious corporations.

The governor vetoed the bill relating to the sale of adulterated lard and oleo products because it conflicted with the laws of 1891.

**THE FINANCIAL SITUATION.**

President's Decision to Call An Extra Session Is a Relief.

New York, April 10.—Henry Clews & Co. say in their financial review of the past week: The determination of President Cleveland to call congress together in September has acted as a relief to the financial markets.

Of course it affords no specific indication as to what measures of legislation may be undertaken; but it does give assurance that termination of much of the suspense in which large interests have been held. And from such shadowy intimations as are appearing, there is some disposition to hope that so far as respects commercial legislation, a conservative respect will be shown for the existing status of industrial interests dependent upon the tariff; while the latest canvass of the views of congressmen favors the chances of a large amelioration of the silver situation.

The gold exports may quite possibly assume larger proportions at any time; at the moment, however, there is a good supply of exchange from shipping and securities and financial negotiations; some five millions being expected to accrue from the placing of that amount of bonds of the new sole-leather combination, which have just been disposed of in Europe. The question as to whether the Brussels conference will renew its consideration of the silver question can hardly be considered an influential factor in the situation. It seems to be regarded very generally as virtually immaterial whether or not the president asks for the reassembling of the conference; the view being that, if he does not, the silver problem will be left to drift towards its own settlement; and that if there is a reassembling, nothing can be agreed upon.

The conclusion therefore is that each nation must finally be left to take its own individual course under the circumstances, with the result of a still further demonstration of silver; a result which may be satisfactory or not, but in which the country is concerned, providing congress can be induced to suspend the purchases of silver, which apparently becomes more likely as time and discussion direct the work of conversion. Anansuring circumstance, as bearing upon our credit abroad and upon general confidence in the general situation, arises from the fact that the administration has no expectation of being required to issue bonds for the procurement of gold before congress meets in September. What may be done after that will largely depend upon what congress may do towards the reconstruction of our monetary and banking arrangements, in the way of limiting the use of silver, economizing the use of gold, and modifying the arrangements which now make the banks and the government so destructively dependent on each other.

**EIGHT PEOPLE INJURED.**  
Two Electric Cars Collide With a St. Louis Horse Car.

St. Louis, April 10.—In a street car collision this morning, at the corner of Tenth and Washington streets, half a dozen people were injured. Two electric cars on the Benton & Belle Fontaine road crashed into a horse car on the Northern Central line and the following were badly injured: John Doyle, Joseph Deamus, Frank Lemusa, Salvador Lumarco, Vincent Delios, Antonio Gardu, Joseph Sausi Sausi and Nicholas Lagusa, all Italians.

John Doyle and Leonardo Salvatori were badly injured about the head and shoulders. They were taken to the hospital. The other six were slightly injured and were moved to their homes.

The accident was caused by the neglect of a motor man on the Belle Fontaine car to apply the brakes promptly.

## CAPTURE OF A CRIMINAL.

A Negro Ravisher in Kansas Who Will Likely be Lynched.

TOPEKA, Kas., April 10.—Information has just reached here that the negro who outraged Mrs. Frost, wife of a prominent miller of Salina last Wednesday, and then took up her infant child and threw to the floor, killing it, was captured last night about three miles from that city and is now in jail in Salina.

Mrs. Frost identified the negro as soon as he was brought to the town. Great excitement prevails there and several thousand indignant citizens are surging about the jail demanding his body. The sheriff with a posse is holding the crowd off, but the culprit will be lynched tonight without doubt.

For three days the people of three counties have been scouring the country for the negro and the wonder is that he was not lynched before he was placed in the jail. The negro's name is John Smith and he has lived in Salina for years.

Maj. Baldwin Asks Secretary Hoke Smith to Set a Date for a Hearing on His Charges.

WASHINGTON, April 10.—[Special to The Herald.]—Representative Baldwin saw Secretary of the Interior Smith today to endeavor to have him set a date for a hearing in the matter of the alleged attempt of the pine land ring in Minnesota to secure control of valuable tracts of pine lands in the Red Lake Indian reservation and other sections in Northern Minnesota.

Maj. Baldwin is of opinion that an attempt of this kind is being made under the guise of a small bill introduced and passed by Governor Nelson when a member of the lower house. Maj. Baldwin has evidence, he says, which must induce the department to set on foot a rigid investigation.

## TRAGEDY IN KENTUCKY.

Another Family Feud Renewed With Serious Results.

MARION, Ky., April 10.—A bloody tragedy occurred in this county Saturday night at Nunn's switch on the Ohio Valley railway.

Wm. King, Ben King, Phiney Moore and John Moore had been to a dance and were returning, and stopped at a grocery at Nunn's.

Becoming involved in a difficulty, William King held John Moore and Ben King proceeded to stab Moore, inflicting two dangerous wounds in his side, one in the lung. At this juncture Phiney Moore's brother, who had been to the rescue and knocked King down.

Then John Moore pulled his pistol and emptied its contents at the Kings, one shot taking effect in William King's thigh and another in Ben's neck, both of which are serious.

The probability is that John Moore will not recover. The fight is an outcropping of a feud of years standing between the King and Moore families.

## ON THE IRON RANGE.

Great Activity at the Minnesota Preparing for

Considerable activity prevails at the great Minnesota mine these days, says the Iron Journal. All the departments present a busy appearance and seem teeming with increased spring activity, preparatory to preparations for an active season's work.

While it is yet too early to estimate the season's output with any accuracy, Assistant Manager Wallace informed a Journal representative Wednesday that the mine has made considerable progress in stock—the most ever in the Minnesota stock piles at one time.

Alterations and preparations for the ore crushers are being resumed at the Anderson, south of Ely. Pumps have been at work for the past week and the mine is again dry, and shaft-sinking is in progress at No. 1, which is down a depth of 65 feet. Diamond drill work has shown that it is only a matter of depth when a splendid vein of ore will be encountered at the Anderson.

M. A. Bradley, a large stockholder in the Zenith, stated last week that the output of the Zenith this season would be in the neighborhood of 700,000 tons. The mine has just completed a shipment of 1200 tons to the West Duluth furnaces for mixture with the Cincinnati ore of the Mesabi. Additional boiler capacity has just been put in to facilitate the work of development. The main shaft is now down a little over 500 feet and the sixth level is being opened.

## THE WARREN CASE.

Decision of the Local Land Office Favors the Defendants.

Register Monroe Nichols and Receiver Frazer of the United States land office have given their decision in the land case of Emil Hartmann vs. J. H. Warren et al in favor of the defendants. The conclusions reached are as follows:

1. That James H. Warren was legally entitled to make a location of the land involved in this controversy and that the location thereof was made by him for his benefit.

2. That the proof submitted to us fails to justify the conclusion or sustain the allegation that said Warren, prior to the date of said location for a valuable consideration, parted with the certificate of identity for the purpose of evading the express prohibition of the law or for any other purpose except to enable his attorney in fact to acquire for him the land in controversy, or that he, said Warren, signed and acknowledged certain powers of the attorney, one to locate the land and the other to sell the same after its location, and that said powers of attorney were illegal and void for the reasons stated in said Hartmann's contest affidavit or for any other reason.

3. That the evidence submitted wholly fails to sustain the allegation that the Warren scrip was in the market for sale at Duluth, Minnesota, by C. d'Autremont, Jr., and J. H. Sharp, or that said Sharp or d'Autremont conveyed at the time said location was made that said Warren had no interest in the said certificate or scrip and was not interested in whatever in the lands which were located in said Warren's name with said scrip.

4. That the evidence shows that, at the time of the location of the land in controversy in this case was made, James H. Warren was secretary of the Home Missionary society of the Congregational church of California, living in San Francisco, and was under the seventh clause of the second article of the treaty of September 30, 1854, entitled to eighty acres of land, and that the location made by him October 15, 1883, of the land in controversy in this case was not illegal.

5. That the certificate of identity issued to Warren did not on its face expressly declare that any assignment, pledge or mortgage of the same would not be recognized as valid by the United States, but is of such a character that it could not be so assigned, pledged or mortgaged so as to vest any property right in the purchaser, pledgee or mortgagee; and we further find that the certificate of identity did not upon its face declare that no sale, pledge or assignment of the rights accruing to James H. Warren under the said certificate had been at the date of the location thereof been assigned, pledged or mortgaged to him in any person and that the location by said Warren was not made in the interest or for the benefit of Fred F. Huntress and three others, or any others, but was made by said Warren for his own benefit and with the intention when he should have acquired the land to sell the same, as he would then have the right to do, to said Huntress and others.

6. We further find that the land involved in this controversy was selected by James H. Warren under the direction of the president of the United States, and his right of selection was exercised by him through an attorney duly appointed by him, who made such location for his, Warren's, exclusive use.

7. We further find that the power of attorney under which the location was made in Warren's name and the power of attorney under which the lands in controversy were sold to Huntress were perfect powers of attorney, that the land involved in this controversy was described therein and the name of Joseph H. Sharp, the attorney in fact and appointee of Warren, inserted therein before the same were executed by said Warren.

8. That said contestant Hartmann, has failed to prove any of the material allegations contained in his affidavit of contest and we respectfully recommend that said contest be dismissed.

9. That said Warren is entitled to have a patent for said lands issued to him in the usual form.

## IRON WORKERS GO OUT.

One Thousand Men Demand Shorter Hours at Same Wages.

CHICAGO, April 10.—About 1000 architectural and ornamental iron workers are on a strike today. A demand was made Saturday for fewer hours and only a few of the employers signed it. The result was the men walked out this morning.

The men want eight hours to constitute a day for outside workmen and nine hours for inside workmen, with no reduction of pay.

At this morning's meeting it was determined to hold out until the demands are granted. Fourteen employers had acceded to the demand this morning, and it was thought all would yield during the day and thus avoid a long strike.

## NOT VERY SUCCESSFUL.

Partial Strike in the Santa Fe Shops at Topeka.

TOPEKA, Kas., April 10.—About 100 of the 500 men in the locomotive shops of the Atchison, Topeka & Santa Fe railway, who struck Sunday, returned to work this morning. None of the men claimed by the unionists claim would join them, and are out today.

There are enough men in the locomotive shops to keep up with the daily repair work, but not enough to do any

general overhauling. The strikers have not congregated about the shops and there is no excitement visible.

Should the strike continue for several days, all of the men in the car shops will be laid off as with the locomotive shops idle there will be no work for them. No attempt has been made by the company to fill the places of the strikers, and none will be made until every possible effort has been made to settle the trouble.

The men who are out will not discuss the cause of their grievance, but they admit that the wages offered by the company are entirely satisfactory. They insist, however, that the company sign a contract with the union, which the company positively refuses to do. Some of the union men are at work today and others say they will return tomorrow, if the strike is not declared off by that time.

## PREPARING TO BUILD

Steps Being Taken for the Extension of the Duluth & Winnipeg to the Manitoba Capital.

President Van Horne is Sounding Kitten and Marshall County People in Regard to a Bonus.

Unconfirmed Rumor That Van Horne and Shaughnessy Will Make a Visit to Duluth Next Week.

The Herald learns on excellent authority that the Canadian Pacific railway intends to construct at an early date an air line from Duluth to Emerson at the international boundary, where it will form a connection with its present line running up the Red River valley to Winnipeg. This will give the Canadian Pacific a much shorter line from Winnipeg to Lake Superior than by the Port Arthur route and will also form the connecting link that will constitute a through line from the West to the East by the south shore of the lake.

Of course, while the Canadian Pacific is mentioned in this matter, it is the Duluth & Winnipeg that will be extended northwesterly to Emerson. That road is now controlled by the Canadian Pacific, and the Duluth, South Shore & Atlantic is also owned by the Canadian Pacific people, and they have likewise taken steps to secure ample terminal facilities here. It is rumored that President Van Horne and Vice-President Shaughnessy of the Canadian Pacific will arrive in Duluth next week in connection with this matter, but this report is not vouchsafed for. General Manager Fisher of the Duluth & Winnipeg, when seen by a Herald reporter today, professed not to know anything about the proposed extension, but Mr. Fisher is based for his reference on any matter affecting his company.

It is a fact, however, that President Van Horne is making preparations for the extension of the Duluth & Emerson, and has directly approached the people of Marshall and Kittson counties as to what bonus the people of those counties are willing to offer to secure the passage of the road in the manner that they desire. One part of the scheme involves the building of the road surveyed by the late Capt. Looney from the Kossau river to either Hallock or Kennedy. This road would cut Kittson county within twenty-five miles of the mouth of the Rainy river, and would be of a great benefit to the Red River valley, where hardwood now sells for 87 per cord, and millions of cords standing in the Kossau valley a few miles distant, which is unsaleable owing to lack of railroad communication. Of the benefits in reduced freight on grain and other commodities to Duluth, it is hardly necessary to speak because these benefits are understood by all.

## HIS FAREWELL SERMON.

Dr. Stocking Preached the Last Discourse of His Pastorate in Duluth.

Rev. Dr. C. H. Stocking delivered his farewell sermon to the members of the M. E. church yesterday morning, taking for his text I John, i, vii: "If We Walk in the Light." The following thoughts were advanced by the speaker:

"In a general sense, all men walk in the light of God as God is everywhere and no man can hide himself from God. But beyond that great and eternal fact, there is the apprehending mind, and the ever conscious thought, that makes his presence to us a living reality, ever known and felt, and if we thus would live, more fully by moment, day by day, realizing the presence and watchful eye of God, how careful would we become in our actions, words and thoughts, and how careful and holy would we be, instead of being so troubled and afraid."

"Each injunction in the standard of living as set forth in the sermon of the mount is not to be taken literally, or cutting off the right hand, plucking out an offending eye and all that would destroy the power of wrong doing, but in our Christian life, if we realize the presence of an evil thought or the uprising of an unlovely passion, we are not only to avoid the occasion of its exercise, but are to strike at its very root and stop nothing short of its complete and final eradication."

"How easy it is to see the faults of others. But when we go aside to pray do we pause and think that to ask God to do for us what we do for our brother man is only practicing hypocrisy and heaping insult upon the grace of God's love when we repeat, 'Forgive us our trespasses as we forgive them that trespass against us?'"

"Is it any wonder that the apostle says that if we walk in the light, as He is in the light, we have fellowship one with another? All difference and all estrangement are gone; will hearts in harmony with will; the soul transformed and renewed with divine grace, basks in the very sunlight of God's all-glorious smile. When, as members of the church and professed followers of Christ, we thus walk in the light as He is in the light, how blessed and heavenly does our fellowship one with another become. Envy and hatred and strife are given no place, but in joyous harmony and unity and love we are found living and laboring for each other's good, and for the highest glory of God."

Dr. Stocking's family will remain in Duluth for a month at least before going to St. Joseph, the doctor will deliver the alumni oration at the Garrett Biblical institute at Evanston, Ill., May 9.

## A BIG RESERVATION.

Maj. Baldwin is Opposing the Schemes of the Forestry Granks to Lock up the Forests.

Says the People Will Take up Arms if Necessary to Prevent the Plan Being Successful.

Ex-Chief of Police Doran Wants to be Customs Inspector—Mr. Bowen Files His Endorsements.

WASHINGTON, April 10.—[Special to The Herald.]—With characteristic energy, Maj. Baldwin is determined that this administration shall not carry out, to the injury of the Sixth district any rate, what appears to be the design of certain officials to foster the plans of this big forestry reservation business. While Maj. Baldwin does not care to give any views for publication, it is understood that he is of the opinion that Secretary Hoke Smith, of the interior department, is rather inclined to conduct the affairs of that department to some extent in the interests of those who desire forestry reservations made in different parts of the country.

Co-operating with Secretary Smith is the assistant commissioner of the land office, Downer, who was really given this appointment because of his connection with the National Forestry association. Maj. Baldwin has had several conferences with Secretary Smith on this important question, his idea being to get the exact views of Downer in connection with forestry reservations and particularly in regard to the action he would take as assistant land commissioner.

Maj. Baldwin has expressed his views very emphatically, however, upon Secretary Hoke Smith and is determined to push this matter and prevent if possible the plans of the National Forestry association from being carried out, so far as Maj. Baldwin's district is concerned. In speaking to The Herald correspondent about this question, the major said:

"The people of Duluth are opposed to the withdrawal of any timber land in the Sixth district for any forest reservations. This has been made plain upon several occasions, and I can say that the people of my district are not inclined and will not submit to any timber land in the section being withdrawn from the public domain in order to establish forest reservations. If it is necessary, I can say that the people of my district will take up arms to prevent any such plans as these from being carried out."

The Duluth congressman, however, does not believe that action injurious to his district will be taken by Secretary Smith, and I can say that the people of my district are not inclined and will not submit to any timber land in the section being withdrawn from the public domain in order to establish forest reservations. If it is necessary, I can say that the people of my district will take up arms to prevent any such plans as these from being carried out."

Patrick Doran, of Duluth, filed an application at the treasury department on Saturday for the position of special inspector of customs at that city. The application and endorsements of Thomas E. Bowen for register of land office at Duluth have been filed with the secretary of the interior.

### DUE TO GASOLINE.

Four Business Blocks in Oklahoma Destroyed.

GUTHRIE, O. T., April 10.—An explosion of a gasoline stove started a fire in the Capitol building house last night which resulted in a loss of \$30,000. Four business buildings belonging to Winfield Smith, A. H. Richmond, and A. F. Wright burned with all their contents, including Mr. Collier's hardware store, A. H. Richmond, furniture, and Henry Lorie, novelties, and a dozen smaller concerns.

J. L. Brown and A. K. Rathburn were both badly injured by falling buildings. A pouring rain alone saved the city from being largely swept away.

The Hardy school reopens for its spring term Tuesday morning, April 11.

### THE TROUBLE IN PERU.

It Grew Out of a Demonstration Against the Masons.

NEW YORK, April 10.—The Herald's cable from Peru says: The wounding of a consular agent of the United States, which Minister Hicks reported to the Washington government, occurred at Molendo, Peru, March 25. The trouble grew out of anti-Masonic demonstrations which have lately been made in Peru under the direction of the bishop of Arequipa.

Masonic rites were being observed at the lodge room in Molendo on the evening of March 25. A portion of the musical program was performed by the Estudiantina America company, which was on its way to the Chicago exposition. During the ceremonies a mob attacked the building. Many stones were thrown and those who were participating in the rites were driven from the lodge room.

Having driven out the Masons, the mob sacked the lodge room and burned the building. The rooming in the building had been taken by the Estudiantina America company, which was on its way to the Chicago exposition. During the ceremonies a mob attacked the building. Many stones were thrown and those who were participating in the rites were driven from the lodge room.

It is said that the riots were caused by the action of the Masons in ignoring an edict against their ceremonies, which was issued by the Roman Catholic bishop of Arequipa. The police made no effort to protect the Masons in their rites, have been dismissed by the government and will be placed on trial. Reports from Molendo say that it is quiet there now.

### THEY CHEERED GROVER.

The President Said Goodbye to Mr. Bayard at Wilmington.

WILMINGTON, Del., April 10.—President Grover Cleveland and party, accompanied by Ambassador Bayard left Delaware place at 7:30 this morning and rode to the Pennsylvania depot in closed carriages. Crowds of people began forming at the depot as early as 7 o'clock.

The president, Secretary Gresham and Senator White, after bidding Mr. Bayard and a cordial farewell, hurried into the car as quickly as possible. The crowds then surrounded the car and cheered the president on every opportunity. The president's car was quickly attached to the train and they drew out on their way to Washington.

Previous to the express train's arrival, and when the crew of the shifting engine were preparing to move the special car in position, several young men attempted to climb on the platform on which the president was standing. They endeavored to grasp his hand, Mr. Cleveland noticed the preparations of the trainmen and remarked: "Be careful, the boys don't get hurt. This is a bad place for congratulations."

The president was standing on the platform when the car was drawn out on the main track. The train pulled out the depot slowly. The crowds cheered again and again. Mr. Cleveland took off his hat and stood bareheaded until the rear of the train had passed from the shed; then he turned and went into the car.

### FELL INTO THE SEA.

A Balloon Dropped But Its Occupants Were Rescued.

BRUSSELS, April 10.—The dispatch sent last night concerning a balloon accident was wrong in stating that the aeronaut fell before the balloon reached the sea. The facts are as follows: A balloon carrying three passengers, being M. Tout, a professional aeronaut, and two companions, started from Brussels at 12 o'clock on Sunday night. The balloon journeyed in a westerly direction, passing over the French departments of the Nord and De Calais.

When a short distance beyond the French coast, the balloon fell into the sea and the aeronaut and his two companions were left struggling in the waves.

A French fishing smack rescued M. Tout and his fellow passengers, and conveyed them to the port of Etaples, in Pas De Calais. They were all suffering from internal injuries caused by the fall of the balloon.

### CAUSED BY JEALOUSY.

One Man Fatally Shot and Two Wounded in Texas.

LIVINGSTON, Tex., April 10.—J. H. Pellin and his daughter Emma, accompanied by two young men named George Snow and Arthur Gainer, on their way to church yesterday, were waylaid by Arthur Fields, who fired upon the party killing Snow and wounding Gainer. The fire was returned and Fields was seriously and perhaps fatally wounded. Love and jealousy were the cause.

### Importation of Arms.

DUBLIN, April 10.—Baron Houghton, lord lieutenant of Ireland, has issued an order limiting the importation of arms and ammunition to Ireland. Arms and ammunition must be imported only at certain ports and all consignors must be previous to consignment obtain permission for their importation. The customs officials are authorized to open packages suspected of containing arms or ammunition imported contrary to the order.

### To Help Maxwell.

WASHINGTON, April 10.—Edwin C. Fowler, the chief clerk to the first assistant postmaster general, has been detailed to help Mr. Maxwell. During the first administration of President Cleveland, Mr. Fowler was acting first assistant for a time, and as chief clerk to Mr. Stevenson, became thoroughly familiar with the duties of the office.

### A Deputy Collector Dismissed.

WASHINGTON, April 10.—As a result of the investigation made by Special Treasury Agent Noyes at Portland, Ore., as to the illegal landing of Chinese at that port, Secretary Carlisle has dismissed the deputy collector, Collector Casidell. Inspector Armstrong, who was suspected of pending the investigation, has been restored to duty.

## THE GANG BROKEN UP.

A Successful Warfare Was Made Upon a Band of Cattle Thieves in South Dakota.

Leader of the Gang Fatally Wounded and His Followers Fled to the Black Hills.

The Man Who Secured the Evidence Locating the Thieves Was Shot Through the Shoulder.

STOUT CITY, Ia., April 10.—For months past the herders on the White, Cheyenne and all river ranges in South Dakota have been bothered by cattle thieves, who have stolen large numbers of cattle, changed the brands and sent them to markets in the East or to the rustler ranges in Northern Wyoming. Recently a cattle drovers' association employed a man named Moses, from the Black Hills country to endeavor to procure evidence on which to prosecute the thieves.

About a week ago he made a report to the effect that Snyder, a prominent stock man whose range is near the Bad Lands, was at the head of a band of thieves and that his principal assistant was one Rowen. Warrants for their arrest were sworn out and placed in the hands of E. W. Blackley, sheriff of Fall River county, for service. Accompanied by Moses he went to Snyder's camp to make the arrests. As soon as they got within range, Snyder and his men opened fire. Moses was shot through the shoulder at the beginning of the fight. He and Blackley took to shelter and returned to this city.

The cattlemen kept up the fight until their ammunition was exhausted and then undertook to run. All got away but Snyder and Rowen. Snyder was wounded severely and probably fatally and Rowen's wounds prevented his escape. A posse is now in pursuit of the balance of the gang, who have gone into the Hills country, and trouble is expected should they succeed in overtaking them. By the arrest of Snyder and Rowen, it is believed that the gang has been broken up.

Cardinal Vassary, of Hungary, Attacked by a Young Man.

VIENNA, April 10.—Great excitement has been caused by an attempt to assassinate Cardinal Vassary of Hungary. He was walking with his secretary, when a well dressed young man rushed upon the cardinal and made desperate attempts to stab him with a knife.

The cardinal accepted to one side, evading the blows of the assassin, while the secretary received two severe stabs at the hands of the desperate assailant. The would be murderer was arrested, but refused to give any information as to his motive or identity. Cardinal Vassary was unhurt.

There seems to be no doubt that the attempt to murder the cardinal was prompted by the intense struggle now going on in Hungary in relation to civil marriage and the baptism of mixed marriages in which the cardinal is looked upon as the leader of the ecclesiastical party. The assailant appears to be a fanatic.

### Twenty Removed Today.

WASHINGTON, April 10.—The total number of fourth-class passengers appointed today was 119. Of these 99 were left for vacancies caused by deaths and resignations and 20 by removals. Of the 20 removed 17 had served four years and over.

WASHINGTON, April 10.—A telegram was received at the navy department today from Admiral Gherardi announcing the arrival of the Russian cruiser Rynda at Hampton roads.

Osman Digna Again.  
CAIRO, April 10.—Osman Digna, the dervish leader, has made another raid in upper Egypt. He directed his incursion toward Tanwar and was met and repulsed by the Egyptian cavalry. The cavalry pursued Digna's forces and killed twelve of the dervishes.

A Transformation.  
The extensive reconstruction of the store previously occupied by Kahn is nearing completion and it is one of the most marvelous transformations imaginable. Pure white with gold finish gives constitutes the entire upper portion of the building, and the acquisition of the thirty foot so abundantly skylighted in the rear, together with the light polished maple floor and oak fixtures, creates a volume of soft, even light of the infinitely desirable order throughout the entire store. This will be one of the most charming retail shops in this country and the fact that Haynie & Co. are going to occupy it is full evidence that there will be a wonderful display of merchandise there. They anticipate being in a position to announce their opening days very shortly.

The Only Line That Does It.

A Memorable Week.  
The week of April 15th, 1891, and the same week in 1895, will ever be memorable to us on account of as important events as any in the history of our nation. At 4:30 in the morning of April 12, 1891, the secessionists of South Carolina, by command of Gen. Beauregard, fired on Fort Sumter, in Charleston harbor. The first shot woke the people of the North to a gigantic and finally struggle for four years long. That shot was the death knell of legalized human slavery in the United States. April 6th, 1865, Gen. Lee surrendered the Army of Virginia to Gen. Grant, and that was the virtual end of the great war for the Union. The surrender at Appomattox is one of the great milestones in the World's history. A few days after this event came the assassination of the great Lincoln. Were not these truly memorable weeks? A memorable time to you, too, was when you took your first railroad ride—especially if it was on the Burlington Route, one of the most extensive and best equipped railroads in the United States, reaching all principal cities in ten of the greatest Western states. For tickets, maps and rates, call on any agent of the Burlington Route or address W. J. C. Kenyon, general passenger agent, St. Paul, Minn.

World's Fair Visitors.  
An intending visitor to the coming World's fair at Chicago need have no anxiety about the possibility of securing satisfactory accommodations, at reasonable rates, at either the many hotels or residences listed in a neat pamphlet entitled, "Homes for Visitors at the World's Fair," compiled at great expense and published by a trustworthy Chicago firm. This book contains a list of about 6000 private families who will accommodate visitors in Chicago during the time of the fair, viz: May 1st to October 30th; gives their names and addresses, and number of rooms which will be made to spare. The book also gives a list of the hotels and their locations; has twelve full-page, large-scale maps, each representing a section of the city, so that with this information before him the intending visitor himself can, at leisure, select the quarter of the city in which he would prefer to stay, corresponding in advance with one or more families in that locality with regard to rates and the accommodations desired.

To help you in fixing in advance upon your place of residence while attending the World's fair, we have placed in the hands of our agent at your station copies of this work, which may be obtained at 50 cents per copy.

## MAY FAVOR SEWERS

The Vexed Question of Sewerage or no Sewerage is Still Agitating West Duluthians.

The Village Engineer Has Prepared a Plan and Will Submit it to the Council.

He Considers The Idea of Having the Sewers Empty Into the Bay as Feasible.

The village fathers will hold their regular weekly session this evening, but as far as known no matters of special importance will come up for consideration. As the village engineer is not yet ready to make a report on the plans and specifications for sewerage question ordered by the council, this important question will probably not receive much attention. Sewers or no sewers is still an absorbing topic of argument, and everybody that has made a first payment on a lot feels authorized to grow grandiloquent upon the subject. A summing of opinion would probably show that the public demand the laying of a few mains as a starter this summer, and connection and feeders add as the property owners demand and feel willing to pay for. The protest of Mitchell & McClure against an outlet in the bay near their sewage is a little out of place as the main outlet contemplated will be built on First street north, two blocks and a half down the stream from their mill.

The attention of Engineer Key is being called to the matter of emptying the West Duluth sewer into the bay. He says that he thinks the scheme is entirely impracticable and that the outlet can, from time to time, be extended further out, as necessity demands, and the finances warrant the expenditure of money for the purpose. He says that all attempts at the present time go into the bay, if not directly, it is thrown into the ravine by the scavengers and thence carried into the deep water by natural drainage. The idea of pumping sewerage from here through the confines of Duluth to Lake Superior he thinks impracticable at least for some time to come.

The West End of Duluth is now drained by a sewer at Twenty-second avenue west which empties directly into the bay and the only change which will probably be made for some time in this system will be the extension of the outlet. It seems impracticable to think that the city of Duluth will build itself a pump West. Duluth sewerage through costly channels when the St. Louis river gives a natural outlet for all waste water.

## WHEAT DECLINED TODAY.

The Chicago Cliche Now Talking One Dollar Wheat.

The wheat market was fairly active but lower today. It opened irregular at 46c lower than Saturday's close for May, 45c lower for July and unchanged for cash. It traded firm and advanced up to noon, July gaining 1/2c, on the second trade. The afternoon session ruled under with good trading in both May and July wheat at 1/2c to 3/4c below the outside prices of the morning. Several sales of track wheat delivered at the mills were made at unchanged prices. The close was 1/2c lower all round for the day. It was reported from Chicago that in all probability the climate will try to carry through their deal in May wheat. They are satisfied that the outlook for the next crop is their July and that they are covering their July wheat. They claim to be long enough in May to put the price to 1/2c and are again only selling now, although the price is now 1/2c. It is likely, however, that they will be asking 1/2c to 1/2c before they can get out of their large accumulation of cash stuff. Following were the closing prices here:

## THE PLANS ARE READY

Board of Public Works to Present a De-  
tailed Report Regarding the City  
Hall Enlargement.

Complete Rearrangement of the Various  
Municipal Offices Provided For—  
Details of the Plans.

Nils Nilson Has an Opinion From Cash,  
Williams & Chester Contrary to  
City Attorney Greene's.

That popular production, "A Meeting  
of the Common Council," will hold the  
boards in the chamber at the city hall  
this evening and the probabilities are  
that several new specialties will be in-  
troduced. One interesting feature will  
be the report of the board of public  
works on the scheme for adding two  
stories to the city hall. Traphagen &  
Fitzpatrick have prepared a preliminary  
sketch which will accompany the report.

It provides for the location of the  
council chamber and office of the board  
of health on the fourth floor. On the  
third floor it is designed to have ample  
accommodations for the city engineer  
and his department, the board of public  
works, the building inspector, park com-  
missioners and large toilet rooms. On  
the second floor the mayor, fire commis-  
sioners and city treasurer will have ap-  
partments, while the much needed ad-  
ditional room requested by the treasurer  
and city controller, will be derived  
from a portion of the present council  
chamber.

On the first floor the assessor and city  
clerk will have quarters as now. It has  
been thought that rent could be saved  
the city and the public convenience by  
locating the public library in the rooms  
now occupied by the building inspector,  
board of public works and the engineer-  
ing department, but Judge Powell is  
wholly unsatisfied with the basement  
municipal court quarters, and he has  
suggested those quarters for that pur-  
pose, with the result that the idea meets  
with favor with the board of public works.

The ventilation and light in the present  
quarters is had and the clerk's office is  
limited as to space. T. W. Abell, the  
clerk of the board, has been pushing this  
additional report, and credit is due him  
for its prompt submission.

The general impression is that the en-  
largement scheme meets favor with the  
council, although the \$18,000 required to  
carry it into effect will, no doubt, cause  
some of them to wince.

The board of public works has rear-  
ranged the sprinkling districts and  
added two more, making eleven in the  
city and two out at Lakeside. That will  
be submitted to the council this evening.

The question of a successor on the  
board of public works to Nils Nilson will  
undoubtedly come up. Mr. Nilson has  
in his possession the opinion submitted  
by City Attorney Greene, in the last

meeting in regard to the board of pub-  
lic works matter and will submit it to the  
council again, in company with one from  
Cash & Williams taking another view of  
the matter. Mr. Nilson is authority for  
the statement that Mr. Greene has since  
studied the matter further and now ad-  
mits that his opinion is wrong and that  
he has requested Cash & Williams not  
to let the reporters get hold of the origi-  
nal copy of the document. Mr. Nilson,  
as well as others, is authority for the  
statement that Mr. Greene has prac-  
tically admitted that the opinion of two  
weeks ago was drawn up to suit the  
mayor. This, however, Mr. Greene has  
denied.

It is pretty well understood or believed  
that Mayor d'Auteourt will tonight  
submit the name of Ed Ingalls as his  
next nomination for Nilson's successor  
on the board. Several councilmen have  
stated that Ingalls will be less accept-  
able to them than Frisbee. One of the  
aldermen from the Seventh ward—the  
Lakeside contingent—stated this morning  
that he for one would never vote to  
confirm a Democrat, as he believes that  
non-partisan features should be pre-  
served. Other councilmen demand a  
man with a practical knowledge.

Nilson's friends say that he is not  
hanging on for the \$15 per month he  
gets, as he does not need nor care for  
that, but that a question has been raised  
as to whether he is entitled to serve in  
his successor is confirmed, and he wishes  
to see a precedent established one way  
or another. Some of the aldermen are  
not averse to Nilson's reappointment,  
believing that his knowledge of stone-  
work would be valuable to the city if the  
tunnel is constructed this year. Con-  
siderable discussion may be looked for  
tonight and it is pretty certain that Al-  
dermen Cox and Thomas will have one  
of their sharp forensic debates.

The city engineer will submit a couple  
of sewer estimates and a plat of East  
Lawn addition, but probably nothing  
more important than that.

Dr. Coffe's annual report as health  
officer may be forthcoming, and it is  
time for the mayor to appoint the mem-  
bers of the library board. It is  
said that he is satisfied with the  
present police force, that if he made any appointments, he would  
submit the present force as it  
stands, hence he will not submit any ap-  
pointments which will save all danger of  
a refusal to confirm on the part of the  
council.

City Attorney Greene has prepared  
several minor opinions on questions that  
have been referred to him and the usual  
number of petitions and communications  
have been filed with the city clerk who is  
guarding them with watchful eye.

## PRISONERS ARRANGED.

Several Offenders Brought Before Judge En-  
sign Saturday.

A number of prisoners who were in-  
dicted by the grand jury were arraigned  
before Judge Ensign Saturday after-  
noon. Among these was Thomas Cas-  
sidy, who was brought over from Supe-  
rior, whether he had flown. He was  
charged with assault in the second de-  
gree and also for keeping a house of ill  
fame. He was arraigned on the first  
charge and pleaded guilty. When asked  
if he had anything to say, he gave him  
version of the assault in a decisive, con-  
fident manner. He said that another man  
made a motion as if to pull a revolver  
and he had pulled his own and struck  
him over the head. He related some of  
his troubles growing out of this and an-  
nounced that he was willing to pay a  
fine. He collapsed completely, however,  
when Judge Ensign sentenced him to  
two years and three months at hard  
labor at Stillwater.

(Roanoke West) the young Jesse James  
who shot a boy, pleaded guilty. Peter  
Carlo, the Italian, charged with rape,  
pleaded not guilty. James Kellow  
pleaded guilty to larceny in the second  
degree. William Raymond withdrew  
his plea of not guilty to larceny in the  
first degree and entered a plea of guilty  
to larceny in the second degree.

Before Judge Ensign this morning the  
W. E. Stevenson vs. Wm. M. Hubbard  
et al. case was resumed with the plain-  
tiff still piling up testimony. A special  
verdict was issued for several petit ju-  
ries. Lewis March was arraigned for  
grand larceny in the first degree and  
pleaded not guilty.

Before Judge Lewis an order was issued  
granting the defendant's motion to set  
aside the plaintiff's judgment of dismis-  
sal in Backus et al. vs. Burke et al. The  
case of the Village of West Duluth vs.  
The Grassy Point Land company is  
about closed and Attorney Brownell  
made a vigorous plea for the defense,  
and at times caused considerable merriment.

## Today's Filings.

In Clerk Sinclair's office the week  
opens up with the following filings of  
legal interest:

A transcript of docket from the dis-  
trict court of Hennepin county in favor  
of John Macleod, surviving partner of  
A. J. Sawyer & Co., and against Nelson  
F. Griswold for \$12,827.56.

A similar instrument from the same  
court in favor of Carolina Anderson and  
against Frank Hibbing, for \$206.18. The  
judgment is assigned to Henry J.  
Ojesteren.

A denial by Judge Lewis of the in-  
junction asked for by Chas. Gasper, O.  
H. Miller and M. E. Chambers against  
the county commissioners of St. Louis  
county et al, in the matter of incorporat-  
ing the village of Fond du Lac.

First citizenship papers were issued to  
Sofia Anderson, of Sweden, and Baltolf  
K. Bjorhovde, of Norway.

## AMUSEMENTS.

"Spider and Fly."

M. B. Leavitt's "Spider and Fly" com-  
pany will be seen this and tomorrow  
evenings at the Temple. The "Spider  
and Fly" contains many novelties and  
numerous clever artists, but there are  
three ladies in this organization whose  
talents and "experience" entitle them to  
more than a passing notice. They are  
Miss Hilda Thomas, the well known  
character songstress whose rich contralto  
voice, original methods and pleasing  
style has placed her in the foremost  
ranks of the leading vocalists of the day.  
The second is "Jaguarina," the famous  
swordswoman, who has met all the cele-  
brated swordsmen of the world. The  
other is Louise Royer, late of the "Tar  
and Tartar" company. She takes the  
part of the queen, her statuesque figure  
fitting the part admirably. The entire  
company is composed of exceptionally  
clever people and the specialties are of  
the finest.

## Signor Sala's Concert.

This evening Signor Sala's pupils will  
give a concert at the Pilgrim Congrega-  
tional church. The program contains  
gems from the greatest composers and  
an excellent entertainment may be  
looked for. Signor Sala will play two  
organ solos, Meyerbeer's "Pilgrimage of  
Florence" and Verdi's "Jeanne d'Arc."  
Signor Sala is a fine organist but Du-  
luthians have not had many opportuni-  
ties to hear him. Miss Bessie Hunter  
will sing a number.

## Mozart Symphony Club.

One of the leading soloists of the Mo-  
zart Symphony club which will be heard  
at the Temple on Thursday evening is  
Herr Richard Storer. Of his work on  
the viola d'Amour the Cleveland Plain-  
dealer says:  
"His solos on this sweet toned in-  
strument pleased us much by its marvellous  
beauty and delicate delivery as by his  
very graceful handling. The novelty of  
the viola d'Amour as played by this artist  
is the only solo player on this in-  
strument in America) was very entertaining.  
It is of the violin nature, but smoother;  
having fourteen strings, it is capable of  
producing very sweet, wooing sound and  
tones, and for that feature has been  
named the "Viola of Love. With such  
aid and talent as displayed by this artist  
it would seem as if the coyest maiden  
would surely be won."

## The Municipal Court.

In the municipal court this morning  
the procession of mourners was ex-  
tremely long. John Cotton, Joseph  
Plump, Morris McCabe and George  
Bradley all went upon the hill ten days  
for imbibing intoxicating beverages too  
freely. Peter Gibson, for the same of-  
fense, paid a \$12 fine, and John Downey,  
in the same boat, had his sentence of ten  
days suspended. W. J. Whitford, for  
begging on the streets got five days in  
the county jail. Stens Kurecki failed to  
appear in answer to the charge of dis-  
orderly conduct and \$15 bail was de-  
clared forfeited. J. B. Hartley and R.  
Brigham were committed ten days for  
the same offense.

## ROBBED BY THE PINE LAND RING

Report of the Senate Special Committee Showing That Millions Upon Millions of Feet of  
Pine Were Boldly Stolen From the State, the University, the Gov-  
ernment and the Indian Reservations.

A Steady System of Stealing by Big Lumbering Firms of Minneapolis Has Been in Vogue  
and They Vied With Each Other in Their Base Schem-  
ing to Rob the State.

Owners of Pine Lands Have Defrauded the State in Their Returns For Taxation and Con-  
vincing Evidence Was Produced to Show the Gross Frauds That  
Were Practiced in This Way.

The Names of the Leading Minneapolis Lumbermen and Other Citizens Who Were Parties  
to the Gigantic Steal Are Omitted Until the Investigation Has  
Been Brought to a Close.

ST. PAUL, April 11.—(Special to The  
Herald.)—The report of Senator Keller's  
committee on the taxation of pine lands  
in the northern part of the state is of a  
sensational character. The committee  
says that the results of its investigation  
will be a source of astonishment to the  
senate and to the people of the whole  
state. It is not too much to say that no  
committee ever appointed by any legisla-  
tive body in this country has, for the  
length of time it has been able to give to  
the subject, examined such a mass of  
startling evidence.

This evidence establishes, in the judg-  
ment of the committee, the conviction  
that the state of Minnesota has been  
robbed of millions of dollars worth of its  
property during the past fifteen years,  
and that the most gigantic frauds have  
been practiced upon the school fund, a  
fund which every good citizen has hoped  
to see preserved undiminished for the  
benefit of the present generation and  
posterity. It finds that laws for the col-  
lection of taxes in a vast area of the state  
made a farce and a laughing stock.

**School Lands.**  
Under this heading the committee says:  
We will first turn to the consideration of  
the frauds upon the school fund. This  
seems to be a boundless sea of iniquity.  
It is impossible to tell how many millions  
dollars have been stolen from the school  
fund, for we have not had the time to  
cover with our investigation either the  
whole period of the past or anything like  
the whole scope of the frauds. The  
evidence before your committee  
shows that in many, if not a majority of  
cases, the state received but a little over  
one-quarter of the amount justly its due.  
This great fraud is accomplished by  
false returns of the amount of timber  
cut and by low prices put upon the same,  
as is abundantly shown by the evidence  
before the committee.

It appears by the testimony of one wit-  
ness that on section 36, town 56, range  
14—a school section—the scaler for the  
surveyor general had returned 450,000  
feet of timber, or 1550 logs, as the  
amount cut upon that section, while the  
witness going over it carefully found by  
actual scaling that it had produced  
about 3100 logs or 870,220 feet of timber.  
The school fund was of course robbed of  
the difference between the amount re-  
turned by the scaler for the surveyor  
general and the amount that was actual-  
ly taken from the land. This would  
show upon this single section a loss to  
the school fund of about \$1000.

It appears by the testimony of one of  
witnesses that on section 36, town 133,  
range 25, there were 600,000 feet of pine  
and 400,000 feet of oak. The witness  
testified that he would have been willing  
to have given \$2000 for the section, and  
he further testified that the whole timber  
on this section has been cut. The letter  
of the state auditor, attached to the  
evidence are marked "Exhibit 12" shows  
that from that section the state derived  
only the sum of \$176, which was for oak  
sold at 52 per thousand upon an estimate  
of 55,000 feet of oak upon the whole sec-  
tion. It does not appear that the state  
received anything for the 600,000 feet of  
pine upon the section.

The evidence before your committee  
shows that 1,500,000 feet of logs, proba-  
bly worth in the neighborhood of  
\$1500, were cut from section 16, town 54,  
range 25, while the books of the state  
auditor show that the amount received by  
the state from the section was less  
than \$2000. The school fund has  
therefore been defrauded out of over  
\$2500. This occurred twelve or  
thirteen years ago, while Mr. Whitcomb  
was state auditor.

**Fraudulent Estimates.**  
The same witness testifies that it was  
general talk among lumbermen that if  
they could get a stumpage forty or  
fifty cents per thousand, they could make a good  
deal of money out of it and their stump-  
age would not cost them much. It also  
appears by the evidence that a certain  
lumberman, whose name is in the pos-  
session of the committee, cut 20,000 feet  
of timber from forty acres of internal  
improvement land, for which the state  
never received a dollar. Section 36,  
town 42, range 26, was bought by an-  
other lumber company at \$2.00 per thou-  
sand upon a fraudulent esti-  
mate that it contained only 250,000  
feet, while the testimony taken before  
your committee of a witness who ran the  
line along the edge of it and carefully  
examined the adjoining sections goes to  
show that it contained nearly five mil-  
lion feet, worth at least \$3.00 per thou-  
sand. It is testified by another witness  
that section 16, town 54, range 25, has  
been entirely stripped of the timber and  
three of the forty acre tracts therein,  
containing pine, have been sold as agri-  
cultural land.

Another witness who had been upon  
this land at the time and made an ex-  
amination of it testifies that there were  
at least 2,000,000 feet of pine timber upon  
the section and that some had placed it  
as high as 2,500,000 feet; that in addition  
to this, he thought there was fully 200,  
000 feet of oak timber; that the section

was upon the edge of a lake so that the  
logs could be easily rafted to a mill close  
at hand and within forty rods of the  
Northern Pacific road. The value  
of this timber, as sworn to by this wit-  
ness, was \$7,525, while the state auditor  
shows by his letter, dated April 5, 1893,  
and addressed to the chairman of this  
committee, that the whole amount de-  
rived by the state from that section from  
timber for the school fund amounted to  
\$309.14 which has not yet been paid.

It must not be forgotten that we are  
dipping here and there into the mass  
of fraud and that these witnesses, few in  
number, have generally been discovered  
by accident or by voluntary statements  
made by citizens who had knowledge of  
the facts. It is fair to pre-  
sume that if such a gigantic  
fraud as this, involving a robbery of  
over \$7000 on one section is true, it must  
have been a sample of thousands of other  
cases of the same kind. There is no  
doubt upon the mind of your committee  
that school lands, as well as other lands  
belonging to the state, have been the  
subject, during many years past, of com-  
binations between the buyers for the ex-  
press purpose of preventing competition  
and beating down the price and defraud-  
ing the state. While it appears that \$3  
per thousand has been the ruling price  
for stumpage in the state at large, in a  
great many cases the school fund has  
received but from \$1 to \$1.50 per thou-  
sand feet. Several instances are cited  
by the committee.

Your committee is constrained to say  
that when it became necessary to ascer-  
tain certain facts from the state auditor,  
they found the books and accounts in  
such a state that the information could  
not be obtained until a certain clerk was  
brought in to explain matters. It seems  
to them that the books and accounts  
should be rescued from their present  
condition of confusion. In saying this  
we do not desire to reflect upon the  
present state auditor. The confusion  
began long before he assumed the duties  
of his office.

**Robbed of Millions.**  
The evidence taken forces your com-  
mittee to the conclusion that the school  
fund of the state has been robbed by  
these and similar acts of millions of dol-  
lars of its property. We have been able  
to find a comparatively few isolated  
cases, but if we apply the same ratio of  
fraud to all the school lands in the pine  
region, the loss to the state must have  
been enormous. We will not go so far  
as to say that the state officers were a di-  
rect party to these frauds and shared in  
the plunder, although some of the wit-  
nesses have so testified, but we can cer-  
tainly hold them responsible for great  
neglect of duty, nor do these wrongs  
seem to have been confined to any one  
year or any one state officer; they range  
back as far as our investigation has pen-  
etrated.

The lumbermen seem to have banded  
themselves together. The evidence  
shows that no assistance has been given  
to facilitate the state in any respects  
that were attempted to be made; in fact  
impediments were thrown in the way of  
all investigation. One witness testifies  
directly that offers of money were  
made to him to induce him not to  
make honest estimates for the  
state auditor, and your committee  
is satisfied that a vast amount of corrup-  
tion has surrounded the entire business.  
It is a horrible part of this whole mat-  
ter that men of large wealth and high  
social position joined in this scheme to  
plunder the little children of the state of  
their patrimony. It would have been  
bad enough if the ignorant and vicious  
had resorted to such practices, but when  
the pillars of the church and the orna-  
ments of society have joined in the work,  
it seems to evidence the rottenness of our  
whole social condition.

These robberies were not confined to  
the pine lands alone, but it appears that  
the state has been plundered of its hard-  
wood timber to large amounts, although  
there was no law, as your committee be-  
lieves, to justify the state auditor in sel-  
ling a single stick of the oak, ash, elm,  
basswood, etc., except with the land at  
public sale. In some cases wood has  
been sold as hardwood, although the offi-  
cers of the state must have well under-  
stood that, when the land was so stripped  
and nothing left but stumps, it would be  
very difficult to sell it for agricultural  
land.

**University Lands.**  
The statement your committee has  
made as to school lands applies with  
equal force to the university lands. That  
great institution, which is the head of the  
public school system of this state, seems  
to have been plundered in an equally  
outrageous manner. The committee  
propose, during the remainder of the  
session, to go still more fully into this  
branch of the subject. It appears that  
the timber has been sold in many cases  
at prices ranging from \$1 to \$3 per  
thousand upon an estimated amount of  
pine upon the sections, and one witness  
testifies that where the state scale showed  
but 150,000 feet cut upon a tract of land,  
twelve times that amount had really  
been taken from the land, and the state

## THE PINE LAND RING

Continued from page 1.

university had lost the difference. Another instance is given where section 31, town 57, range 24, was sold to an individual at \$17.50 per thousand, while the testimony shows that it was worth \$3.50 per thousand.

**Swamp Lands.**  
We pass now to the subject of swamp lands. These seem to have been also a prolific field of fraud. The evidence shows that prominent lumbermen have large contracts with the railroad companies under which they send men to examine the state swamp lands, and when they find tracts that are well timbered and desirable, they make application to the railroad companies, and the companies then apply to the state for the land as a part of their grant from the state. As soon as they get title to the land they turn it over to the lumbermen at an agreed price per acre.

The tracts of land thus selected are really not swamp land, except in a technical sense, for pine does not grow in swamps. In this way the very choicest part of the timber lands of the state are culled out for the benefit of speculators, and the refuse left in the hands of the state. Not satisfied with this ingenious scheme, these men go still further. It is in evidence that they do not place their deeds on record, and the title to the land appears to still remain in the railroad company and the land thus escapes taxation.

These lands are some of them covered with a magnificent growth of pine timber. In some cases a forty acre tract will have on it from \$200 to \$400 worth of pine. One witness testifies that it is useless to attempt to contest the right of the purchaser because the state officers appear to be in sympathy with the lumbermen. Your committee, on this point, is not able to speak authoritatively, but trust the matter will be a subject of further investigation.

**United States Government Land.**  
There is a mass of evidence before your committee as to the fraudulent manner in which United States government land has been obtained from the United States government, much more evidence could have been obtained on this subject, but your committee did not feel that it had any authority to inquire into matters outside of the state lands. The evidence shows, however, that shanties worth \$5 each were made of a few twigs, with fragments of broken glass or bottles stuck through holes as an excuse for windows and a few grains of corn or beans planted with a stick in the ground, so that the claimants would be able to swear they had a lawful residence and garden.

By these shameful devices the United States government has been cheated out of millions of acres under the pre-emption and homestead laws, while the parties who went through this pretense of a residence sold out for from \$200 to \$500 each to some wealthy lumberman who had employed them to do so, and who was well aware that the claimant must commit perjury before the title of the land could pass to him. It is claimed before your committee that not ten per cent of the entries made in the timber regions are genuine, and that ninety per cent are a cover for fraud.

The evidence shows that, not satisfied with these villainous deceptions, frauds on a more wholesale scale have been contemplated, if not carried out. It is in evidence that a prominent lumberman, a candidate for surveyor general, desired to secure the appointment of a clerk of the court in Itasca county, and in conversation with a witness intimated that he desired to see "a man of nerve" in that position, who, as the witness understood, was to perpetrate wholesale frauds on the government by securing for the said lumberman tracts of land, on which insufficient improvements had been made or on which no improvements whatever had been made, and which had never been occupied by any pretended settler.

In short, the testimony in every direction seems to reveal a general system of venality and crime, out of which a few men have built up vast fortunes at the expense of the national government, the state government and all its institutions. One witness, a county auditor, while testifying before your committee, admitted that while in the employ and in the pay of a prominent lumber company, he had gone with the United States surveyor, formerly an employee of the same company, to help locate some twenty or more men on claims which were turned over to the lumbermen, and that

## America's Great Danger

AN ENGLISH COMMENTARY.

Said an eminent English scientist recently: "The danger that confronts the great American people today is not the possible adoption of a wrong financial policy for the nation, or the spread of socialism, or the increase of corruption among public men. All these are bad enough, to be sure, but they are as nothing compared to the terrible national disease—I had almost said national crime—of overwork. The mad rush for wealth is set at a killing pace, and thousands fall by the way every year."

You are likely to be one of the victims! How do we know? Because it is the exception to find a man or woman of adult age in perfect health. Nervous Disorders are spreading with fearful rapidity. Among the symptoms are—Backache, Biliousness, Cold Hands and Feet, Dizziness, Hot Flashes, Flattering Sensation, Fainting, Headache, Hysteria, Irritability of the Heart, Melancholy, Failing Memory, Palpitation, Rheumatism, Short Breath, Sleeplessness, Nervous Debility, Sexual Debility, Fits, etc.

Rev. C. A. Canby, pastor First Baptist Church, Yellow Springs, O., writes as follows: "I have used Dr. Miles' Restorative Nerve for the past six months. I find it acts like a charm on the whole nervous system. I have not found its equal in giving immediate relief. Dr. Miles' Little Nerve and Liver Pills only need a trial and they will recommend themselves to be the best pills in the market."

For five years I have suffered from Nervous Prostration. I was unable to work or sleep. The first dose of Dr. Miles' Restorative Nerve gave me relief, and one thousand dollars would not cover the good it has done me."—JOHN MINCHIE, Youngstown, Ohio.

he had succeeded in getting from these men from \$150 to \$200 each.

The lumber company had the whole thing in their own hands. They were security for the surveyor; they selected the surveyor; they furnished him with necessary supplies; they sent their agent along with him, and whenever a line piece of land was discovered they clapped a man on it to hold it under the system we have described. The evidence further shows that some of these very men so located by the agents of this company proved up on their lands before this same clerk of the court, who was imported from Montana on account of his "nerve," and that the lands were then turned over to the very company that had supplied the surveyor and sent out the man to locate these men.

**Tax Frauds.**  
We now approach another and very important branch of this investigation, to-wit: The extent to which the revenues of this state have been defrauded by failure to assess lands or to assess them at their real value. The evidence in this respect is really very extensive, and extends to other lands assessed in this state.

The evidence discloses the fact that the county of Itasca embraces about 500 square miles, or one-fourteenth of the whole state. One-third of this area, or in the neighborhood of 1,000,000 acres has been patented to individuals from the United States, and of this land over one-half, or in the neighborhood of 600,000 acres has been assessed at less than its fair average value of a little over \$3 per acre. About one-half of the personal estate of the county also escapes taxation.

The county has been miserably mismanaged and the result is it has an indebtedness of nearly \$20,000, while it has about \$10,000 of improvements to show for it. Nearly all the officers of the said county, as shown by the evidence before this committee, are employed by the great lumber companies operating in said county or by individual lumbermen.

The evidence also shows that at the time the county was organized a resident of the city of Minneapolis, who was largely interested in a lumber company in said county, was appointed as one of the commissioners thereof. This was the same man who bought the timber claims just referred to, and who was a member of the lumber company who furnished supplies for the United States surveyor. While acting as county commissioner, Itasca county, he continued to reside in the city of Minneapolis with his family, and he appears to have been made county commissioner simply to assist the lumber company in its operation by which it was to deprive the state of its taxes.

It is claimed by witnesses who appeared before this committee that the parties resident in the county or small concerns not in the ring were assessed upon their property at a high valuation, the great lumbermen who were the favorites of the combination got off entirely free from payment of taxes or were assessed for much less than the real value assessed in some cases for less than one-tenth of a fair valuation.

The assessment of the property of the county seems to have been conducted in a shameful manner. The present assessor has been in the employ of another of these lumber companies, and we have reason to believe is still so employed. While the law of the state requires the assessor to personally visit and examine the land to be assessed, his own evidence shows that out of seventy towns in the county he visited but thirteen.

**Would Have Added Millions.**  
This witness admitted to your committee that where he had made personal inspection of the land he had assessed, in many cases, to a high figure as compared with the former assessment, in one case raising a tract of land from \$200 to \$1,800, and in another case he had personally inspected the rest of the county and had made a similar increase it would have added millions to the taxable real estate of the county. It is but justice to say that the reason the county assessor did not visit all the towns in the county was that he was prevented, as he alleges, from so doing by the action of the other county officials.

He admitted, to use his exact words, "That a man in Winona could make as good an assessment of the county as he had made of the towns that he had not visited." Your committee is forced to the conclusion that millions of dollars worth of property have escaped assessment in that county alone, and that the undervaluation of such as has been assessed will amount to a vast sum.

It is in evidence before your committee that the county of Itasca and the state itself has never received one-tenth its just proportion of taxes on real estate. In Itasca county, and it appears by the statement of one witness that a part of the Cannon Falls Improvement company land, now owned by private parties and therefore subject to taxation, has not been assessed at all. Your committee is of the opinion that one man can not assess a county of the size of Itasca county, but that it would require three men with several assistants to assess the property properly to the work required by law.

No assessments have been levied in Itasca county on logs after the same were separated from the reality, except in a few instances, despite the fact that the output thereof has amounted to \$1,500,000 worth a year. Your committee is forced to the conclusion, from the evidence of the county officials of Hennepin and Itasca counties, that in consequence of the logs being in transit in the water courses between the two states, and that over one-fifth of the value of them is ever assessed anywhere.

In consequence of our system of log-raiding, the assessments are so low on the first day of May, the property embraced in these logs not being at the point of manufacture on that day, and the lumber manufactured from them being sold before the next first day of May, this whole industry, to a large extent, escapes taxation. While the logs at the point of manufacture are worth from \$7 to \$9.50 a thousand, it appears from the evidence before your committee that they are assessed at the rate of \$1 per thousand.

**Railroads Not Taxed.**  
It also appears that there are in the said county of Itasca two private railroad or tramways used for the transportation of logs. These were built, wide gauge roads. They pay no tax to the state upon their gross earnings and they completely escape all local taxation. These two roads aggregate a length of about thirty miles and represent a large amount of money invested therein—not less than \$100,000—and should bear their reasonable share of the burdens of the state. In addition to the transportation of logs for their owners, they also carry freight for third parties. The assessor referred to testified before

your committee that, acting under the instructions of the county auditor, he entirely omitted to assess the township in which certain prominent lumbermen own large quantities of pine land. While he raised the assessment upon other lands, he had not, in consequence of those instructions of the county auditor, made a similar examination or increase in the assessment of the lands in the said township.

Your committee further finds that tracts of land worth from \$800 to \$300 have been assessed at a valuation of \$18 to \$100, and the evidence before your committee goes to show that most of the pine land is assessed for not over one-tenth of its value, thereby defrauding the state and the county of nine-tenths of their revenue from such property. From the testimony taken, your committee find that the output of logs has been of late years from 200,000 to 300,000 feet upward in Itasca county, and this year it is claimed it will amount to 265,000,000 feet, which at \$6 per 1000—say to be a fair average value—would make an annual production of about \$1,500,000.

Part of this yield is taken from the Rainy Lake country, and is shipped to Canada—this year about 100,000 feet have so far gone out from our state—from which the state never has and never will receive a cent of revenue. Immediate steps should be taken to put a stop to these practices. The various lumber companies operating in Itasca county have large plants, numerous horses, cattle, wagons, etc., valued at about \$400,000, \$500,000 of this remaining in the county permanently and upon all this, with the exception of about \$7,000, no assessment whatever is made.

The evidence taken before your committee goes to show that in assessing land no distinction has been made between lands that are valueless and lands that are valuable, both being assessed at the same rate.

**The Remedy.**  
Your committee feels that it is not sufficient to simply present these astounding facts to the people of the state and propose no remedy for them. Your committee would, therefore, respectfully recommend that some body or commission or committee be created, before we adjourn, with ample power to carry on this investigation, and report the facts revealed from time to time to the governor, by him to be laid before the legislature at its next session.

To prevent the appearance of creating lucrative offices for the members of that committee, your committee is of the opinion that they should work without compensation, but should be paid their actual expenses. Your committee would suggest that if such a commission is created the members should go personally to different parts of the vast area to be examined into and should send out their agents and collect all the facts.

This would require but a small expenditure of money and that expenditure is not to be considered in view of the vast interests at stake, for it must not be forgotten that the statute of limitations does not run against the state of Minnesota in such cases as these and that if the investigation is properly pushed, suits can be brought against all those who have defrauded the state and millions of dollars taken out of the public treasury.

Your committee would further suggest that, if the facts developed by such an investigation are as striking and as terrible as those revealed before your committee, the governor of the state should call together the legislature in extra session in January next to take such steps as may be necessary to defend the interests of the commonwealth.

The senate will observe that we have refrained in this report from giving the names of the witnesses called, or of the parties reflected upon. We have done this in the hope that this investigation will be continued by the state; and we would suggest that if it is so continued, the evidence be printed with that taken hereafter.

It can readily be understood that the witnesses may be subject to persecution for the facts they have revealed, and exposed; and to mention their names might intimidate others from giving valuable testimony. And at the same time we do not feel like attacking individuals upon ex parte testimony, without an opportunity to defend themselves. We simply desire to make out a prima facie case, like the indictment of a grand jury, which will be sufficient to compel the state to take all necessary steps for the protection of its great interests.

## HER NEIGHBORS KNOW.

And All Her Friends Know About the Matter.

And Now She Wishes That Everybody Should Know All the Facts.

For That Reason She Makes a True and Straightforward Statement.

The friends and neighbors of Mrs. Ira Henderson, who resides at Armaty, Mich., know all about the matter, and she now wishes that everybody should know all the facts just as they occurred. "For nearly four years," she says, "I had suffered. I was so nervous that I could not write or read, could not even bear my children's company. I would have such a strange feeling in my head it seemed as if I should lose my mind. "I was very weak and nervous and would get all in a tremble and my heart would beat so hard that it would almost take my life. I would have dizzy spells and what little sleep I could get did me no good. I could not eat anything that tasted right. It did seem as if everything had changed. I was greatly depressed and thought if only the Lord would enable me to keep my mind until I could get help."

I doctored for two years without benefit, and then I took Dr. Greene's Nervura blood and nerve remedy. I received relief right away and I could see that the first bottle was helping me. I cannot be thankful enough. I have recommended it to others and they have been helped by it.

MRS. IRA HENDERSON.  
"It has also cured my little girl of a nervous trouble. She would get up in her sleep and be out of her head. At such times she would talk strange and it would be some time before she would know where she was. She is all right now and we praise Dr. Greene's Nervura blood and nerve remedy for the cure."

My neighbors and friends know how I have suffered from weakness and nervous disease. I have lived here forty years and am known to all. I do wish I could help every sufferer to a bottle of this wonderful medicine so that all might be cured."

It is by the widespread publication of facts like these that the great curative powers of Dr. Greene's Nervura blood and nerve remedy can be made known to every invalid and sufferer in the land. It is true that this medicine performs astonishing cures and all who are ailing should avail themselves of its wonderful powers.

And everybody needs a spring medicine and this is the best and surest remedy to put you in perfect health. It is purely vegetable and harmless and is kept by druggists, food stores, physicians and druggists recommend it highly, because they have seen it cure numberless sick people and because it is the prescription of a recovery of a well-known physician, Dr. Greene, of 35 West Fourteenth street, New York, the successful specialist in curing nervous and chronic diseases. ## A FEW APPOINTMENTS

Mayor d'Auremont Nominates A. C. Barlow For Member of the Board of Public Works.

An Expression From Cash, Williams & Chester on the Question of Mr. Nilson's Term of Office.

Combine Among Several of the Banks to Pay Only Two Per Cent on City Funds.

Right in the hub of the council meeting last evening, as it were, Mayor d'Auremont submitted the following appointments to the city fathers for their consideration, should they elect to give it: Member of the board of public works to succeed Nils Nilson, Albert C. Barlow; member of board of fire commissioners, to succeed Alex. McGregor, E. K. Jefferson. The nominations were referred to the committee on public officers and officers of which A. M. Cox is yet chairman.

The next act was the second reading of City Attorney Greene's famous opinion on Nils Nilson's status as a member of the board of public works. That opinion is familiar by this time to every man, woman and child in Duluth, hence repetition is unnecessary.

As soon as the clerk ceased reading Alderman Cox called out that there was another opinion on the table that he would like to hear read. He referred to one by Cash, Williams & Chester, also telling what relations Nils Nilson yet bears to a third membership of the board of public works. These last limbs of the law asserted that in their opinion Mr. Nilson is yet a member of the board. The silence of the charter and the general tenor of decisions of that stripe by the supreme court of this state, and although nothing has been handed down directly on that or a similar case, these gentlemen expressed a belief that were one to come, the supreme court would agree with them. Deductions from authorities looked up were given rather than a quotation of authorities. The milk of this legal cocoanut was about as follows:

All officers, both public and private, hold over until their successors are elected and qualified, unless there is some clearly expressed and positive restriction, which evinces a design that there shall be an interregnum in the office unless a successor is qualified at or before a certain date. There being an entire absence of any such restrictive provision in the city charter, the doctrine applies with full force to your case. The doctrine is based on the ground of public necessity and the obvious danger that would threaten the public peace and safety if officers were to be considered out of office by limitation before others were appointed to whom they could safely resign their trust, and some authorities give an additional reason that officers are appointed to carry out the ends for which the municipality or corporation was created, and that if an officer resigns or becomes vacant because the term of his incumbency has expired, that branch of municipal or corporation business would necessarily be paralyzed and some of the ends for which the municipality or corporation was created would fail.

The next attempt to shake down some public plans and throw out a little bit of office fodder to the boys was made by City Assessor Smith, who asked that the following appointments to subordinate positions in his office be confirmed:

Clerk, B. S. Rude; deputy assistant clerk, Carl A. Neuman; deputy assessors, First ward, John Meers; Second ward, C. A. Moore; Third ward, H. F. Wickham; Fourth ward, Bert Johnson; Fifth ward, Aaron Olson; Sixth ward, Jos. Forward; Seventh ward, W. A. Kennedy.

A settlement for the Street Railway company's claim for paving on Bench street was ordered on a basis of half of the engineer's estimate, \$5,320.21. The railway's claim was for \$20,800. J. McNab and a long list of others petitioned very earnestly for the improvement of Cascade square. A resolution appropriating \$250 each month for the benefit of E. R. Meier on condition that he play with a band of not less than twenty-five pieces, at such times and places designated by the council, was referred to the finance committee. An ordinance granting the Duluth, Missabe & Northern railway right-of-way across certain portions of West Park, over Marine division was read and referred.

A resolution designating the Duluth Loan, Deposit and Trust company as a depository for public funds was postponed one week for further consideration as also was the bond for \$50,000. The causes that led up to that were something as follows: Alderman Thomas objected to letting one bank have all the funds. Alderman Myers then informed him that under its \$50,000 bond it could get only \$25,000. Mr. Thomas said that while he was not working in the interests of the banks, he thought a general distribution was safer and that 2 per cent in the best banks was better than 3 per cent in one single bank.

The point that there is said to be a clearing house combination was developed. Alderman Hugo said that he did not see that the council should be dictated to and that further more, the charter compels the funds to be deposited in banks that pay 3 per cent. If there was a combination the council

would have to bank elsewhere. "A bank combination," said Mr. Hugo, "is as bad as the printing combination of last year which so much has been heard about." At that remark, Alderman Thomas ceased to plead for the 2 per cent banks. The general bills for March were allowed and a resolution by Alderman Myers that bids be secured for the frame buildings now on the new fire engine house site be secured was presented. The issue of bonds in the sum of \$35,547.23 was authorized. The proceeds are to settle a contractor's unpaid claim for improvement of London road before Lakeside became a part of Duluth.

An amendment to the franchise ordinance of the Northern Electrical Subway company was presented by Alderman Howard. The amendment provides that the company shall commence the construction of subways within three months after ordered by the council, excepting that period between Dec. 1 and April 1, and that one mile shall be constructed within six months after work has been commenced.

Then resolutions looking to the betterment of sanitary conditions were presented by Alderman Hugo. One directed the purchase of garbage carts and care for garbage, both in collection and disposition of it. Another was to render possible the compulsory connecting of water closets with sewers. A third provides that plans be prepared for the extension of the First, Second, Third and Fourth avenues west storm sewers into moving water, so that the surface with which has been emptying into a stagnant spot shall be carried off. The last directs the chief of police to have refuse which is now dumped on railway property along the bay front, hereafter deposited along Railroad street so as to ultimately construct that street. They were referred.

A theme for conversation on their homeward way by the aldermen and spectators was afforded by Alderman Cox. He introduced a resolution setting up the fact all appointive officers are for one year, unless otherwise stated. It was further stated that the police department comes under that head and that under the existing circumstances, the positions on the force are vacant and the members simply hold their positions on the same basis that Nils Nilson lays claim to the holding of his place on the board of public works.

The resolution directed his honor, Mayor d'Auremont to submit to the council the appointments of police officers and men for the ensuing year, with a statement of the rank held by each member. It was referred.

Capt. Pressnell at Gettysburg. A Washington dispatch to the Pioneer Press says: T. H. Pressnell, who has been visiting in the East for several weeks, has taken in some of the old battle fields of the war when he, as a volunteer in the famous First Minnesota regiment, played such a prominent part. He went to Gettysburg, where his regiment made one of the greatest records of any during the war, and was also over the battle field of Antietam. Mr. Pressnell says that he can easily recognize the place where the fighting took place, but finds some difficulty in getting his bearings at Antietam. He has also visited some points in old Virginia that he tramped over during the war. Many years ago Pressnell was a compositor on the St. Paul Press, long before it was consolidated with the Pioneer.

Sues for Malpractice. J. H. Howard, of Wisconsin, has commenced a suit in the United States circuit court to recover \$500 damages from Drs. Magie and Beyer. He claims that on Jan. 27, 1893, he broke an arm and secured the service of the defendants. He alleges that they reduced the fracture in a careless and negligent manner and that it has never healed. He therefore asks the damages.

Dr. Huntley Coming. Rev. E. D. Huntley, D. D., superintendent of the Baltimore conference has been assigned to the First Methodist church in this city until October 1, at which time the general conference will elect a pastor. Dr. Huntley is said to be a very able preacher. He has been in poor health and withdrew from active work for about a year. He will spend a few months here in the hope of improving. Dr. Huntley will occupy the pulpit next Sunday morning and evening.

The Port Arthur Route. The Port Arthur & Duluth Steam Packet company's Cambria will run as last year between Port Arthur and Duluth tri-weekly. Captain Peter Olsen is to be master. Mr. O'Brien chief engineer. Capt. Olsen formerly sailed the steamer E. M. Foster during the construction of the Canadian Pacific on the north shore.

Persons who are subject to attacks of bilious colic can almost invariably tell, by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera and Diarrhoea Remedy is taken as soon as these symptoms appear, they can ward off the disease. Such persons should always keep the remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much suffering. For sale by druggists.

## A FULL HOUSE.

The Mourners' Row in the Municipal Court Well Filled This Morning.

Every chair in the mourners' row this morning was occupied. Had there been more prisoners, they would have been compelled to stand up or sit on the floor and let their feet hang over. Neal Cameron, for drunkenness, got ten days in jail as also did Andrew Raker, an unscrupulous Swede who could not speak English and whose companion said he was "a little drunk." William Anderson, another Swede, got ten days in the jug. Pat Murphy, Daniel McDougall and John Daugherty, charged with vagrancy, stated that they only came to town yesterday and that they were more anxious to go to work than to lie in jail. The judge took them at their word and suspended sentence.

John Cummings, Thomas Walters, Charles Powell, Luke Hart, charged with vagrancy, Kate Finnerty, charged with drunkenness, and Frank Blackburn, charged with being drunk and disorderly were held under \$15 bail to prove at 3 o'clock this afternoon that their pleas of not guilty are true. Nick Williams, upon a charge of disorderly conduct, had his trial set for Thursday afternoon.

Some time since, so he alleges, Geo. Loyd, a lake pilot, went into the Salvation Army barracks to attend some doings, his way being paid by a friend. Some officers were in the barracks and he, charged with being drunk and disorderly, got it into his head that Loyd had not paid, grabbed him by the throat and attempted the bouncing act. In the fracas Rosalind Waldron, one of the Amazon Salvationists, got jostled somewhat. A warrant was at once sworn out for Loyd, charging him with assault. The matter started for the Smith-Squier regime and as the city attorney was busy today, the trial was set for next Tuesday at 10 o'clock.

Fullerton and Webb, charged by Emil Smith with grand larceny by selling the minutes of one piece of land and showing the wrong piece, were held to the grand jury under bonds in the sum of \$250 each, which were given.

## IS WELL MANAGED.

The Police Matron Greatly Pleased With the Oatonna Home for Children.

Mrs. Van Sickle, the police matron, is back from Oatonna where she went to place the little boy of Mrs. Abramson in the home there. Mrs. Van Sickle is most enthusiastic over the management of that asylum for homeless children and says too much praise and credit cannot be given. All the children taken there from Duluth are doing well. There are about 10 inmates at present, and they are a happy, well-cared-for lot. The superintendent is a Christian gentleman with superior qualifications for his position.

The management aims to find homes for the children, but does not like to sign articles of adoption by those with whom they are placed. An excellent system is kept up until the children are 21 years of age. An inspector or agent goes around periodically and visits them and those who have not secured permanent places, are taken back and cared for until the right home is found.

## Catholic Club Meeting.

A general meeting of the Catholic club was held last evening in the rooms on West Fourth street. The reports of officers were read and showed the organization to be in a flourishing condition. It was decided to hold a social on the third Wednesday of every month on the first of which will take place next week. Twelve teams were organized to play a series of bowling matches commencing this evening. Bishop McGarrick was present and delivered an interesting lecture.

## Must Number Houses.

The council adopted last night the plan establishing a system of house numbering for Lakeside and Lester Park. This numbering has been arranged so as to be in conformity with the system in vogue in the main part of the city. The residents in these suburbs will have sixty days from date in which to put up their house numbers after which, if that duty has not been performed, all delinquents are liable to a penalty provided for by the charter.

The Fountain Head of Strength. When the stomach is the grand laboratory in which food is transformed into the secretions which furnish vigor to the system after entering and enriching the blood, that it is, in short, the fountain head of strength, it is essential to keep this important supplying machine in order and to restore it to activity when it becomes inactive. This Hostetter's Stomach Bitters does most effectively, seasonably regulating and reinforcing digestion, promoting due action of the liver and bowels. Strength and quietude of the nerves depend in great measure upon thorough digestion. There is no nervous tonic more highly esteemed by the medical fraternity than the Bitters. Physicians also strongly commend it for chills and fever, rheumatism, kidney and bladder trouble, sick headache and want of appetite and sleep. Take a wineglassful three times a day.

The more Chamberlain's Cough Remedy is used the better it is liked. We know of no other remedy that always gives satisfaction. It is good when you first catch cold. ## AN INDIAN LETTER.

Methods of Communication Among the Indians.

The Picturesque of Eloquence.—Thoughts Expressed in Silence.—How Indian History is Preserved.—Letter from an Indian about Kikapoo Indian Sagwa.

The sign language of the Indians is a wonderful thing. Two Indians different in their speech as a German and a Spaniard will readily communicate with each other. It is the picturesque of eloquence and without speaking a word, making his meaning clear to all present by signs.

Historians and all written communications are made by signs. The family history of a chief will be painted on a tepee. The following is a specimen of this method of communication.

The letter was written by KICKAPOO, a Kikapoo Indian Medicine Man.

SPECIMEN OF INDIAN LETTER WRITING.

The above letter translated as follows: "The Indians offer to their white brothers flowers, leaves, roots and herbs, made by the sun, the stars, and the rain (nature). If the white man is rich, God makes him strong, then the bear who will fall before him." "Sagwa" is a medicine word meaning "to be rich and strong." "Sagwa" is the name of the medicine man.

Cathin, the highest authority on the Indians and to live among them for years, says the word of an Indian can always be relied upon and he is right. Here are the sincere statements of a noble son of a grand name.

Here is a letter from a far-distant source. The following is from the Professor of Physiology, Chemistry at Yale College, and this scientist says:—

"After a chemical analysis of Indian Sagwa, I find it to be an extract of roots, bark and herbs of valuable medicinal action, and no mineral or other deleterious admixture."

Read the teachings of these letters. Take Nature's Remedy in season. If your blood is impure in your skin is marked by pimples, blotches and boils, if you have dull pains in your back and side, if your appetite is poor, if you do not get sound, refreshing sleep, so that only the health and strength, you are in danger. These are the signs and symptoms are the warnings of nature.

Arise yourself and drive off the enemy. Build up your system by its use and all diseases will be cured. Kikapoo Indian Sagwa and other Kikapoo Indian medicines contain only the products of the field and forest, nature's own medicine. They are free from all poisons, and of necessity are free from all impurities. They are free from all poisons, and of necessity are free from all impurities. They are free from all poisons, and of necessity are free from all impurities.

**KICKAPOO INDIAN SAGWA** Is sold by Druggists and Medicine Dealers Only. \$1 per Bottle, 6 for \$5.

## GEN. GONZALEZ DEAD

One of the Most Interesting Figures in the History of Mexico Has Been Removed.

It Was Under His Leadership That the Battle of Lomas Was Turned in Diaz's Favor.

For Four Years He Was President of the Republic and Conducted a Successful Administration.

NEW YORK, April 11.—A special to the Times from the City of Mexico says: Ex-President Manuel Gonzalez died at 4 o'clock yesterday, the family, President Diaz and other friends were at his bedside. He told his friends to obey and honor Diaz. One of the most interesting figures in Mexican history has been removed by the death of Gen. Gonzalez.

Gen. Gonzalez was born near Matamoros in 1820 and joined the army at the age of 19. At the age of 30 he was one of the leaders in the civil wars of Mexico and was found fighting with the reactionary party under the guerrilla chief, Cobos. In 1851, Gen. Gonzalez offered his sword to the Liberal leader Juarez, when the allied armies of France and England invaded Mexico. He attended the president of the republic in his flight from the capital, after which he made a counter-march to the mountain of Hidalgo, where he remained until 1856 making frequent incursions upon the enemy. Toward the end of 1865 he made a successful contest throughout the forts of the enemy and joined Gen. Escobedo. For gallant service he was promoted to be colonel in 1866 and brigadier general in 1867, which year he entered the capital with a victorious command. Gonzalez served throughout the memorable defense of Puebla, and in this campaign it was that he first met Diaz and a friendship was formed that never wavered. Gonzalez lost an arm at Puebla.

In the revolution of 1872, Gonzalez joined Diaz. After varying fortunes, the force of Gonzalez turned the battle of Lomas, which virtually decided the overthrow of Lerdo's government. A few days later Don Diaz entered the Mexican capital in triumph and established a provisional government, appointing Gonzalez minister of war. In June, 1880, he resigned the portfolio of war to become a candidate for president. He received a handsome majority over the various candidates and assumed the functions of the office in December, 1880.

In 1884 he was compelled to resign the government, Gen. Diaz being elected to succeed him. Gen. Gonzalez's administration will be remembered to his credit because he settled troubles that had been a source of annoyance to his government for sixty years and negotiated important commercial treaties with various countries. At the end of his presidential term he was unanimously

elected governor of the state of Guanajuato. In the following year a resolution was presented in congress charging him with the misappropriation of public funds during his presidency. It was referred to the grand jury, but was never pressed. Since 1887 Gonzalez has not been prominent in Mexican life.

### SPEECH AGAINST HOME RULE.

Joseph Chamberlain Criticizes the Measure Proposed by Mr. Gladstone.

LONDON, April 11.—There was but a thin attendance in the house of commons yesterday when discussion was resumed on the motion for the second reading of the Irish home rule bill. The first speaker was Herbert W. Paul, Liberal M. P. for South Edinburgh. Mr. Paul's remarks did not fill the benches, and it was not until Joseph Chamberlain arose that the members hurried in and the house assumed an aspect of interest and attention.

Mr. Chamberlain said that the bill proposed to establish a brand new legislation for Ireland. The prime minister asked them, continued Mr. Chamberlain, when the controversy would be settled if the measure should be rejected. The whole question really was, would the bill settle the controversy? Was not Mr. Gladstone in too great a hurry, and was he not too impatient to deal with the Irish difficulty?

A new era had opened for Ireland with the disestablishment of the Irish churches. The agrarian question had been partly settled. Time ought to be given to allow for the beneficial operation of the other measures; but the prime minister said that Ireland was still discontented and that no proceeding toward conciliation had been shown.

Mr. Gladstone had disregarded the rights of the minority and treated the most influential and prosperous section of the Irish people with contempt. He proposed to subject that section of the Irish people to such legislative conditions as would wreck their industries and expose the whole country to financial ruin. Not Ireland alone, but England, began to dread the results.

### AGAINST THE RAILROADS.

Another Order Issued in the Chicago Lake Front Case.

WASHINGTON, April 11.—The supreme court yesterday delivered its declaration upon the latest moves in the Chicago lake front cases, which settled them as far as the court is concerned.

Justice Field announced that the petition of Corporation Counsel Miller for the issue of mandates to execute the judgment of the court, given some weeks ago, would be granted and the mandates issued. This disposes of the second petition by the counsel for the railroad companies presented last week for a rehearing of the case by the court. None of the attorneys for the Illinois Central were in court. Corporation Counsel Miller, who has been in Washington some days on this case, will shortly return home.

### Lincoln Coming Home.

LONDON, April 11.—Hon. Robert T. Lincoln, American minister, will sail for the United States on April 22, leaving Secretary White in charge of the legation until the arrival of Mr. Bayard.

### EXPLOSION IN A COLLIERY.

One Man Killed, One Fatally Burned and Three Slightly Injured.

WILKESBARRE, Pa., April 11.—An explosion took place yesterday in the Black Diamond mine, operated by John C. Paddock at Luzenborough. A laborer entered one of the chambers with a naked lamp and fired a pocket of gas, causing a terrific explosion which was heard throughout the workings.

Miners in the pit hurried to the scene and found William George, aged 40 years, dead and terribly burned. Wm. Wellington, aged 37, a laborer, was fatally burned, and three Hungarians whose names are unknown are slightly burned and otherwise injured.

### THE INDIANA TAX LAW.

Case Involving Its Validity Advanced by the Supreme Court.

WASHINGTON, April 11.—Chief Justice Fuller has announced the decision of the supreme court upon the petition of the counsel in the Indiana railway tax cases to advance them on the docket. The petition was granted and the cases set down for argument on the second Monday of next term.

In these cases is involved the constitutionality of the new tax law of Indiana, the railroads holding that the law permits and the tax officers exercise a practically confiscatory rate as applied to the property of the corporations. In the state courts the law has been upheld.

### EVA MANN SEES AGAIN.

Wants Her Rights as Widow of Robert Ray Hamilton.

NEW YORK, April 11.—Another action has been begun by Eva Mann, the woman who calls herself the lawful widow of Robert Ray Hamilton, to recover what she claims to be her rights, amounting to about \$130,000.

It is said by the Hamilton family that Hamilton and the woman were married, but the claim will be made that the marriage was rendered null and void by the fact that at the time the woman was already the wife of Joshua Mann.

### HALL AND SLAVIN MATCHED.

They Agree to Box For the Best Purse That is Offered.

LONDON, April 11.—Jim Hall and Frank P. Slavin met yesterday and signed articles to box for the best purse offered, the contest to take place in Derby week. Mitchell offered to back Hall to box Slavin before the Belling Brook club for a £600 purse and £1000 a side.

Slavin was prepared to post £500 to box at the National club for £1000 purse and £1000 a side. Slavin's backers are members of the National club, while Hall's backers are Belling Brook people, hence a split, and the contest is open to other clubs anywhere offering the best purse.

### The Brazilian Fleet.

WASHINGTON, April 11.—The secretary of state received a dispatch yesterday from Minister Conger, dated Petropolis, Brazil, stating that the Brazilian fleet had sailed for Hampton Roads. The message contained no particulars. Three vessels composed the fleet.

### A BIG STATE SALOON.

The Governor of South Carolina Getting Prices on Liquors.

PITTSBURG, Pa., April 11.—Governor E. R. Tiltman and State Commissioner D. H. Troxler, of South Carolina, are in Pittsburg looking after a stock of liquors and bottles. Yesterday they called on the leading glass and liquor men who are to quote prices for the "stocking" of a big state saloon. Governor Tiltman said to a reporter:

"The new dispensary law goes into effect July 1. After that date there will not be a license in the whole state of South Carolina. The wines, whiskies, beer and in fact all beverages containing alcohol will be sold only at state dispensaries by salaried and bonded officials, and every ounce of alcoholic liquors sold within the state will be purchased by the state commissioner, and no liquors of any kind can be shipped into the state by any common carrier, except the package bear a certificate signed by the state commissioner."

"These packages will be distributed to local dispensaries, one or more of which may be located in any town where a petition for its establishment is signed by a majority of free voters. Druggists are prohibited from selling any liquor except alcohol. The new law will make a wonderful change in the state, and I think that it will finally be universally adopted as a solution of the liquor problem. For forty years it has been in successful operation in Norway. There are six prohibition counties in South Carolina where there will be no dispensaries."

### Jumped From a Fourth Story.

CHICAGO, April 11.—Miss Lizette Duncan, a patient in the Lincoln Park sanitarium, while in a fit of melancholy yesterday, jumped from a fourth story window to the ground and was instantly killed. The woman came to the sanitarium several days ago from Ohio, just what place the hospital physician does not know, and was being treated for cancer.

### A \$70,000 Blaze.

WATERBURY, Conn., April 11.—The five-story Lilly block was gutted by fire yesterday afternoon. The greatest sufferers are Reid & Hughes, dry goods, who occupied the ground floor. They estimate their loss at \$70,000, on which there is an insurance of \$32,000.

### All Quiet at Hull.

HULL, April 11.—Everything is quiet so far as the strikers are concerned, and no disorderly demonstrations have as yet been reported. The non-union laborers are actively engaged in loading a number of vessels without interference.

### Carlisle's Secretary.

WASHINGTON, April 11.—Secretary Carlisle has appointed Sherman Van Vansender, editor of the Paducah, Ky., Standard, as his private secretary. Mr. Van Vansender is 30 years old and a native of Kentucky.

### Two Watchmen Burned.

DURHAM, Ia., April 11.—The extensive plant of the Dubuque Enameling works was burned to the ground last night. The fire originated in the explosion of oil used in the heating of furnaces. Loss, \$50,000, partially covered by insurance. Two watchmen were fatally burned.

### PRISONERS FEAR VIOLENCE.

Excitement Over the Oliver Tragedy in Kentucky Continues.

EVANSVILLE, Ind., April 11.—The excitement over the Oliver tragedy at Morgantown and Sturgis in Union county, Ky., has not abated. The entire county is still worked up over the affair. It is stated that friends of the Olivers and other Sturgis citizens have organized to Lynch the prisoners, if justice is not administered properly.

It is also stated that friends of the prisoners have organized and will resist any such attempt. Taylor Oliver, the wounded father, is still hovering between life and death. It is believed that his death will tend to excite the mob and violence will then be feared more than ever.

The ninth man wanted by the authorities is Frank Carter, and it is reported that Detective Henry Spencer has captured him. The guard at the Morgantown jail was doubled last night on request of the prisoners. The officers fear nothing, but the prisoners seem to be in fear of a mob. There is a heavy guard around the jail which will offer every resistance to a mob.

### Deaths from Cholera.

PARIS, April 11.—Three persons died of cholera Sunday in L'Orient in the department of Morbihan, France, where the disease has caused many deaths recently.

### Woolen Mills Burned.

WORCESTER, Mass., April 11.—The Eagle Woolen mills in Hubbardstown were totally destroyed by fire at 2 o'clock this morning. Cause unknown. Loss \$75,000 to \$100,000.

## A SCANDAL BREWING

Maj. Baldwin's Pine Land Inquiry is Likely to Result Rather Unpleasantly For Several People.

Investigation in the Interior Department Has Revealed Some Facts About Red Lake Reservation Frauds.

Will Bassett and C. A. Smith Charged With Cutting Live Timber Under a "Dead" Timber Contract.

WASHINGTON, April 11.—Information secured last yesterday indicates that a scandal is sure to grow out of the investigation that Representative Baldwin is endeavoring to have started into the operations of the pine land ring in Minnesota.

From a source that appears to be reliable it is understood that under a contract made a year or so ago two young business men of Minnesota cut a great deal of timber on this reservation that they were not entitled to in the contract that they are supposed to have made with the Red Lake Indians.

It is believed that the investigation progresses facts will leak out which will create something of a sensation in northern Minnesota. As the interior department officials understood it at the time the contractors were to simply cut dead timber on the reservation, but instead of doing this it is believed that they cut live timber, thereby violating their contract.

Secretary Smith said yesterday that he would investigate the alleged timber steal in northern Minnesota just as soon as he could get around to it. As yet he is unable to set a date for it.

Later—Representative Baldwin was given access to a great deal of information in the interior department during his investigating tour yesterday and has discovered that C. A. Smith and Will Bassett, two young business men of Minneapolis, secured a great deal of timber on Red Lake Indian reservation under a contract made with the Indians and the interior department which, before the investigation is over, may result in a scandal.

They secured a contract, so it is understood, from the Red Lake Indians to cut "dead" and "down" timber, but from information sent to the Red Lake reservation it appears that live timber was cut and that their contract was violated. The logs cut were held up on the river for some time, and in order to release them they gave a bond of \$75,000 to secure control of them.

Up to this date it is understood no account of the settlement has been made between Bassett and Smith and the interior department, and when Secretary Smith begins his investigation some interesting facts in connection with this and other cases of alleged timber depredations may come to light.

## BATCH OF APPOINTMENTS

Daniel N. Morgan of Connecticut, Has Been Nominated to Be Treasurer of the United States.

WASHINGTON, April 11.—The president today sent the following nominations to the senate:

State: Edward H. Strobel, of New York, to be third assistant secretary of state, vice Wm. M. Grinnell, resigned. Daniel N. Morgan, of Connecticut, to be treasurer of the United States, vice Enos H. Nebecker, resigned. Conrad N. Jordan, of New York, to be assistant treasurer of the United States, vice Ellis H. Roberts, resigned.

Justice: Horace Johnson, of Colorado, to be attorney of United States for the district of Colorado; Chas. Bellingier, of Oregon, to be United States district judge for the district of Oregon; Interior: Daniel M. Browning, of Illinois, to be commissioner of Indian affairs; Frank C. Armstrong, of Washington, D. C., to be assistant commissioner of Indian affairs.

Daniel N. Morgan, of Bridgeport, Conn., nominated for treasurer of the United States, is one of the leading citizens of his native state, socially, politically and financially. He is a man about 50 years of age, has been mayor of Bridgeport three terms, served in the legislature and has been a professional banker for ten years. He was warmly endorsed by the leading men of Connecticut, especially by the Hon. Carlos L. French.

Conrad N. Jordan, nominated for assistant treasurer at New York, is well known to the country. United States treasurer in Mr. Cleveland's first administration. He is about 65 years of age and was endorsed for his present place by every national bank in New York.

## EXCITEMENT IN SPAIN.

Japan Has Seized Islands Claimed by the Spaniards.

MADRID, April 11.—Much excitement has been caused here by a dispatch to the effect that Japan has seized the Pelew islands, a group in the North Pacific, claimed to belong to Spain, 450 miles east of the Philippine islands, at the western extremity of the Caroline archipelago.

It is claimed by the Spaniards by right of discovery. The governor of the Philippine islands has sent a cable dispatch asking for reinforcements, whether with the object of attacking the Japanese or not is not stated. The Pelew islands have about 10,000 inhabitants and are very fertile.

Their situation between the Philippine islands and the Caroline islands, both Spanish colonies, is regarded as a sign that Japan intends to encroach on the Spanish possessions in the Pacific. The war may lead to grave difficulties between the two powers.

## A Big Combine.

YONKOWN, O., April 11.—The scheme of New York capitalists to secure all the rolling mills and furnaces in the Mahoning valley for \$5,000,000 which has been in the hands of John A. Logan, Jr., for some time, will be perfected in New York today. The purchasers will organize a company and operate all their plants under one management.

## THE CHOCTAW FEUD.

Both Factions Being Reinforced and More Trouble Expected.

WASHINGTON, April 11.—Secretary Hoke Smith today received the following telegram from Agent Bennett at Muskogee, I. T.:

"Am reliably advised that both factions of the Choctaws are being reinforced strongly. Presence of the militia alone will prevent a conflict. Troops should be sent to Antlers as quick as possible. I will go there when advised troops have started. Telegram just received from Atoka says: One hundred men there going to the troubles, if the government does not interfere. Have wired their leader that have asked the war department to send troops to preserve peace."

As requests have already been made to have troops sent to the locality to preserve the peace, no further action will be taken by the secretary further than to furnish the war department with a copy of the agent's telegram.

## THE LEGISLATURE TODAY.

Jacobson's Bill Regarding Mixing of Grain in Warehouses Opposed by Mr. Cotton and Killed.

ST. PAUL, April 11.—[Special to The Herald.]—Mr. Jacobson's bill relating to mixing of grain in warehouses came up in the house this morning and was opposed in a strong argument by Mr. Cotton. It was defeated by a vote of 41 to 35. Mr. Holman's bill to legalize conveyances made in certain cases, where concurrence of married women is required, was passed.

Mr. Ives had a resolution passed to add six more members to the committee to investigate the boulder charges against members of the legislature.

Senator Laidlaw introduced a bill in the senate giving the same immunities as to garnishment of citizens of other states residing here as they enjoy in their own states.

The omnibus appropriation bill was made a special order for this afternoon. E. K. Smith's bill relating to construction of jails passed under suspension of the rules.

Mr. March's bill instructing the railway and warehouse commission to revise the freight rates had the amendments of the house concurred in this morning and went to the governor for his signature.

Mr. Jacobson's Camp Release bill passed the senate under suspension of the rules. The bill for the appropriation of \$5,000 to build a soldiers' monument at Lakeside cemetery at Minneapolis was passed.

Mr. Eaton's bill providing for annual unlimited session with salaries to each member of \$400 came up and Mr. Donnelly made a speech, stating that this senate has probably made the best record of any in the history of the state. He thought that in view of the gigantic robberies which had been practiced upon the people of the state by the coal barons and by the pine land ring, there was remedy against trusts, combinations and the devil except by a whole-some fear of annual sessions. The bill upon final passage was lost by a vote of 24 to 28.

In the house yesterday afternoon the reapportionment bill was defeated by a vote of 39 to 56 and the matter of any reapportionment for this session of the legislature was killed off by a motion to reconsider this vote which was lost.

The result gave rise to recriminations between Judge Fleming of Brainerd and the members from Duluth.

The senate passed the general charter bill, as amended, by a vote of 34 to 6. The patrol bill was also passed, and as to leave its extension in the hands of the council upon a three-fourths vote.

Governor Nelson has appointed the following capital commission: H. W. Lamberton, James McHugh, Channing Scabury, John De Laitre, C. H. Graves and T. H. Barrett. There are two Democrats, three Republicans and one Populist, and one man from each congressional district.

## WHOLESALE ENBEZZLEMENT.

A Bank Cashier Arrested for Stealing Nearly \$200,000.

NEW YORK, April 11.—The Tribune's San Francisco special says: James Flood, who was forced to resign last week as cashier of the Donohue & Kelly bank because of irregularities in his accounts, was arrested last night, on a warrant charging him with embezzling \$19,000 of the bank's funds.

When Flood was first arrested, his friends said he could make good his shortage which was caused by over drafts by one of his assistants. Flood transferred his real estate to the bank, but since then it has been found his shortage was very heavy.

He spent the whole amount in a single year. He was twenty-seven years when the bank and his employers had so much confidence in him that they never had experts examine his books.

## MANY EARTHQUAKE SHOCKS.

Southern California Shaken and the Inhabitants Frightened.

LOS ANGELES, Cal., April 11.—Since last Tuesday there have been forty or fifty earthquake shocks in Pico Canon, near New Hall. Pico Canon is in the San Fernando mountains and is the center of the oil regions.

Last Tuesday a severe earthquake, which was felt all over Southern California, shook the houses in Pico Canon very badly and frightened the inhabitants. Since then there have been several shocks every day, but these have been confined to an area in the mountains.

## TRAGEDY IN INDIANA.

John Moriarty's House Was Stoned and He Killed a Man.

ANDERSON, Ind., April 11.—John Moriarty shot and killed Cal Streets here yesterday afternoon. Sunday night Moriarty's house was stoned and the windows broken.

Yesterday afternoon Moriarty met Streets and said, "I'll teach you to stone my house" and shot Streets in the breast, killing him instantly. Moriarty was arrested and put in jail. He said he was mistaken in his man and had not intended to kill Streets, as the latter had done nothing.

## CROKER ON THE TURF

The Tammany Chieftain Has a String of Horses that Are Worth Nearly Half a Million.

His Advent as a Race Horse King Caused a Big Stir in the Turf World.

With One Bound He Has Reached the Top Notch in the Horse Owners' Aristocracy.

THE MIGHTY OF Richard Croker, the Tammany chieftain, as a race horse king, has caused a big stir in the turf world. Even had the step been anticipated, which it was not, such a lavish list of purchases would have attracted widespread attention. From politics to thoroughbreds is a wide step, but Mr. Croker seems to maintain both positions with equal ease. Whatever he may have done in politics, he has, in one bound, reached the top notch in the horse owners' aristocracy.

As a turfman Mr. Croker's bow was made with almost dramatic effect. Never in all their careers did Pierre Leveillé, August Belmont, General Hancock or Price McGrath make such extensive purchases of horses. Under the patronage of that modern plunger, Michael P. Dwyer, Chief Croker has within a few months paid out almost \$500,000 for thoroughbreds. His recent purchase of a half interest in the famous Belle Meade stud is unequalled in the history of the American turf. An outlay of \$250,000 in one lump undoubtedly shows the true sporting spirit. It almost reminds one of tales from the orient, or of a fancy from "Monte Cristo."

RICHARD CROKER.

Attention was first called to the new king of the turf at the Elmer sale, when Mr. Croker's agent bought for him Yorkville Belle for \$25,000, the highest price paid for a \$20,000 and fairly for \$25,000 mare. Since these purchases Mr. Croker has been through the southern and western states making lavish offers and frequent purchases. He offered \$50,000 for the great filly Helen Nichols, but the owner declined.

But the Belle Meade purchase will sell more of a host to Mr. Croker's record than anything else he may have done. Here, in the early history of American racing, were kept the famous imported stallions Eagle and Chester. The gray mare Gamma and Priam, who won the English Derby in 1859, helped make the lasting reputation of General Harlan, who founded the Belle Meade farm. After these came still other stallions, the names of whose offspring became household words throughout the country.

The great stud of recent date is credited with such winners as Huron, Tammany, Helen Nichols, Ted Banner, G. W. Johnson and others. There is no doubt that the Croker colors will be the fore this season.

"Victory of Literary Bretones." In the dramatic presentation of the "Fechem d'Islande" Loti has had two collaborators, three Republicans and one Populist, to assist in the text. Both are appropriately enough, Bretons par sang. M. Guy Repart has all the comparative mysticism of his race, to which he has given unusual expression in music. He is 25 years old and was a pupil of Cesar Franck. His "Paysages Bretons" is a remarkable composition. He has collaborated with M. Louis Tiercelin, the acknowledged victory of literary Bretons.

For 10 years he has been a high priest of the mystical dreamers of the land of Armor, and it is said that every sonnet now composed in the country.

M. LOUIS TIERCELIN.

posed in the west of France is dedicated to him. He has founded a school, in the direction of which he is assisted by M. Edouard Beaulieu. Every summer his disciples meet in the "Villa d'Azur," where the proceedings are said to rival the poetic tournaments of the Wagnerian Wartburg. Tiercelin is known to Parisian playgoers chiefly for his "Voyage de Noce," performed at the Odéon, and his "Rire de Molière," to which poor Jeanne Samary gave such a vogue at the Comédie Française.

## SPORTING NOTES.

The tributaries of the Tennessee river are said to furnish excellent trout fishing about this time of the year.

An active opponent of prizefighting in New Orleans is a young woman. Her name is Miss Farrell, and she is making it hot for the pugilists.

The old story about a pair of locked deer horns was recently revived by a party of hunters in Maine.

Fishermen who wish to preserve their

persive umbrage pots keep them in a cool place and varnish them once in two years. A recent law in California prohibits prize fights.

A coming fad in England is pneumatic walking shoes. New Jersey shore country sportsmen are stocking their locality with quail and hare. Eugene Carter, an expert billiard player from Cleveland, is now astonishing the Parisian cracks. He has defeated Vignaux and Piot.

New Jersey sportsmen complain that some of the town police who are entrusted with the enforcement of the game laws are ignorant of natural history.

Owing to Maine's strictly enforced game laws, deer, moose and caribou are said to be on the increase.

## SPOILING A PLAY.

A Case of Neglect That Had a Most Disastrous Result.

A number of London cockneys had formed themselves into an amateur theatrical association. Mistaking energy of purpose for histrionic ability—a fault not unknown to amateurs—they determined to undertake Shakespeare's tragedy of "King Richard III." The initial performance was to be given on the night of boxing day, the 26th of December, at one of the little suburbs of mighty London.

On the eventful night of the performance the actors, stimulated by the applause of the audience, which was of course composed chiefly of relatives and near friends, had lost much of the uneasiness attendant upon a first appearance. Already had they begun to give their individual parts a fuller rein. Much "business" which had not been tried at rehearsals was now attempted with impunity. All went well until the fourth scene of act 4, when Catesby rushes in to announce to the king the capture of Buckingham. Of course our actors used the interpolated version that puts into Richard's mouth the well known exclamation: "Off with his head! So much for Buckingham!"

But there was even a greater liberty taken with the text than our ambitious friends intended. As soon as Catesby had delivered himself of his lines, "My liege, the Duke of Buckingham is taken," etc., he paused to allow the king to make the usual exclamation. At each of these hearings the actor impersonating Richard had hardly given the messenger time to pronounce his lines before shrieking out his malice, which he considered one of the situations of the tragedy. But during the performance he had decided that it would be much more natural and impressive to stride up and down the stage a number of times, gnashing his teeth before delivering the lines in his most guttural tones, which were to pass for deep and concentrated hatred.

Unfortunately for the result, he had neglected to confide his change of idea to his fellow actor. Catesby waited without doubt seemed to him an age. But only after the cry of "King Richard III." had he decided to have upon Richard's capture seemed to have upon Richard was to make him take even longer strides than before and make an extremely unpleasant noise "gritting" his teeth. After venturing several interrogatory queries, which did not alter either the pace of the monarch or provoke any reply whatever, the unfortunate Catesby decided to save the day, which seemed to him on the verge of being lost, by a bold step.

Disregarding the monarch's frown, he began again in a clear voice, "My liege, the duke of Buckingham is taken," and concluded boldly, "and we've took off 'is head!" The effect was electric. There was no roar, but nature, in the burst of anger with which the enraged Richard, tearing off his crown and armor and hurling them at his unfortunate but well meaning support, screamed out: "You ave, 'ave you! Well, you've been an spoilt the whole blooming play!" The tragedy came to an untimely end.—Harper's Magazine.

A Negro Rapist in Kansas Saved From a Hanging.

SALINA, Kan., April 11.—John Hudson, the negro arrested for the assault upon Mrs. J. M. Frost, was taken from the jail by a mob last night and but for the interference of citizens would have been hanged. At present he is safe and protected by a committee of law-abiding citizens.

The mob organized and marched to the jail where a fight took place with the deputies. Several men were wounded by accidental shots and Policeman Myers was knocked down with a club. The guards made a strong resistance, but were overpowered.

## The Big Strike Ended.

CHICAGO, April 11.—All the men who were out on strike reported for work this morning, but a heavy rain rendered outdoor work impossible. A large force was put to work on the interior of the buildings and the work of clearing up the debris around the grounds went on. If the rain will cease by tomorrow morning, a much larger force than was ever put on will rush the work to completion.

## DEFENDS THE BOARD

President Henry Truelsen Answers Some of the Criticisms Recently Made by Alderman Cox.

He Appeared Before the Legislative Committee at St. Paul Because Requested to by City Attorney Smith.

Council Has Not Yet Provided For a Deputy City Clerk Because of a Salary Difference.

In a recent interview Alderman Cox stated that the board of public works amounted to nothing; that it costs the city about \$5000 annually and that no adequate returns for that expense are received; that all big assessments are made by those hired especially to do it and that all assessments made by the board have been overthrown in the courts, and that had not Mayor d'Auremont and President Truelsen gone to St. Paul and lobbied night and day to retain the board in the new charter, it would have been an unknown quantity to the decided advantage of the city.

Mr. Truelsen this morning said: "Any man who makes such a statement either does it willfully or is a fool. Some of these assessments can't or don't want to see the importance of the board of public works. As for Alderman Cox, if I were an old woman too, I could and would explain why he don't like the board, but I'm not. I went before the committee at St. Paul at the request of City Attorney Smith. The value of the board had not been fully presented. The committee called upon me and I stated that such a request placed me in a delicate position but that I would express my views if the members so desired. I say now what I said then, the board is a safeguard and saves the city much money. That was the extent of my lobbying. If it had been abolished, it would have been all right. The paltry sum I got out of it is no object. I would have been perfectly suited and it been done away with. I hold that the salary is too small, anyway. It should be \$2500, and \$3000 would not be too large."

"As to our assessments always being overthrown let us look at them. The assessments for the embankments and culverts on West Superior street down to Mr. Cox's neighborhood were declared illegal because of a mistake made solely and wholly by the council. So great was the rush to get the improvement that the matter was not referred to the board of public works for answers as the charter provides. It was shown by the opponents to be a material error. As to Piedmont avenue, all are posted as to the points connected with that improvement. I consider those statements of Cox as falsehoods."

### THE DEPUTY CLERKSHIP.

Some Difference of Opinion in the Council as to How He Shall be Paid.

City Clerk Richardson after the close of the council meeting last evening, expressed regret that action had not been taken on the appointment of a deputy city clerk. Alderman Cox, who is chairman of the committee on officers and officers stated this morning that undoubtedly the office of deputy clerk will be established as it is a necessity. When the clerk is sick or absent on business, at present there is no one who can legally perform certain clerical duties. That is a disadvantage and inconvenience to both the office and those who have occasion to transact business with it. The reason no action was taken last evening, was due to the inability of the members of the council to agree yesterday just as to how the deputy should be paid.

Mr. Richardson asks for his deputy a salary of \$100 per month. A part of the aldermen favor paying \$70 salary and allowing the clerk to pay as much more out of his fees. Others favor making the sum \$75, and possibly there are others who favor paying the full salary out of the city funds. Many, however, hold the opinion that as the office now pays the clerk about \$3000 per year and the revenue for fees is steadily increasing, at least half the deputy's salary should come out of the fees if a small fixed salary by the city is not sufficient or satisfactory. The matter will probably be arranged by the time of the next meeting, and it is also likely that Mr. Richardson's choice for deputy, Frank Austin, will be approved by the city fathers.

### Not Provided For.

The auditor of public accounts of the state of Illinois on Saturday refused to grant permission to do business in the state to the Northwestern Benevolent society of Duluth, because it issues certificates providing for sick benefits, for which class of insurance the laws of the state of Illinois does not provide.

## AN EXTRAORDINARY SNAP!

A Lot of Choice Property at a Sacrifice.

Desiring to do my share towards starting up the real estate business this spring, and desiring also, some ready cash, I have concluded to offer the following choice pieces of property for sale, all in one batch, and at such a low figure that the purchaser can double his money thereon, long before being called upon to make his last payments, viz.:

Lot 8, block 96, Endion.

Lot 9, block 96, Endion.

Lot 10, block 96, Endion.

Lots 154, 156 and 160, Lake Avenue, Upper Duluth.

Lots 47 and 51, Minnesota Avenue, Upper Duluth.

Lots 343, Lake Avenue, Lower Duluth.

Lots 243, 245, 258 and 260, Minnesota Avenue, Lower Duluth.

The ne. 1/4 of sec. 7, township 50, range 14.

The sw. 1/4 of sec. 22, township 51, range 14.

The se. 1/4 of sec. 31, township 51, range 15.

Lots 2, 18 and 19, block 9, Bay View Heights.

If you will turn to page Duluth Atlas, you will readily see that this is all very choice property.

These lands are more valuable than those in block 96, Endion, can be found in all Duluth. Let's

fronts on the Park and the entire west half of that block has been booked for condemnation for Park purposes, and at such a low figure that the value of the lot will be doubled when the electric line passes in front of lots 9 and 10 and they immediately west of the "Holloway drive" or "Pif-

teenth avenue east. Turn onto these lots and see what a magnificent and unsurpassed view you get.

The lots on Minnesota Point are all choice ones and some of them are "water lots"—about one-third of a mile long and 40 feet in width.

The three lots on Bay View Heights were selected a very few days after that plat was put on the market and they are three of the very handsomest lots in the whole division.

The 40 acres in section 23-14 is within a few rods of the proposed motor line to Rice Lake, and it is morally certain will be built before the end of the year.

The 40 acres in section 23-14 is inside of the city limits, lies very near the Highland Park electric line which is now headed for Pike Lake and, in a very short time, it will be in demand for

pleating into low acre tracts or regular city lots.

The 40 acres in section 31-15 lies on the southeast corner of Pike Lake, right in the heart of the best where the lots will have to be. The electric line will double each that beautiful lake in another year, when will certainly spring up there, one of the most fashionable suburbs in the city.

By figuring over this matter, you can satisfy yourself that, even in quiet times like these, this property is fully worth, as an investment, from \$3,000 to \$4,000, but I would like to go all in one lot, for just \$2,000, and not a dollar less, and I will make the terms of payment as favorable as any one can reasonably ask. I would only require one-fourth of the purchase price, cash down, and I desire to take the balance in from three to five equal annual payments—interest 7 per cent—and will stipulate that the notes may be paid at any time before maturity that the purchaser or should desire.

As this choice lot of property is offered at a price so far below its market value; as no other such a "snap" has been offered to the public during the last three years; as the terms of payment are so very easy, and as it can be handled with so small an amount of ready cash, it is incredible to suppose that it will remain unsold for very many days, and the first responsible man to come forward and plunk down his earnest money will get it.

### FILED WITH THE CLERK.

List of Legal Papers Left With the Clerk of the District Court.

Clerk Sinclair's office was as usual quite busy this morning and among a lot of filings of legal documents, etc., the following are selected as being of importance:

In the Crosby Park Land company's appeal, yesterday's annulling of the assessment was this morning stayed for twenty days by order of Judge Lewis.

A stipulation of admission in the part of the co-defendant, Mrs. Frankie A. Breeze, that she would admit the sale to her husband, Frank I. Breeze, of certain goods invoiced at \$2450.57, in the case of New Morse & Co. vs. Frank I. Breeze et al.

A stipulation allowing ten days for the amending of the complaint in Duncan McEneaney vs. W. H. Alden et al, and the case is continued until the June term of court.

Complaint in Missouri, Kansas and Texas Trust company vs. Nannie McLaughlin et al, alleging that the defendants owe a balance, to be determined by the courts, on a number of promissory notes, and asking for the foreclosure of a certain mortgage, etc.

Deposition of Judge Orona P. Stearns, taken in Los Angeles county, California, to be used in the case of Lewis Henry Hugh Clifford vs. Nellie McAdams and W. F. Marvin.

Proof of service upon the defendant, J. B. Jody, of the notice of the report of the commissioners in the application to condemn land for railroad purposes made by the Duluth & Iron Range Railroad company vs. Ed Lynch et al, also an affidavit that the amount of award was tendered to Myers.

Summons and complaint in J. B. Douglas vs. A. T. Nasone, alleging a debt due the plaintiff of \$232.63 for legal services rendered.

Schedule of assets and liabilities in the matter of Dodge & Co., insolvent debtors. The assets foot up \$21,807.94. The claims foot up \$13,840.31. Among the assets are book accounts estimated at \$1000; stock, \$35,126.69, and a number of other items.

An order for hearing of the American Mechanical Improvement company matter before Judge Lewis on May 6 instead of April 22.

A marriage license was issued to Sidney E. Blackwell and Indiana Dahl. First citizenship papers were issued to Fountain Smith, of England.

### Suffering from Pneumonia.

James Kellow, from Ely, who was indicted for grand larceny in the second degree and was to have been tried at this term of court, was examined by a physician this morning and was found to be suffering from acute pneumonia. Poor Superintendent Clark issued an order for his admission to St. Mary's hospital and he was taken there. His offense consisted in the stealing of a watch from a companion.

UNQUESTIONABLY we have the best stock of clothing ever within the walls of THE DULUTH. The greatest has been exercised in its manufacture. An evidence of its goodness and material cost is the growing increase of our business. Every day shows a new demand. We never sold as many Black Serge and Clay Suits as now.

The entire Black Goods department is filled with choice clothing. We sell a good Black Suit for \$12 and on up to \$25. We say a good Black Suit. What we mean is—to take back the Suit if it isn't satisfactory. Makes no difference as to price.

The last few days we've had an enormous run on Lightweight Overcoats and New Spring Suits. Great quantities sold every day.

## Keep in Mind!

### For \$22

You may buy a Superior Spring Overcoat and Spring Suit. Don't misunderstand—you get both Suit and Overcoat. Don't think they cannot be good. You'll have the laugh on the man that pays his tailor \$40 for each. You can afford it with the difference in cost in your pocket.

WE EMPHASIZE—Never in the history of clothes-selling have we given so much value for the same amount of money.

## SWEPT BY STORM

Iowa, Nebraska, Illinois, Kansas and Missouri Visited By a Very Destructive Storm Last Night.

The Devastation Widespread But Its Full Extent Not Known Owing to Interrupted Telegraphic Service.

A Cloud Burst Occurred at Centralia, Ill., And the Entire Town Was Submerged By It.

Akron, Ia., Nearly Wiped Out of Existence and Many Other Places Were Badly Damaged.

CHICAGO, April 12.—Last night's storm wrought such havoc with the telegraph wires that it is almost impossible to obtain facts of damage done in the South, where the destruction seems to have been general and widespread. The states of Iowa, Nebraska, Kansas and Missouri suffered. The greatest damage was done in Iowa, although the reports from Nebraska indicate that when full particulars have been received that state will lead in loss of property and human life.

Along the line of the Chicago, Milwaukee & St. Paul railroad in Nebraska, the storm cut a wide swath. The town of Akron, in the former state, was wrecked, and Westfield, a few miles distant, was badly demoralized. Menger reports from localities in the interior show that the devastation was widespread, although its full extent will not be known for several days, owing to the lack of telegraphic facilities and the washing out of the country roads, rendering communication difficult and in many cases impossible.

Continuing along the railroad into Nebraska, the storm swept up farm buildings, fences and bridges and finally swooped down on the town of Page, which it wrecked. At this point, the first loss of life was reported, Mrs. Clara Mage being the victim. Her two children were dangerously injured, and several other persons were hurt. The storm traveled with great velocity, covering the 200 miles between Akron and Page in an hour and a half.

Damage was done farther west, but owing to the complete prostration of telegraphic service it is impossible to get facts. The pour of rain added greatly to the discomfort of those who were rendered homeless, and the situation in Page is described as being distressing. The streets are filled with debris of all kinds, and the water has made progress in every direction almost impossible.

From Kansas the news is still meager. It is known that the town of Parker on the Missouri & Texas road was struck by a cyclone and the residence portion of the village was almost completely destroyed. Several persons are reported killed and a number seriously hurt. The towns of Willis and Howe, a short distance south of Hays, are also said to have been wiped out. Nothing authentic can be learned.

The storm swept over the town of Walnut causing great damage and then swept off northward into Missouri. In the latter state the towns of Maywood, Page City and Higginsville were wrecked, and along the route, houses were blown down, outhouses and fences destroyed and cattle killed. At Page City, William Walker and his two children were killed. At Stansbury, a number of houses were destroyed, and William Warren (colored) was killed and his wife fatally injured.

Kansas City was visited less severely, but thousands of windows were broken by hail, and cellars on the flats were flooded. The storm extended to St. Louis also, and played havoc with steamboats lying at the wharves. The steamer Dr. H. Pick, with five men on board, was blown adrift and has not since been heard of. The boat City of St. Louis, with several men on board, is also missing. Two wharf boats anchored close by met a similar fate, but it is believed that no one was aboard of them.

Throughout the city, the wind caused general destruction. A new building on North Broadway was completely wrecked, causing a loss of \$50,000. Several persons are reported seriously injured. The storm seems to have been general throughout the South and West, extending north into the Dakotas. In Illinois, cloud bursts occurred at various places, the most destructive being at Centralia, where the water rose to a height of three feet in the streets.

At Springfield, the street cars were compelled to suspend operations and other damage is reported. The entire country south of Springfield to East St. Louis is flooded. Whole sections of telegraph lines are down and the wires are in a tangle.

CLOUD BURST AT CENTRALIA.  
The Entire City Submerged and Much Damage Done.

CENTRALIA, Ill., April 12.—A cloud burst in this city this morning caused the entire city to be submerged and did thousands of dollars of damage. A little river winds through the thickly settled part of the city, along which are a number of cottages with basements, all of which were flooded and the contents totally ruined.

MUCH LIKE A TORNADO.  
The Wind Blow and Rain Poured at St. Louis With Great Violence.

ST. LOUIS, April 12.—St. Louis was visited by a terrific cloud burst last night, which was accompanied by a wind of the proportions of a tornado. The Illinois River and the Cherokee, wharf boats, and the steamers D. H. Pike and City of St. Louis were blown from their

moorings and drifted down the Mississippi. The storm subsided to some extent at midnight, but lightning was still vividly playing and the heavy rain continued after nearly six hours of interrupted downfall. It is impossible to accurately estimate the damage already done, as telephone communication is entirely cut off and reports are extremely meager. So far as can be learned, the deluge has been attended with no casualties. Wires are down in all directions, so that the city is practically cut off from the outside world. Reports are coming in slowly of heavy damage in all parts of the city.

In Carondeau great damage has been done. It is feared that many persons have been injured in the suburbs.

### REDUCED TO RUINS.

An Iowa Town Struck by a Cyclone and Many Buildings Wrecked.

SIoux CITY, Ia., April 12.—Northern Iowa was visited by a fearful cyclone between 3 and 5 o'clock yesterday afternoon. Great damage was done at Akron in Plymouth county. The sky became dark about 3 o'clock so that the lamps had to be lighted. The storm came down very suddenly from the northeast and in a few minutes Akron was almost in ruins.

The storm covered a wide path. The iron bridge across the Sioux river was torn to pieces, and the iron trusses being twisted and broken. Houses were unroofed or carried from their foundations and destroyed. The great grain elevator was torn to pieces and the whirlwind carried its debris across the street, depositing it where a lumber yard had been.

A good part of the lumber yard was deposited where the elevator had been. Several cars loaded with stone, standing on a side track, were picked up and carried several rods. Several store buildings were partially wrecked and unroofed. Akron has about 800 people.

The latest advices from Akron are that the loss to private property in that city will be \$50,000. The loss in the country will probably far exceed that amount.

### EARTHQUAKE AT CINCINNATI.

Two Distinct Shocks Alarmed the People This Morning.

CINCINNATI, April 12.—A terrific gale swept over this city between 3 and 4 o'clock this morning. The signal station reported the velocity of wind at 72 miles per hour. From a dozen different sources came reports of an earthquake having been perceptibly felt during the night.

In the big Spencer house building, between Broadway and Public Landing, especially on the upper floors, the shock caused great alarm. Many persons were awakened from sound sleep to hear distant rumbling noise like that made by a heavy train of railroad cars in motion.

In the Henrietta building on West Fourth street, the inmates were greatly alarmed by the rattling of the chandeliers and clanking of gas. Two distinct shocks were felt about fifteen minutes apart.

### TARRED AND FEATHERED

A Railroad Fireman Who Tried to Assault a Girl in Redwood County Severely Punished.

REDWOOD FALLS, Minn., April 12.—A special is received from Morton, this county, to the effect that a mob of twenty or thirty men, disguised as White Caps, dragged a man from his bed in that town early yesterday morning, and taking him to a secluded spot tarred and feathered him, and then to complete their work rode him on a rail and strung him up to a tree.

The man, who is a fireman on the Minneapolis & St. Louis railroad, was in a frightful condition when rescued. The cause of all the trouble is said to be that the man refused to let the firemen take one of the girls employed in the Morton eating house out to a secluded spot and attempted to ravish her.

When she returned and told her story a mob of indignant citizens was formed and the fireman dragged from his bed as stated. The report says that the condition of the man is critical and it is possible that the Redwood county grand jury now in session will take up the matter.

### AN EXAMINER IS SENT.

Secretary Smith Has Dispatched an Inspector to Minnesota to Investigate the Pine Land Frauds.

WASHINGTON, April 12.—[Special to The Herald.]—Secretary Smith has made his first move to check alleged timber depredations on the Red Lake Indian reservation and in other pine forest sections of Northern Minnesota. He has sent a trusted examiner or inspector to that section pending this examiner's report no more timber will be cut by contractors or anyone else, by consent of the interior department.

Mr. Smith is in earnest now in trying to prevent fraud, and will first get substantial information before charging any man, or set of men, with wrongdoing. He does not propose, it is said, to allow any political workers to use this business as a basis for future political schemes.

A full and fair investigation into the alleged thefts is all he has after. If one is found guilty, prosecutions will follow, and innocent parties, who have conducted legitimate work, will be fully exonerated.

### Extra Time For Carriers.

WASHINGTON, April 12.—Secretary Bissell has prepared a circular letter for distribution to the various postmasters of free delivery cities, containing the official announcement of the recent decision of the supreme court reversing the decision of the court of claims upon the operation of the eight hour law pertaining to the employment of the letter carriers. The circular is understood to contain specific instructions to postmasters regarding letter carriers, that in cases where it is necessary for them to put in extra time they shall be paid accordingly.

## WILL BOOM THE SOUTH

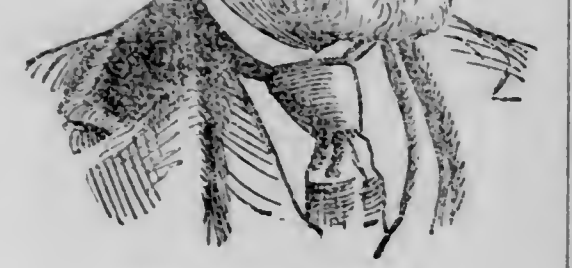

Southern Governors Are Gathering at Old Richmond to Hold a Convention For Mutual Interest.

The Object Is to Call Attention of World's Fair Visitors to the South's Advantages.

The South Wants Immigrants to Help in the Development of the States' Natural Resources.

RICHMOND, Va., April 12.—Mayor Ellyson, in connection with the reception committee from the chamber of commerce, is making every possible arrangement for the pleasant entertainment of the Southern governors and others, who are to meet in convention here. So far as earned there will be about thirty of the distinguished visitors in this city. The full program of entertainments has not yet been completed, but it is safe to say that old Virginia will keep up her reputation for hospitality.

The call for the convention, which was issued by Governor Fishback, of Arkansas, has been very fully responded to. Not only have the Southern governors been invited, but also the state geologists, presidents of state fairs and horticultural associations, as well as superintendents of immigration.

GOVERNOR FISHBACK.

All of the Southern governors will be here, with the exception of a few whose legislatures are in session.

The convention will meet, as Governor Fishback states, "to call the attention of the vast tide of investors and immigrants who will follow in the wake of the Columbian exposition, to the magnificent inducements of the South."

Governor McKinney, in his general invitation, expressed the hope that they "may be able to induce good citizens to immigrate South, bringing with them their families and their fortunes, and thus help them to develop their natural resources, and to add them in building up the waste places which war has left."

The convention will be held in the famous old state house which once served the Confederacy for a capitol.

Time was when the South did not invite immigration, encourage manufacturing, nor have much to say of her natural resources, other than cotton and negroes. In 1848 the legislature of South Carolina refused to amend a charter of a cotton factory company at Graniteville to enable an increase of capital for enlarging the mills. The legislators said that this enlargement would necessitate the importation of the state of Yankee operatives whose abolition sentiments would contaminate the slaves. Governor McKinney's call for the governors' convention has a different sound.

The occasion will afford a signal opportunity for exploiting the inducement of climate, soil, mineral wealth, and facilities for profitable manufacturing which the South holds out to immigration and capital. A story of marked development of industries and public schools within two decades in several of them can be told. What methods will be adopted by the convention to attract the attention of the outside world remains to be seen in the report of its proceedings, which can not be outlined in advance.

The selection of Richmond for the place of meeting was for the reason that, having been the capital of the Southern Confederacy, it was more closely identified with all the Southern states than any other Southern city.

**THE REQUEST REFUSED.**  
President Cleveland Declined to Antedate a Lieutenant's Commission.

BALTIMORE, April 12.—The Washington correspondent of the Sun telegraphs his paper as follows: President Cleveland, in dealing with army appointments, will have in mind the greatest good for the greatest number.

An illustration of his policy was brought to light in his recent dealing with the case of a young lieutenant, who applied to have his commission antedated so that he might be placed on the same footing with members of his class who ranked him many numbers on the line, by the reason of the young officer having failed to graduate until two months after his classmates were appointed second lieutenants.

The case was that of a cadet in the class of '91 who, being proficient in all his studies except Spanish, failed to make the required percentage in the branch, but upon the recommendations of the board of visitors and the academic board he was given two months to make up the proficiency.

At the end of this time he passed his examinations successfully and was commissioned, but as there were unusual number of vacancies in all branches of the service that year, a number of appointments were made from the ranks and civil life between the date of the commission of the rest of his class and his own, which placed him at the disadvantage of being placed at the foot of the list of about thirty others.

A bill was passed by congress authorizing the president to antedate his commission, but when the young officer's congressman called upon the president the other day in behalf of his appointment to that academy, the president positively declined to accede to his request. "I would like to oblige you," he is stated to have said to the congressman, "but I appreciate that over thirty other young officers would suffer by my act in promotion, and for this reason I cannot make the nomination."

**TO THE COLUMBIAN FAIR.**  
The Arrangement for the President's Trip Being Made.

WASHINGTON, April 12.—The arrangements for the trip of President Cleveland to Chicago to take part in the exercises attending the opening of the Columbian exposition on May 1 will be completed in a day or two. So far as the arrangements now extend, they provide for a quick trip on a special train on the Pennsylvania route.

The day and hour of departure from Washington and Chicago have not been definitely determined, but in order to suit Mr. Cleveland's wishes, it is probable the train will leave Washington on April 30 and start on its homeward trip from Chicago the evening of May 1.

The train was tendered by the World's fair commissioners. It will be elegantly fitted up for the distinguished party. All the members of the cabinet have expressed a desire to accompany the president, and they will probably carry out their intention.

Mr. Cleveland will not, as stated, attend the opening ceremonies, but will press a button at the White House that will turn motion metal at Chicago into the sound of a memorial bell to be used by the society of Daughters of American Revolution. It is expected, however, that several of the cabinet ladies will accompany the presidential party to Chicago.

**THE BERING SEA PATROL.**  
The American Fleet for the Alaskan Waters This Summer.

WASHINGTON, April 12.—Secretary Herbert has decided upon the detail of the Bering sea patrol this season. The fleet that will look after American interests in Alaskan waters this summer will consist of seven vessels, the same number as last season and they will leave San Francisco soon after May 15.

The flag ship of the squadron will be the Mohican, Admiral Scretter's flagship at Honolulu, which will be brought home in a few weeks and fitted out for her cruise. The Petrel on the Asiatic sea is ordered to proceed direct to Alaska, and the Adams at San Francisco will be sent to relieve the Mohican. Admiral Scretter then transferring his flag to either her or the Boston.

The fleet will thus consist of the Mohican, Petrel, probably the Alliance or Alert, the fish commission steamer Albatross and the revenue cutters Rush, Bear and Corwin. The three latter vessels will be commanded respectively by Captains Hooper, Hickey and Munger. They are ready for service and can sail on a week's notice. The senior officers in command of the naval ships will be in charge of the fleet.

**Killed By Earthquake.**  
New York, April 12.—A special to the Evening Post from Vienna says: Serbia suffered the most from yesterday's earthquakes, but the loss of life appeared small. The villages in the province of Scutari were destroyed. The chief judge was killed at Jagodina by his house collapsing. It is believed that these earthquakes are a continuation of the recent earthquake in Asia, which was negatively reported.

**Fred May Surrendered.**  
New York, April 12.—Fred May, who has been in exile for some years in South America, yesterday walked into the district attorney's office, prepared to give himself up to answer an indictment against him for assault on a policeman. After his indictment for the offense, May jumped his bail. Yesterday he came prepared with new bail and attended by Lawyer Desposes.

**The 'His' of Fruit Culture.**  
The treacherous Northern climate makes profitable fruit growing well nigh impossible.

Down in North Galveston, Tex., all is different. The risks are removed. Crops were never known to fail. Pear trees, etc., grow from cuttings just as willows and cottonwoods do up North and the fertile spot yields crops one after another, the year round.

Splendid inducements are offered to investors and settlers. For particulars apply to Holbrook & Youngblood, No. 327 West Superior street, the North Galveston association's local agent. The address of the general office is Box 963, Minneapolis, Minn.

## TALKING OF REMOVAL.

Will Register Nichols and Receiver Frazer Be Permitted to Serve Out Their Full Terms?

Maj. Baldwin Insists That His Recommendations For Their Successors Be Followed By The Department.

Secretary Hoke Smith Has Directed That the Pine Land Frauds Be Inquired Into Soon.

WASHINGTON, April 12.—[Special to The Herald.]—Rumors are being continually circulated in Washington that a movement is on foot to secure the removal of Monroe Nichols and S. L. Frazer, register and receiver respectively of the Duluth land office, before their terms have expired. By some it is claimed that it will hardly be necessary for the Democrats to file any charges against Nichols, at any rate, for the men who know some of the charges already made against him by the Republicans, believe that when investigated by Secretary Hoke Smith, Nichols' removal is sure to follow.

Representative Baldwin does not appear to be making any determined effort to secure a change in the Duluth land office, though if he were he would probably be very careful to prevent any intimation of leaking out through newspaper channels. Maj. Baldwin talks plainly, however, when asked about the probable selection for register and receiver at both the Duluth and St. Cloud offices. He insists that the recommendations he has made for register and receiver at Duluth should be followed by the department, because these recommendations are from straight Democratic sources, while the indictments of the other candidates are from Democrats outside the Sixth district, and from Populists as well as Republicans.

In reference to the St. Cloud office, Maj. Baldwin will demand that the men who settle their fight at home and not shoulder it upon him at this end of the line. By this, he means that some agreement should be reached between the Democrats of that section as to who should have the registerships and receiverships of that office. Maj. Baldwin's mail continues to increase every day and the greater part of his correspondence are, of course, men who desire some kind of an office within the confines of the major's district.

He unintentionally put himself to a great deal of trouble by giving out to a newspaper man a few days ago a list of recommendations he had made for post-offices and other positions in his district. As soon as they were published in Minnesota, his constituents, who before had probably never thought of getting him some sort of a position. A week later Maj. Baldwin's mail was in the hands of an average of one hundred letters daily.

The major is now of the opinion that hereafter he will be very guarded in giving out information of this kind that is apt to get into print. It simply doubled his labors. The postoffice department has not begun to fill many fourth class offices in the Sixth district, but within a few days it is probable that Mr. Maxwell's ax will begin to swing in this section of the country and it will take him but a short time, it is believed, to oust the present Republican incumbents and put Democrats in their places.

Thomas J. Monahan has filed his application, accompanied by strong recommendations for the position of collector of customs at Duluth.

In the timber depletion cases called to his attention by Maj. Baldwin, Secretary Hoke Smith yesterday announced that the whole matter had been referred to the commissioner of the general land office for investigation. There is a general opinion that Judge Lamoreaux, who is known as Senator Villet's man, will not be very severe on the men who stole timber from either the Indians or the government, and in order to slow the interior means business, Secretary Smith said that he would consider the evidence with the commissioner when it was obtained. The investigation will be made in May.

**A CHEMICAL PULP MILL.**  
A Sulphite Fiber Plant to be Located at Niagara Falls.

NEW YORK, April 12.—The Sun's special from Niagara Falls says: The Niagara Falls Paper company, in which Lewis A. Hall, of New York, and other capitalists are interested has decided to add a complete sulphite fiber plant to its big pulp and paper mills.

The capacity of this new plant will be twenty tons of chemical pulp a day and its cost between \$175,000 and \$200,000. It will require six or seven brick buildings to provide for the machinery and process necessary to turn wood into pulp by chemical means.

The mill, it is calculated, will use up 12,000 cords of wood a year, and will be one of the largest individual chemical pulp mills in the country.

## ANARCHISTS ON TRIAL.

Charged With Causing the Cafe Very Explosion in Paris.

PARIS, April 12.—The trial of Pierre Jean Francois and two other anarchists named Bricon and Delange on the charge of having been concerned in the explosion in the Cafe Very in Paris, on May 23 last, began yesterday.

The anarchist Ravachol had been arrested in the cafe, having been pointed out to officers of the law by M. Very, the keeper of the restaurant, and the anarchists had sworn to avenge what they considered the betrayal of their chief. On May 23 a bomb was exploded in the place, causing great damage to the restaurant and horribly wounding Very, who subsequently died.

The French authorities traced the crime, as alleged, to Francois and others. Francois was arrested in October last in London on the charge of having been a party to the outrage. He resisted extradition, but was finally delivered up to the French authorities.

## THEY KILLED THEIR FATHER.

Thomas Morgan and His Three Sisters Are Now in Prison.

PITTSBURGH, Pa., April 12.—Thomas Morgan and his three sisters Jennie, Rebecca and Caroline entered the Western penitentiary yesterday. They are to serve long sentences for the murder of their father, John Morgan, near Waynesburg, Green county, last August.

John Morgan was a prosperous farmer who owned about 800000 acres of land, ranging from 17 years to 28 years, lived with his father and were popular in the neighborhood. John Morgan installed a strange woman as housekeeper who was objectionable to the children.

The old gentleman was deaf to their entreaties, and frequent quarrels occurred, finally resulting in a terrible tragedy. The father was driven from his house to an outbuilding and shot by his son Thomas. During the fight, Thomas was severely injured, but his sister Caroline, ranging from 17 years to 28 years, lived with his father and were popular in the neighborhood. ## WAS A WELCOME RAIN.

Last Night's Storm May Hasten the Opening of Navigation Possibly a Full Week.

List of Masters, Mates and Engineers Who Will Sail on the Steel Barge Company's Fleet.

Tugs Will Commence Breaking the Ice in the Harbor in a Few Days—Harbor News.

The rain storm of last night and today, if followed by fairly warm weather will knock at least a week off from the delayed opening of navigation. It begins to look as if Capt. Inman's belief that the first boat may show up here not far from May 1, will be verified. The rain has had the effect of stirring up vessel men and hastening the fitting out of the boats for the season's work. Tugs will commence breaking the ice in the harbor within a few days.

### APPOINTMENTS MADE.

Masters, Mates and Engineers of the Steel Barge Company's Fleet.

The following is the complete list of American Steel Barge company's appointments of masters, mates and engineers for steam vessels and masters for barges, etc.

Steamer Colgate Hoyt—Captain, W. H. Kilby; mate, G. W. McCallum; chief engineer, Gilbert Newton.

### Nautical Nubius.

The Clyde Iron works cast a Webster design wheel today for the Cranberry Lumber company's tug Bennett. It is a spare wheel similar to the one now in use, which has given such excellent satisfaction.

The fire tug Effie L. and Buffalo, of the Inman line, are in commission and will break the ice around the dock front in a day or two. The tug Dudley will follow suit a day or two later.

Capt. McPherson, who at one time commanded the steamer Ossage, previous to Capt. Washington Harrow, has been appointed as mate on the Christopher Columbus.

Machinists are busy at work on the S. F. Dodge, the City of Duluth and the Jas. Fish, Jr.

Capt. Alexander McDougall was in Tacoma this morning and arrived in Everett this afternoon, where he is inspecting the passenger and freight steamer Everett, now building at the Everett shipyard.

The schooner Glad Tidings, Commodore Inman's vessel, which went on the beach inside the Cleveland breakwater last fall, has been placed on the dry dock at Cleveland. She will be towed up here by the tug Bob Anderson as soon as the ice will permit, and has a busy general season's work marked out for her.

The David Sutton, of the Inman fleet, will go down to the lower lakes soon after the opening. She has been sold to other parties.

### The Whalebacks.

The whaleback fleet leaving here at the opening of navigation will consist of four steamers and eight tug barges, as follows: J. B. Colgate, Thomas Wilson, A. D. Thompson, Colgate Hoyt, 101, 103, 115, 118, 126, 129, 130, 131. The capacity of the fleet is a little over 1,000,000 bushels.

### A Fatal Explosion.

A Biwabik dispatch says that while drilling in an old hole in the rock cut of the Duluth & Iron Range railroad's new branch, near Merritt, an explosion occurred, killing John Smith, dangerously wounding John Lilborek, and mangle Mike Lukage's arm, necessitating amputation.

### The Skill and Knowledge.

Essential to the production of the most perfect and popular laxative remedy known, have enabled the California Fig Syrup company to achieve a great success in the reputation of its remedy, Syrup of Figs, as it is conceded to be the universal laxative. For sale by all druggists.

## AMUSEMENTS.

**Mozart Symphony Club.**  
The Mozart Symphony club which will be heard at the Temple on Thursday evening is composed of great musical artists. One of the leading, Mario Blodeck, who plays the violin and viola da Gamba. Mr. Blodeck stands pre-eminent among the greatest virtuosi of today with his two pleasing instruments. He was the ablest graduate of, and was awarded the first prize at the Conservatory in Prague. After his graduation he became a member of the Vienna Royal Operatic orchestra. He gained unbounded prominence and artistic success during his concert tour through Austria, Hungary, Russia, Norway and Sweden. Later, Mr. Blodeck accompanied Ole Bull on an extended tour through his fatherland. Mr. Blodeck is not only one of the most perfect violoncello players, but is also one of the few performers on the viola da Gamba, and the first one who introduced this instrument in America.

**Clarence Eddy.**  
Clarence Eddy, the Chicago organist, will give a recital in the First Methodist church on Tuesday next. The Chicago Times has said of him: "Mr. Clarence Eddy has been recently giving organ concerts in several of the larger cities of Ohio, Iowa and other states, being greeted everywhere with crowded houses, and the expression, by press and public, that his playing has been a revelation." No doubt they were ignorant of the organ's possibilities before hearing him. Players such as he, in all points of knowledge and technical capacity are not heard more than once in a generation."

**A Benefit Concert.**  
A concert and juvenile comedy will be given on Sunday evening next at the Masonic hall for the benefit of the Christian Trautvetter by the Concordia Singing society assisted by Hoare's full orchestra and professor Gerard Tonnig. An afterpiece entitled "The Secret Cabinet" will be given by juveniles.

**The Lachmund Musical.**  
The "welcome home" musicale given to Prof. Lachmund by his pupils at the Masonic Temple rooms last evening was well attended in spite of the bad weather. Theodore Lammers sang several solos and Prof. Lachmund and Mrs. Schmidt also gave numbers. Prof. Rudolph recited a humorous selection and the pupils contributed several piano numbers.

### THE MUNICIPAL COURT.

A Number of Drunks Receive Justice at the Hands of Judge Powell.

Every now in the municipal temple of justice this morning when Judge Powell, proxy for the blind goddess, took his seat on the bench. John McRoe, Nels Olsen, M. S. McCormick, a plumber, and Hugh McTavish, a woodman, each paid a fine of \$10 and costs for drunkenness.

W. A. Daugherty, James McIntyre and John Johnson all owned up to the charge of cultivating the acquaintance of the flowing bowl, even unto intoxication, and went to the county jail for ten days in default of cash to pay their fines.

Charles Johnson is a resident of Crookwell. Six weeks ago she came to Duluth for medical attendance which she evidently badly needs. Last night, while in the city, she was taken by some friends, she drank too much beer.

She was arrested, held until this morning, when, upon representations of the police, Judge Powell suspended sentence upon the understanding that she proceed to take her medical treatment. John Colburn and John O'Brien applied for lodging at the police station last night. This morning the charge of drunkenness was put against them.

The jury heard that they had been drinking a little but did not think they were drunk. Upon promise that they would return to their work up on the Mesaba road sentence was suspended.

Charles Johnson, a Swede with a cross grained head of hair and a blonde goatee, was arraigned on the charge of assault and battery upon the person of Maggie Johnson, the wife of his bossman. A plea of not guilty was entered and the case set for trial this afternoon.

### Michigan Capital Interlocked.

H. A. Kimball and W. B. Tubbs, lumbermen of Alpena, Mich., were in Elly last week, and will become associated with the Blake Lumber company of that city. They spent the week looking over several tracts of timber and the field generally, and expressed themselves as pleased with the outlook. The mill will have a 60,000 feet daily capacity and will be erected at once on the south shore of Sagawake lake north of the Zenith mine.

### Miss Mackey Selected.

Miss Helen Mackey, of Duluth, has been selected to be one of the orchestra of harpists being formed to play at the World's fair, by Mne. Chatterton, the distinguished harpist, who will be remembered as appearing in Duluth last fall. As this orchestra is to consist of only thirty harps and the performers are selected from all over the country, Miss Mackey has great reason to feel gratified at her selection.

### Steam Pipe Buried.

An elbow on a portion of the steam heating pipe at the St. Louis hotel blew out last night about 6 o'clock. The lower part of the house filled with smoke and steam at once and almost created a panic. The fire department was called out, but was not needed. The trouble lasted only a short time and the pipe was quickly repaired.

### TAXATION OF IRON ORE.

The House Committee Believes the Tax Should Not be Increased.

The St. Paul Globe representative who accompanied the legislators on their trip to the Mesaba range last Sunday discusses the question of increasing the tax on the output of iron ore. On the ore on the Mesaba range he is of opinion that it is not necessary to increase the tax. As a general proposition, too, in many cases the ore can be reached very readily and quickly transported to the manufacturing labor and large expense will be necessary. But outside of the facts, the initial expenditure of money—before the companies can cover a dollar into their treasuries—has been and must be large. At the mines visited by the legislative committee much work had been done and a great deal of money expended. There was little to show for the expense incurred, so far as inexperienced eyes could judge. Pits had been sunk here and there, "stripping" was done in patches, camp shanties erected, etc., but there was no impressive indication that even the preliminary work was in any sense complete.

What will be the wisest course for the state to adopt? Here's the way Duluth men lay the ground for reasoning on that point: It is a general proposition that the Mesaba range properties are rich in ore deposits; that the element of uncertainty is now practically eliminated from the problem of mining the ore as it rests in the ground; that the newly opened region is capable of putting forth vast quantities of raw material every year; that the quality of the ore is such as to secure a high price in the market; that the finished product to be manufactured from Mesaba ores is certain to compare favorably with any like product in the land; that the growing requirements of traffic and commerce in the Northwest will, to a large extent, use up this product as it is sent forth from the mills and factories.

The Gogebic and other iron ranges of Michigan at present have a large percentage of advantage in freight charges by rail and water. Coal, a large and important factor in such a business, is cheaper and more quickly available at the Mesaba mines than at the Michigan mines. A state tax is levied on the gross value of the property. As is well known this means the most liberal kind of treatment for the mining industry of that state.

In Minnesota it was thought wise to elap a heavy penalty as soon as it was reasonably sure that ore was to be found in paying quantities; and there is now pending a bill to increase the tax on the ore. The tax on the ore is now \$1.00 per ton. The Mesaba range must be secured from Eastern capitalists. To them an unsettled question of taxation is a bogie of the regular investor. The tax on the ore is to become oppressive at any time they likewise view with sour glances. These peculiarities of financiers have been and must be faced by the state. They are endeavoring to open up what will undoubtedly be the richest region of the state within a decade.

These facts, the mine owners and stockholders argue earnestly that this promising industry—which is as yet an infant in reality—should not be strangled in its cradle or hampered in its growth. This view coincides with the opinion of the legislative committee, as generally expressed after personal study and observation. Senator Leavitt's bill will not pass the house.

### THE DISTRICT COURT.

Verdict Against the City of Duluth This Morning—Criminal Cases On.

Before Judge Lewis in Room 2 of the district court the case of Levi J. Hill vs. the City of Duluth was given to the jury who were deliberating on their verdict until noon when they returned a verdict for the plaintiff for \$719.30. A stay of the execution of the verdict was granted.

The criminal calendar was then taken up and Wm. Smith withdrew his plea of not guilty to robbery in the first degree and pleaded guilty to robbery in the second degree. The case of the state of Minnesota vs. Lewis Marsh, charged with robbery in the first degree, was next taken up and the selection of the jury resulted as follows: J. M. McKinley, E. Devine, W. R. Peyton, George McCarthy, C. L. Eaton, E. A. Houghton, M. A. Shryer, G. F. Leand, James Brown, Th. Frepling, T. O. Hall and Hans Gronseth.

Before Judge Ensign in Room 1 the Stevenson damage saw mill case is still on trial.

### The Competitive Examination.

The competitive examination for admission to the military academy at West Point will be held at the Central High school next Monday morning at 9 o'clock. ## WENT THROUGH THE ICE.

John Nowak Drowned Yesterday Afternoon Between the Points.

John Nowak, a Poland, broke through the ice while crossing between Rice's and Connor's Points about 5 o'clock yesterday afternoon. He was returning to Superior with Anton Kubicki from Duluth. The ice, which had become soft, broke and both went through. Kubicki managed to save himself by catching the edge of the ice, but his companion was not so lucky and went to the bottom. Nowak has been about the head of the lake for two years working at odd jobs. He had been working on one of the pile drivers on the dock of the Missabe & Northern, but yesterday he did not work, not feeling well, but went over in the afternoon for his pay.

## AN INDIAN LETTER.

Methods of Communication Among the Indians.

The picturesque of eloquence—Thompson's Express in Silence—How Indian History is Preserved—Letter from an Indian about Kickapoo Indian Sagwa.

The sign language of the Indians is a wonderful thing. Two Indians differ in their speech as a German and a Spaniard would differ in their speech. It is the picturesque of eloquence to watch an Indian speaking a word, making his meaning clear to all present by signs. He is not only a good speaker, but a good writer. His communications are made by pictures. The family history of the tribe is written on a tablet. The following is a specimen of this method of communication.

"The letter" was written by KICKAPOO INDIAN SAGWA, a Kickapoo Indian Medicine Man.

The above letter translates as follows: "The Indians differ in their speech as the sun, the stars, and the rain (nature). If the white brother is sick, this will make him stronger than the hawk who will not before him."

"SAGWA" is a medicine word meaning good or best, and signifies "best medicine."

Here is the picture of the Kickapoo Indian Sagwa, a medicine man, and his sign language.

Catlin, the highest authority on the Indians, says that the Indians are not only good speakers, but good writers. Here is proof of the genuine value of Kickapoo Indian Sagwa.

The following is from the Professor of Zoology, University of Chicago, and his scientific sagwa.

I find it to be an Extract of Roots, Herbs and Valuable Remedial Action with no Mineral or other Deleterious Ingredients.

Heed the teachings of these letters. "The Indians differ in their speech as the sun, the stars, and the rain (nature). If the white brother is sick, this will make him stronger than the hawk who will not before him."

## SAVE MONEY!

Until May 1 You Can Take Advantage of an Offer So Liberal That People

WONDER HOW IT CAN BE MADE

Catarrah and All Kindred Diseases Treated Until Cured for \$5 a Month. All Medicines Free.

"Well, doctor, I have come back, and I must confess your words came true, but I thought I was all right and needed no more assistance, and I felt that I could save my time and be relieved from the trouble of taking medicine. I see now that I was feeling well because of the approach of summer and the good effect worked upon me by the bland, wholesome air of the season; but I have not improved as I thought I would, and I feel that I am going backward, and inasmuch as the predictions that you made have come true, I have concluded to come to you and act upon your advice."

The above statement is only one of many made to the physicians of the Copeland Medical Institute daily at this season of the year by patients who have neglected their advice to take a thorough, systematic course of treatment for their catarrhal troubles. Many patients, because of the quick results obtained by the system of treatment, imagine that they are entirely well, and that further treatment is unnecessary. The physicians of the Copeland Medical Institute have repeatedly in these columns, and also in the consultation room, urged the necessity for continuous and systematic treatment in all chronic troubles, more particularly those of a catarrhal nature. Catarrh is always good, no matter how long it has been present, and \$5.00 rate for treatment, so that patients could afford to continue with them long enough to receive a perfect cure. Catarrh is treacherous, insidious, and powerful disease. It is no less dangerous when it slumbers than when it is awake and active. It should be resisted at all times to compel of advice to those who are neglecting treatment of the disease should be received by them carefully, and acted upon promptly. Call upon the physicians of the Copeland Medical Institute and consult with them, take treatment from them, and you will be astonished at the wonderful results. The physicians of the Copeland Medical Institute want to reach every patient who during the winter months only remained under treatment a short time, under the impression that because they got such quick results, and felt comparatively well, that they permanently cured. Therefore, take promptly and renew your treatment, broken off by vacations and other similar causes, and determine to remain under treatment until pronounced cured by the physicians.

The physicians of the Copeland Medical Institute go at every case with a determination to strike at the root of the disease and make a perfect cure. They map out a course of treatment suited to each case, and advise continuous and systematic treatment as a necessity to produce a permanent cure. They sometimes grow disheartened and discouraged to see how little some patients appreciate their efforts to move them by neglecting both their treatments and medicines, just because their charges are so reasonable. Some people are happy to see such people constitute a very small class.

DON'T MISTAKE THAT \$5.00 RATE FOR THE TREATMENT OF CATARRH CASES MAY 1st.

## A REDUCTION WANTED.

Standard Ore Company Has Asked the Cincinnati Iron Company to Reduce Its Royalty.

The Directors Will Advise the Stockholders to Grant a Reduction to Forty Cents.

The Feeholders Will Grant a Five Cent Reduction Provided the Stockholders Agree to the Other.

Unless the stockholders are opposed, the royalty paid by the Standard Ore company to the Cincinnati Iron company is to be cut down. The royalty now being paid is 55 cents per ton. The Standard Ore company has requested that this be cut down to 40 cents for this season.

The directors of the Cincinnati company have considered this and have agreed to advise the stockholders to make the reduction. A meeting of the shareholders has been called for April 20 to consider the question.

The reduction will not, however, be entirely the company's. The feeholders have agreed to make a reduction of 5 cents per ton on the amount of royalty paid them. The Cincinnati company is paying 30 cents royalty on one ton and 25 cents on six. These amounts are to be reduced to 25 and 20 cents respectively provided the stockholders agree to the other reduction. The fee holders are C. M. Hill and A. T. Bliss of Saginaw, John W. Williams of Chicago, and O. D. Kinney and Joseph Sellwood of Duluth.

This reduction is only for this season. The mine has not turned out to be what was expected. The ore has not run above 55 per cent metallic iron while 62 per cent was expected of it. Then a strike of the best pits turned out to be on the Biwabik property when a re-survey was made. Whether the stockholders will grant the request remains to be seen. It is commonly supposed that Cincinnati stock has passed out of the hands of the directors pretty largely.

WHEAT DULL BUT FIRM. Violent fluctuations at Chicago did not affect the Market Here.

The wheat market opened weak this morning and 1/2 cent lower than last night for May and 3/4 cent lower for July. Cash wheat was quiet but very firm with small business. No. 1 northern to arrive, which is held at practically May prices. The wheat fluctuations at Chicago had no effect here. It was evident that the bull clique in May wheat is still running for the year's profit. The Duluth market was only fair.

May wheat today was at 96c, an advance of 1/2 cent over last night's price. The Duluth sale of May wheat today was at 96c, an advance of 1/2 cent over last night's price. The Duluth sale of May wheat today was at 96c, an advance of 1/2 cent over last night's price.

B. E. Baker's Handsome Residence at Lester Destroyed by Fire.

About 2 o'clock this morning fire was discovered in the house of B. E. Baker at Lester Park and in half an hour it was totally destroyed together with its contents. Mr. Baker, who was alone in the house, barely escaped, saving nothing of his personal wardrobe except his trousers, even his vest with his one book being left behind. The fire company responded promptly, but it was helpless.

The fire originated from a stroke of lightning. The house was built two years ago by H. E. O'Brien, a contractor, at a cost of a little over \$7000 and was the handsomest building in Lester. Mr. Baker recently bought it. The furniture was valued at \$5000 and was insured for \$2375. The house was insured for \$5000.

## MICHIGAN STRUCK BY A TORNADO

The Town of Ypsilanti Was Visited by a Terrible Storm Last Night That Swept Everything in its Way, Blew Down Many Houses and Injured a Large Number of People.

Royal Oak, in the Same State, Struck by the Tornado and Christian Brick's House Was Torn to Pieces and Set on Fire and His Wife Perished in the Flames.

Reports Have Come That Saline, Mich., Has Been Wiped Off the Face of the Earth by the Fury of the Tornado, But Wires Are Down and No Confirmation Received.

A Cyclone Did Great Damage in Mississippi, Where Houses Were Unroofed and Many Negroes Killed, and Also in Louisiana, Where Several Persons Were Burned to Death in Robinsonville.

YPSILANTI, Mich., April 13.—A tornado struck this city last night, coming from the southwest and sweeping everything in its path. It was a quarter of a mile wide. Houses were moved from their foundations. Probably \$100,000 damage was done. Every store in the city was damaged. The opera house was swept to the ground, the Curtis carriage factory has both ends gone and carriages are piled up in the street. The postoffice was blown to pieces and the mail scattered everywhere. The Cleary business college, a large brick structure, was blown off above the first floor. No one is known to have been killed, but many were injured. Probably some bodies will be found in the ruins. Rubbish is piled in the streets ten feet high. The largest dwellings in the city were carried completely to the ground.

The wind came up suddenly and everything in its path went. Nearly all the buildings on Huron street between Congress and Pearl streets suffered. The central telephone and the Western Union telegraph company's offices suffered. The former lost all of its main wires. A box factory was also wrecked. Quite a number of people were injured. Among them is Mrs. Westfall, whose husband is proprietor of the Hawkins house.

Royal Oak, a small town ten or twelve miles from Detroit, on the Detroit, Grand Haven & Michigan railroad, had a touch of the storm. Trains were delayed near there by cars being blown from the tracks. Whether any other damage was suffered is not known.

The handsome little city in this morning in many portions a scene of desolation. Almost the entire population is working in the streets, helping to clear away the piled up debris. Several of the leading stores are practically impassable. Trees, roofs, bricks, the frame work of dwellings, furniture and every conceivable thing are piled one upon another.

Horses are being employed to haul away uprooted trees. Men are chopping and digging in every direction, the dismantled roofs are lined with busily employed men, and women and children are sitting and standing about in front of their desolate homes. Business is almost entirely suspended, the inhabitants seeming to be unable to turn themselves to the ordinary duties of life. So far as can be ascertained this morning, there was no serious personal injury sustained by any of the inhabitants, slight sprains and bruises being the extent of injuries reported. The cyclone tore across the town from south to north. Its track was not more than two blocks wide as a rule, though it varied somewhat. Conservative estimates place the damage to the city at \$100,000.

COMpletely WIPEd OUT. The Town of Saline, Mich., Said to Have Been Destroyed. YPSILANTI, Mich., April 13.—A report has just reached here that the town of Saline, Washington county, nine miles south of here, was completely wiped out by a cyclone last night. Saline is on the Lake Shore & Michigan Southern railroad and has a population of 1200 or 1400.

Up to noon neither telegraphic nor telephonic communication had been restored to Saline, and no further particulars of the damage to that town could be procured.

LEVELED TO THE EARTH. Buildings Torn to Pieces, and Several People Burned to Death. ROYAL OAK, Mich., April 13.—A most destructive tornado swept over this township last evening. It came up from the southwest and just grazed the village proper. Nearly everything in its path was leveled to the earth. To the southwest a fire soon started and a few minutes later another blast was seen to the north of the village.

An unsatisfactory survey of the situation was to be had of the terrible scene until daylight came. The pathway of the tornado could then be seen, and as far as eye could reach its pathway was evidenced by demolished houses, barns, out buildings and uprooted trees.

The first fire referred to was that of the residence of Christian Brick on the town line road. The house was torn to pieces and the wreck took fire. Mr. and Mrs. Brick and their three children were in the house at the time. The residents managed to escape but Mr. and Mrs. Brick were burned to death.

Word comes of another demolished farm home still farther away wherein the man and wife were seriously injured. Definite information is lacking. Entering the edge of this village, the tornado wrecked the residences of David Evans, Andrew Campbell and John McClure. Numerous barns were also wrecked. All the inmates of residences destroyed escaped with bad bruises.

Skipping across the Detroit, Grand Haven & Milwaukee railroad track, the

ed. A lamp in a Chinaman's laundry was overturned and set fire to the debris. Although the ground was covered with water, the flames spread rapidly and it is feared that several persons were burned to death. The report says that ten or twelve were killed, but as the wires are down it is difficult to get authentic information. Not a store was left standing in the town.

Loss of Life and Property. NEW ORLEANS, April 13.—A cyclone struck Texas parish in North Louisiana last evening and did great damage, destroying many houses and barns. One negro was killed in the neighborhood of St. Joseph and several women were severely injured. Reports are slowly reaching points of communication and are to the effect that there has been much loss of property.

The Killed and Injured. SALEM, Mo., April 13.—The following is a list of the wounded and killed in Wednesday's cyclone: Killed, John Dill, John Lay, Amy Lay, Mr. Asher, Mrs. Asher, Mrs. James Wilson and baby, injured, T. H. Coudray, arm broken; H. R. Brown, head cut and injured internally; infant child of William Asher, bruised about the body; two young sons of John Wilson, legs broken; Mrs. John Dill, badly bruised.

LA MOURE'S NEW ATTACK. He Accuses Senator Hansbrough of Pine Land Frauds.

WASHINGTON, April 13.—Jud La Moure has taken another tack, making charges against Senator Hansbrough, Weyerhaeuser, the lumber king, and others, for securing fraudulent control of valuable pine land on the Red Lake Indian reservation in Minnesota. La Moure, who was in an exuberant frame of mind when discussing this, said that if Mr. Hansbrough and the other men in his advertising tour. He said he had nothing whatever to do with any pine land deals in Minnesota or any other state and that La Moure's assertions were charged with "wind."

HAWKINS' CHANCES GOOD. A Strong Probability That He Will Soon Be Appointed to be Governor of Alaska.

WASHINGTON, April 13.—[Special to The Herald.]—"I think that Harry Hawkins, of Minnesota, will soon be exiled to Alaska." This was the remark that a prominent Democrat made to The Herald correspondent at the White House today. This was shortly after Representative Baldwin had visited the executive mansion and presented further endorsements in the matter of Hawkins' candidacy. Maj. Baldwin when seen, however, declined to express an opinion.

MME. WASHINGTON HONORED. Tributes to the Wife of the French Ambassador at London.

LONDON, April 13.—Madame Waddington, wife of M. William Henry Waddington, the retiring French ambassador, left the Victoria station this morning on her way to Paris, accompanied by her daughter. Baron de Staal, the Russian ambassador, the marquis Casa Iglesia, ambassador from Spain; Count Drin, the Austro-Hungarian ambassador; Rustem Pasha, the Turkish ambassador; Count Akerman, the Swedish minister, and Count Bille, the minister from Denmark, as well as Charge d'Affaires Henry White and a number of other Americans, who had learned to esteem M. Waddington and his family, were present to bid Madame Waddington farewell. The saloon carriage provided for Madame Waddington's journey was a mass of flowers, and the occasion bore strong testimony to the general good will felt towards the wife of the retiring representative of France.

OVERSHOES WILL BE HIGH. The Rubber Combine Has Made an Advance in Prices.

NEW YORK, April 13.—The Herald says: The price of rubber overshoes is pretty sure to be sharply advanced soon by retail dealers to meet the new schedule of the United States Rubber company, which controls nineteen-twentieths of the output of these goods in this country. The new schedule went into effect April 1.

THE CLAYTON MURDER. Hickey Identified by a Witness as Being in Texarkana.

MORRISTON, Ark., April 13.—The first witness to identify Frank Hickey, the defendant in the Clayton murder trial, testified this morning. It was D. C. McLaughlin, engineer of the government building at Little Rock, in December, 1888, and in January, 1889. McLaughlin was baggage agent for the Cotton Belt at Texarkana and testified that Hickey was in Texarkana at that time and was known as Culver. He was a cook in a restaurant or a hotel. The defendant was greatly disconcerted when identified by the witness.

Manager Bell Dead. DETROIT, Mich., April 13.—John A. Bell, for twenty years manager of the Detroit Free Press, died here yesterday afternoon.

## The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., April 13.—The storm that has been prevailing over this section since the past evening has moved to lower Canada, where it is central this morning with greatly reduced energy. It has been a very severe one although the full effect was not felt here, and was accompanied by rainfall which was heavier than the usual amount.

Most of the reports from the Northwest are of a similar nature. From the few that have been received it would seem that an area of high barometer, accompanied by a moderate cold wave is over the section north of the United States and will move slowly this way, but it is not expected that the same degree of cold that prevailed there now will be felt here. The lowest temperature is zero at Prince Rupert, and ranges from that to 4 at Winnipeg, at St. Vincent and at Moosehead. The highest is 64, at Memphis, Tenn.

Light snow is falling over the Lake region, and the Southwest, and rain over the Tennessee valley. Another storm is to be forming over the region to the south of the limit of our reports, but will probably pass to the south of here if it materializes.

The precipitation during the past twenty-four hours has been light compared to that of the preceding period, but would be called heavy under ordinary circumstances. The heaviest was 1.20 inches at Knox, Ill., Tenn.

The highest temperature recorded yesterday was 45, but fell during the night to 20, and will probably go still lower to night. The total precipitation during the storm amounted to 1.7, including the snow.

DULUTH, April 13.—Generally fair, preceded by snow flurries during the forenoon, slowly falling temperature, fresh north to west winds; probably fair and warmer Friday.

Local Forecast Official.

## Unclean Cities.

There were 1183 deaths in New York city last week, equal to 28.99 per cent. to every 1000 of the population of 1,750,000. Of the deaths 301 were from pneumonia, 110 diphtheria and 210 scarlet fever. The increase in the number of deaths over the previous week was thirty-four. The weekly death rate there has been increasing for two months, and yet there is no epidemic and the deaths from contagious diseases are less than usual. What is the cause of this heavy mortality?

A New York paper says it is due to "breathing the exhalations of dirty streets. The dust blown into our nostrils by the winds of spring is freighted with the germs of grip and pneumonia. The water we drink is polluted by thousands of foul sources of contamination. If there be any less obvious causes it is time for our health authorities to search them out."

The water supply in Duluth is perfectly pure, and there is no danger to be apprehended from that source, but our streets are in no cleaner condition than are those of New York. The dirt is temporarily covered by snow today, but that may be gone tomorrow, and dust will be blown around by the spring winds; spreading the germs of disease in all directions. Hence the urgent necessity of cleaning the streets thoroughly at an early date, so that the city may be prepared to meet any pestilence that may come. If this duty be neglected now, disease and death will be greatly increased in the summer months.

In this connection it is pleasing to notice that the board of health has entered upon the important work of compelling house owners to make connection with sanitary sewers wherever possible. There are many places in Duluth where the sanitary conditions are vile, owing to the negligence of house owners to make sewer connections. The board of health is now sending out notices directing them to attend to this duty at once, and no time should be lost in taking criminal proceedings in cases where the notices are disregarded.

## Row Regarding Pensions.

A New York dispatch today reports an interesting row that has occurred in Grand Army circles. Farnham post of that city has taken strong ground in favor of a revision of the pension list. It is anxious that it shall be indeed a roll of honor, and that those who are now receiving pensions to which they are not entitled shall be cut off the list.

This is a highly commendable position, and it would seem natural that it should receive the support of every Grand Army man in the country who is imbued with any degree of patriotism. It appears, however, that the action of Farnham post has created a regular row and that a post over in Brooklyn complained to the district commander and that official very strangely ruled that Farnham post was guilty of contempt for violation of the bylaws of the order. Farnham post has declined to back down and proposes to leave the order, if the district commander sticks to his decision. George Washington post of New York will follow Farnham post's action.

That two posts in the leading city of New York should be read out of the Grand Army on the pension question will hardly be counted a credit to that organization. All that Farnham post desires is that the pension list shall be purged of those who are unworthy of drawing pensions from the public treasury. This would include distant relatives of Union soldiers, who certainly can have no claim

on the country, and men who are suffering from disabilities which were not incurred in the army, as well as those who do not need pensions, being possessors of considerable wealth.

Every patriotic member of the Grand Army should be found on the side of Farnham post in this matter. The Herald believes in the most liberal treatment of the old soldiers who need pensions, but it agrees with those who demand that the names of those who do not need pensions and those who are not entitled to pensions shall be wiped off the pension list. It is likely that Commissioner Lochren will work a reform in this direction.

## The Subway Franchise.

An ordinance was introduced at the council meeting on Monday evening amending the ordinance under which the Northern Electrical Subway company holds its franchise. By this amendment it is proposed to practically remove all limitations on the time for commencing work on the subway as well as its completion.

The amendment provides that work shall commence within three months only after notice, and by the end of within six months thereafter one mile of subway shall be completed. The winter months are excluded from this provision.

This is a matter of considerable importance. No good reason appears why the subway ordinance should be amended in such a peculiar manner. According to the ordinance approved April 28, 1892, and published on the following day, the company is bound to begin operations before the end of next month and to have one mile of subway completed within six months thereafter.

There is no reason whatever why the company should not carry out this requirement of the ordinance. It is very desirable that the multitude of wires which now obstruct Superior street shall be put underground, and if the subway were constructed this could be done.

The Northern Electrical Subway company possesses a valuable franchise, estimated by itself to be worth \$25,000, and it obtained it from the city absolutely free. If it is not prepared to abide by its provisions, let the franchise be forfeited and give other people a chance to embark in this enterprise. No doubt many would be found willing to enter into such an enterprise, and begin operations this summer, completing one mile of subway before next fall, so that the wires could be removed from the business district during the present year.

For these reasons, it does not seem desirable that the amended ordinance now proposed should be adopted by the council. If any amendment be made, it should be a provision compelling the construction of one mile of subway this year. There is another point worth considering. Why should not the city treasury derive some benefit from such a valuable franchise?

In the original ordinance passed April 20, 1892, but not accepted by the company, there was a provision that 2 per cent of the gross earnings of the company should be paid into the city treasury annually. By some strange oversight, this important provision did not appear in the new ordinance passed on April 28, 1892. Why not insert such a provision in the amended ordinance now before the council?

A Successful Publication.  
The April number of the American Review of Reviews opens the third year of that valuable periodical. This magazine has had a wonderful success since it was launched in America under the direction of Dr. Albert Shaw, a practical newspaper man, who was for years the leading editorial writer of the Minneapolis Tribune.

The Review of Reviews has attained its great success in a field not occupied by any other publication and which it created. To any one who desires to keep thoroughly informed on what is going on all over the world this magazine is invaluable, and a year's file will be found a great addition to any library for purposes of reference.

One of the attractive features of the Review of Reviews is found in the hundreds of illustrations that it publishes yearly, most of which are portraits of notabilities of the day. The character sketches of prominent public men, both in America and abroad, which it has published during the past year, have attracted much attention, and they have been timely as well as interesting.

By the way, while the legislature is in the investigation business, what has become of the charge that Matt Clark, of the state auditor's office, blackmailed Stillwater lumbermen and profited at the expense of the state? Have any proceedings been taken? Does he still hold his position?

The New York papers are making considerable ado about the drinking water in Chicago and are calling on the authorities of the latter city to purify it. This is all right, but New York is hardly in a position to criticize Chicago on this subject. Croton water is vile beyond description.

The members of the pine land ring are doing lots of denying in the Minneapolis papers in reply to the senate committee's report on timber fraud. They protest too much.

Mr. Markham has reason to feel proud of his standing in the legislature. There

was a strong movement yesterday to discharge the committee of investigation, but Mr. Markham appealed to the house for a thorough inquiry and the committee was instructed to go ahead.

Judge Thayer of St. Louis has declined a position on the court of appeals for the district of Columbia, because he prefers to live in St. Louis, and Chicago is curious to know what manner of man he is that prefers to live in such a place as St. Louis.

Loren Fletcher appears to have got into another "hell of a fix."

## THE EVENING PAPER'S PLACE.

Superior Value as a Medium for Live Advertisers.

In connection with a lunch given by Robert C. Givens to the members of the Chicago real estate board on Friday last, the speech made by Elson Thompson, editor of the Journal, caused much favorable comment. Mr. Thompson dealt forcibly on the evening paper as a news and advertising medium. He said, "I think real estate men have placed too much dependence on the morning paper to the prejudice of the evening paper. The evening paper is the bulletin of the day, or the present. The morning paper is the bulletin of yesterday, or the past. The evening paper reaches people with the same information several hours ahead of the morning paper."

## DUKE OF VERAGUA.

The Only Living Descendant of Columbus Will Visit the Fair.

The World's fair will be honored by a visit from the duke of Veragua, who claims direct descent from Christopher Columbus. He will probably reach New

York on the 14th or 15th of this month, and he will be the guest of the country. The duke's full title is Cristobal Colon de la Cerda, duke of Veragua, marquis de la Lunica, grand admiral of the Indies. He traces his lineage through the grand daughter, Isabella of Cordova, whose father was Diego Colon, Columbus son.

The duke has held five important offices, and, although admiral, has never been at sea; he simply bears the title. By reason of his descent from Columbus, he is one of the grandees of Spain, and his palace in Madrid is a fine old fashioned erection, worth nearly half a million. He is said to be the finest breeder of bulls in Europe.

For a time Veragua was minister of public works, and he is now president of the Spanish cattle commission. He is a knight of the grand cross of Charles III, of Spain.

## Discounting the Policies.

NEW YORK, April 13.—The Atlantic Mutual Insurance company began yesterday to pay its policies on the Naronic's cargo at a small discount. The exact figures are not obtainable, but it is understood that the company suffers a considerable loss. The New York Mutual, so far as known here, is the only local company holding risks on the Naronic's cargo and they are not large. They have also begun to discount the policies.

## A Grecian Celebration.

ATHENS, April 12.—The king and queen of Greece and other members of the royal family, the princess of Wales and her family and the members of the Greek cabinet and representatives of foreign powers attended the queen's Te Deum in the cathedral yesterday in honor of the anniversary of Grecian independence. The day was also generally celebrated throughout Greece.

## Profession, Without Practice.

WASHINGTON, April 13.—Josephus Daniels, of Raleigh, N. C., has been selected by Secretary Hoke Smith, as appointment clerk of the interior department, vice A. F. Tonner, resigned. Mr. Daniels is 35 years of age; he is a lawyer by profession, but has never practiced.

## Not Luck Or Chance.

As is always said of any enterprise doing an exceedingly active business, it is due to the fact that there is visibly unwavering, conscientious desire here, as a business organization, to do things right, and these conditions becoming known so well and so thoroughly by all is what causes this constant activity here.

## Let it Be Known

That we sincerely appreciate and would have each particular customer of this house know that we are sincerely grateful for her patronage, and proud to be worthy of it, be they high or low, rich or poor, we leave the drawing of these distinctions to a higher authority. If anyone be "poor" they have our most sincere hopes and wishes that they may be soon more affluent situated. If anyone be "rich" we feel thankful to know of such folks, as it shows distinctly what is possible for all.

If anyone be "medium" we judge that means in comfortable conditions, then we are glad they are so.

## HE DIED FROM SHAME

Treasury Clerk Alves at Hong Kong Died in Jail While Waiting Trial for Embezzlement.

Terrible Stories of Suffering by the People From Famine in Various Districts of China.

Christians Were Attacked and Brutally Treated by Fanatical Mobs Led by the Literati Students.

VANCOUVER, B. C., April 13.—Advices were brought by the steamship Empress of Japan as follows: A. F. Alves, treasury clerk at Hong Kong, while awaiting trial for the embezzlement of \$79,000 of government funds, died from shame and grief.

The Chinese land telegraphic line has at last been joined with the Russian system. Messages may now be sent throughout the world from China by Chinese lines. Messages to Europe cost 15 per cent less than by cable.

Information has just been received at Hong Kong of a brutal attack on native Christians by the Literati, seventy miles northeast of Ameri. A band of ruffians, headed by some Literati graduates, attacked a small company of Christians gathered for worship in a house of one of the Christians. The worshippers were seized and beaten most cruelly. One woman was killed and her husband had his queue torn out by the roots. Her two sons were so badly treated that one of them is not expected to live.

Some of the others present were hung up by ropes, tied round the whole night, stripped of every particle of clothing. A few days later the ringleader was arrested in the city of Hui An. His arrest was resented by the people to such an extent that they made a determined attack upon the Christians residing in the city. They damaged the Christian's chapel, and stoned the minister. The magistrate granted an escort of soldiers and under their protection the minister got safely to Loin. The matter has been brought to the notice of the consul at Amoy.

The famine in the north of Shansi is worse than at first supposed, and great poverty prevails. A number of young women and girls have been sold by their parents. Native reports from Kalgan give harrowing details of ravages caused by the famine in Mongolia, in the neighborhood of Pao-Tou-Chen. The famine was caused by severe drought extending over six months. Three-fifths of the people endeavored to travel southward in hopes of obtaining relief, but a large number of them succumbed to the bitter cold and hunger.

Some grain dealers from Shansi made enormous profits by meeting the famished people with camel loads of treats. Many of the poorer sufferers not having money,

gave their children in barter for wheat. A child of six years was considered worth 6000 cash (a little over a half dollar) and marriageable girls were bartered in exchange for a camel's load of wheat of 400 catties.

A terrible fire occurred recently in Kawagoyeche, near Tokio, over 2000 houses being destroyed, and several people were killed and many injured. The Japanese government is taking determined measures to stop the emigration of women for immoral purposes. A number of them who were intended for a brothel in San Francisco was arrested just before the sailing of the steamer Empress of Japan.

### FALL IN PACIFIC MAIL.

Due to a False Story That the Company is in Trouble

NEW YORK, April 13.—A sharp drop yesterday in the stock of Pacific Mail Steamship company was followed by a story that the company was in some kind of trouble. Vice President and General Manager J. B. Houston said: "There is nothing the matter with the company. There is no reason for the decline in stock. It was, I am informed, sold down by L. L. Oppenheim, the treasurer of the Panama railroad. He seems to have had one broker sell it, while another bought it for him. In other words it was washed down. I don't believe the 200 shares have been legitimately sold."

### Brewers May Strike.

ST. LOUIS, Mo., April 13.—There are rumors of discontent among the Brewers and Malsters' unions in St. Louis. It is said that the basis of this dissatisfaction is a strong desire for an increase in wages and shorter hours for a working day. The more hot headed members of the unions believe they can force the boss brewers to grant their demands and have even gone so far as to advocate the inauguration of a general strike on May 1, if concessions are not made.

Continued from page 7.

Instructed to have the refuse of the city dumped along Railroad street, so as to eventually make ground for this street, instead of making ground on private property, as is the present practice.

Alderman Cox moved the adoption of the resolution, and the resolution was declared adopted upon the following vote:

Yeas—Aldermen Cox, Dingwall, Getty, Hugo, Helms, Howard, Myers, Nelson, Ole, Quinby, Sorenson, Thomas, Wilson and Mr. President—14.

Nays—None.

Approved April 11, 1893.

C. D'ARTEMONT, JR., Mayor.

By Alderman Hugo:

Resolved that the board of public works be instructed to prepare plans and submit estimates for the extension of the storm sewers on First avenue west, Second avenue west, Third avenue west and Fourth avenue west, to a proper distance to ensure the healthiest and their contents where it will be the means to avert a cholera epidemic.

Alderman Myers moved the adoption of the resolution, and the resolution was declared adopted upon the following vote:

Yeas—Aldermen Cox, Dingwall, Getty, Hugo, Helms, Howard, Myers, Nelson, Ole, Quinby, Sorenson, Thomas, Wilson and Mr. President—14.

Nays—None.

Approved April 11, 1893.

C. D'ARTEMONT, JR., Mayor.

By Alderman Hugo:

Resolved that the committee on ordinance and judiciary be instructed to so amend the health ordinance that proper receptacles for the collection of garbage be provided for and to cure any other deficiencies in the ordinance that interfere with the proper enforcement of the provisions of the ordinance and add any such provisions as may confer to the public health and the cleanliness of the city.

Alderman Sorenson moved the adoption of the resolution, and the resolution was declared adopted upon the following vote:

Yeas—Aldermen Cox, Dingwall, Getty, Hugo, Helms, Howard, Myers, Nelson, Ole, Quinby, Sorenson, Thomas, Wilson and Mr. President—14.

Nays—None.

Approved April 11, 1893.

C. D'ARTEMONT, JR., Mayor.

On motion of Alderman Myers:

Whereas the city council of the city of Lake side on Monday the 19th day of December, 1892, and

Whereas, after said work had been placed under said contract, said city council of the city of Lake side, for the purpose of procuring money to pay for the cost of such improvement, duly levied a first assessment amounting to the sum of eighty-three thousand and fifteen dollars and 25 cents (\$83,150.25), that being eighty-five per cent of the estimated cost of such improvement, and

Whereas, said contract was duly completed to the satisfaction of said city council, and

Whereas, after the completion of said work said city council ordered the city recorder to make and file a first assessment roll for the amount of the cost of such improvement, less the amount of the first assessment for the same, to wit, for the sum of thirty-four thousand, seven hundred and seventy-five dollars and seventy-five cents (\$34,775.00), which assessment roll was duly adopted by said city council, and was duly published as by law required, and was duly con-

ferred by said city council of the city of Lake side on Monday the 19th day of December, 1892, and

Whereas, the total amount paid upon said assessments after the confirmation of the same was the sum of two thousand, one hundred and sixty-two dollars and fifty-six cents (\$2,162.56).

Now, therefore, pursuant to the authority given by sub chapter 15 of chapter 35, of the special laws of the state of Minnesota, for the year 1891, and in pursuance of authority granted to the common council of the city of Duluth by an act of the legislature of the state of Minnesota, entitled "An act to provide for the completion of unfinished business of cities and villages annexed to other cities," Approved March 24th, 1893.

Be it resolved, that bonds of the city of Duluth be issued of the denomination of one thousand dollars each to the aggregate amount of thirty-two thousand five hundred and forty-seven dollars and twenty-three cents (\$32,547.23), for the purpose of procuring the necessary means to pay for the improvement of said portion of said

London road, as heretofore specified, said bonds to be dated April 1st, 1893, to be divided into five equal series, payable respectively in one, two, three, four and five years from their date to have interest at the rate of seven per cent per annum, payable semi-annually, and both principal and interest to be paid in gold at the National Park bank in the city of New York, such bond to be in the following form, to-wit:

ESTABLISHED 1881.  
Store Closed Every Evening Except Mondays and Saturdays.

**THE OUTLOOK**  
for Saturday is bright and clear. What a time we'll have in serving the throng of customers. It will be the first day of purchasing, in good earnest, New Spring Suits especially for Boys. Mothers and fathers will crowd our store—every one anxious to see the latest and best things for the Young Fellow.

**WE ARE READY**

We believe the Clothing is near perfection. We know of nothing undone to meet the taste and wish of the 10,000 Boys that'll be after us. Our position in the Boys' trade sets the pace for the town. An important factor is to keep the price reasonable. Buying such enormous quantities enables very close selling prices.

You'll be surprised with the goodness of the \$3.50 All-Wool Suit—Boys'. For \$5.00, unlimited in quantity and style; better than you've ever had.

In fact, through the entire stock you'll find prices lower than last year. That is to say, you'll get the best Suit you ever had for \$5.00, and so in all other prices.

Young Men's Clothing—special styles. A good, every day, hard-working-fellow Suit, \$6.50 for hard knocks. Buy another—\$12 for Sunday.

Men's—Fully equipped for largest business we ever had. Black and Blue Serge Suits—full of surprise that they can be sold for \$12. From \$12 to \$20—Suits. Every inch of store space covered with desirable Spring Clothing.

## HOUSE GETTING WARM

As the Time for Final Adjournment Draws Near the Legislative Pot is Boiling Fiercely.

Two Reports to be Submitted by the Committee on Mille Lacs Pine Land Frauds.

The Bill Providing Licenses for Peripatetic Vendors of Merchandise was Recommended for Passage Today.

ST. PAUL, April 14.—[Special to The Herald]—The house attacked general orders this morning and made a great hole in it. The bill placing a heavy license on peripatetic vendors of merchandise was recommended to pass. A strong lobby was present from the insane asylums to defeat the bill changing the management to a board of five trustees and cutting down the perquisites of the asylum officials, which passed the senate the other day. The house is growing warm and excitable, and things about Monday will be at a white heat.

Two reports will be made by Bob Dunn's pine land committee. The minority report will whitewash Auditor Beerman and will be made by Mr. German, of Stearns county. Mr. Dunn's report will recite that the nine in Mille Lacs county was withheld from public sale and sold to C. A. Smith & Co. for \$2 per thousand when it should have brought \$4; that it was sold on an old estimate of 700,000 feet when there was in reality 5,500,000 on the property. The majority report will recommend that \$1 per thousand be collected from Smith & Co. for all the timber cut and the remainder be sold at public auction.

Senator Daugherty tried to get in an amendment to the appropriation bill allowing an expenditure of \$5000 to aid the forestry department in obtaining information concerning forests and to take measures to prevent forest fires, but it was lost.

The house made a great advance in business yesterday afternoon by passing a resolution that each member of the house should be allowed to pick one bill from general orders and have it placed upon the calendar. This allowed the placing of 114 bills upon the calendar. Several other bills were also advanced from general orders.

The Jacobson bill against the mixing of grain at terminal points, defeated the other day, was reconsidered and placed on the table in the house. Yesterday afternoon Attorney General Childs' report on whether the Duluth & Iron Range road had a land grant or not was presented, but not read. It cited decisions in support of both sides of the proposition, and maintained that the question was a difficult one, which could not be disposed of in so short a time, and one which would probably require action by the courts to definitely determine.

The illuminating oil bill passed the senate as it did the house, and sent to the governor. The first seven sections of the omnibus appropriation bill were adopted in committee of the whole in the senate yesterday afternoon.

**HE MURDERED A WOMAN.**  
William Bond Suffered the Extreme Penalty of the Law Today.

ROCKVILLE, Md., April 14.—William Bond, colored, 23 years old, was hanged in the jail yard here this morning for the murder on Nov. 21, 1891, of Margaret Cephas, also colored. Bond was convicted on circumstantial evidence, which went to show that he was drunk and had attempted a criminal assault upon the woman.

A desperate struggle left such marks upon him that the crime was easily traced, and he was speedily convicted and sentenced to death on Feb. 17, last. His low degree of intelligence suggested a plea to the governor to examine into his mental condition, and the governor appointed a board of medical examiners for that purpose, postponing the execution until today. The result of the examination was never made public, but the failure of the governor to commute the sentence leads to the belief that he was found sane.

**A TERRIBLE CRIME.**  
A Woman Cuts Her New Born Babe to Pieces.

PHILADELPHIA, Pa., April 14.—A special to the Press from Greensburg, Pa., says: A terrible crime occurred here this morning. Mary Getchfsky gave birth to an illegitimate child. Immediately after the child was born, she took a case knife which had been secreted in her room and cut the infant to pieces, after which she threw the mangled pieces into the sewer.

The home physician detected the crime. The woman was arrested a year ago, charged with attempting to burn her husband, and she was committed to jail here. After she was liberated, she made information against the publisher, charging him with being the father of the babe that met the awful fate.

**Burkhardt Is Scared.**  
LITTLE ROCK, Ark., April 14.—W. H. Burkhardt, the informing witness in the Clayton murder case, was delivered to the penitentiary authorities this morning for safe keeping. He is very anxious to be liberated that he may leave the country, and asks that Hickey be kept in jail after his departure. Hickey says if he becomes a free man and meets Burkhardt he will cut him to pieces.

**A Boy Cremated.**  
JACKSONVILLE, Ore., April 14.—The residence of Charles White, nineteen miles from this place on Rogue river, was burned last night. His son Clarence, aged 7, perished in the flames, and in attempting to save the boy his wife was frightfully burned.

## HANGED IN NEW JERSEY.

A Colored Lad Executed for the Murder of a Companion.  
CAMDEN, N. J., April 14.—John Hill, a colored lad, 19 years old, was hanged here this morning for the fatal shooting on Oct. 16 last, of Joseph Dodson, also colored. The drop fell at 10:35 a.m. Dodson was but 21 years of age. Hill was employed in a saloon in the negro settlement of Camden, and on the night before the shooting had some angry words with Dodson about politics. After Dodson left the place, Hill laid in wait for his victim, and shot him, the wound being almost instantly fatal. Hill at first said that he had been induced by his employers to commit the deed for a small consideration, and the two proprietors of the saloon were tried, but were acquitted. Since all hopes of pardon or commutation has disappeared, Hill confessed that he was alone responsible for the deed.

## NOMINATIONS BY GROVER

John C. Geraghty Made Collector of Customs at St. Paul as the Successor of Col. Edwards.

WASHINGTON, April 14.—The president sent the following nominations to the senate today:

Richard H. Alvey, of Maryland, to be chief justice of the court of appeals of the district of Columbia.

Martin F. Morris, of the district of Columbia, to be associate justice of the court of appeals of the district of Columbia.

Seth Shepard, of Texas, to be associate justice of the court of appeals of the district of Columbia.

Levy Manning, of Arizona, to be surveyor general of Arizona.

William Anglin, of Minnesota, to be receiver of public moneys at Crookston, Minnesota.

Lucius O. C. Lamar, of Mississippi, to be recorder of the general land office.

Robert Gillespie, of Tennessee, to be principal clerk of public lands in the general land office.

John C. Geraghty, of Minnesota, to be collector of customs for the district of Minnesota.

Charles H. Miller, of Illinois, to be surveyor of customs for the port of Galena, Ill.

To be assistant surgeon in the marine hospital service of the United States, Emil Rocasaska, of Wisconsin.

**KILLED BY A SOLUTION.**  
He Used It to Cure Corns and Blood Poisoning.

MONTREAL, April 14.—David Preston, the superintendent of the Canadian Pacific railroad, died last night. Some time ago he bought a solution for the purpose of curing corns. He placed some of it on a bad corn.

Soon after this, blood poisoning ensued, and to save his life for the time being it was necessary to amputate his foot. The exhaustion from the operation caused his death. He was 65 years of age and was one of the best known railroad men in the country.

**LUMBER YARDS DESTROYED.**  
Fire Causes a Loss of \$100,000 in Michigan.

DIAMOND LAKE, Mich., April 14.—The West Michigan Lumber company's yards were destroyed by fire yesterday. Seven million feet of lumber, half a million bundles each of shingles and laths and ten freight cars were burned. The loss will reach \$100,000. The fire was caused by a spark from an engine.

**ONE THOUSAND HOMELESS.**  
Terrible Fire in a Hungarian Town, Causing Heavy Loss.

VIENNA, April 14.—A fire in Vessprim, a town of Hungary, sixty miles southwest of Budapest, has destroyed 141 houses and done damage to property to the extent of half a million florins. One thousand persons are homeless.

**Will Not be Exhibited.**  
Baltimore, Md., April 14.—The relics and ancient documents of Maryland will not be sent to Chicago to aid the state's display at the World's fair. Such is the decision of Philip Delain, in whose hands today the legislation places the articles for their safe keeping. The World's fair commissioner is greatly chagrined over this decision, as it was the expectation to make through these relics and documents a rare exhibit of Maryland's venerable past.

**Becoming Serious.**  
CALCUTTA, April 14.—The Kachins rising in Burma is becoming serious. Five hundred well armed Chinese have attacked two villages east of Selan and have surrounded a detachment of fifty British soldiers. A strong relief force has been despatched to the scene and other reinforcements have been sent from Madras.

**After the Earth.**  
WASHINGTON, April 14.—G. B. Davis, of Andover, S. D., is an applicant for appointment as consular agent to Honolulu, or Mexico, but would be willing to accept the postmastership at Webster. The wife of Davis has put in an application for appointment as postmaster at Andover.

**Will Complete the Road.**  
WASHINGTON, April 14.—J. S. Hasler, of Forest City, S. D., returned to Washington from New York yesterday and states that while in Gotham he organized a company to complete work on the Forest City & Watertown railroad from Bowdle to Forest City. He adds that operations will be resumed at once.

**Against the City.**  
DES MOINES, Ia., April 14.—Judge Bailett, of the district court, this morning decided against the city of Des Moines in the famous water works case, refusing the injunction asked for by the city, but granting it as to the suburbs. The case will be appealed.

## SERBIA'S KING RULES

The Youthful Monarch of the Little Kingdom Has Surprised the Regents in a Clever Manner.

He Suddenly Took the Reins of Power in His Own Hands and Arrested the Regents.

The Serbian Army is Loyal to the King and His Coup d'Etat Has Been Successful.

BELGRADE, April 14.—A bloodless coup d'etat was effected here last night, and King Alexander I, the youthful ruler of Serbia, who has heretofore governed the country through regents, today rules in his own name. A grand banquet was given at the palace last night to celebrate King Alexander's success in passing the examination prescribed for Serbian students. Gen. Belimarkovic, the regents and all the ministers were present, as also were a large number of friends and supporters of the regents.

The situation in Serbia has been critical owing to the power held by the regents and state officials. Affairs had become so bad that the king determined to take the reins in his own hands. In accordance with this determination, plans were secretly laid by means of which the king and ministry would be ousted without opportunity for opposition. Unsuspecting the regents and ministers attended the banquet, and while they were enjoying themselves at the palace detachments of soldiers and bodies of police took possession of the minister's houses and occupied the government buildings.

At midnight, while the festivities were still in progress, King Alexander proclaimed that he had attained his majority and that he had assumed, with the skipping of the government of the country, the reins of power. As a matter of fact the king had not attained his majority. According to the Serbian law he does not become of age until he is 18 years of age, and as he was born Aug. 14, 1876, he will not be 18 for considerable over a year.

When the deposed regents and ministers heard the declaration, they were dumfounded. The king and his advisers acted with great promptitude and soldiers who were in waiting also placed the regents and ministers under arrest, and they were sent to rooms which had been prepared for them in the palace, where they are under guard.

The Serbian army is loyal to the king. Had it not been, the coup d'etat would not have been possible. After the issue of the proclamation, and long before daybreak, the king proceeded to the barracks, where the troops were under arms, and was received with joyous acclamations and many expressions of loyalty. The proclamation, which will be issued everywhere in the country today, bears the king's signature.

The king's late declaration that the legislature has been lately in sore jeopardy, the rights of citizens imperiled and the legislative power of parliament so abused that the king must take the unhappy condition of affairs. He therefore declares that he has come of age and has assumed kingly power. Henceforth, the proclamation adds, the Serbian legislature acquires its full significance. The regents have been deposed, the cabinet dismissed and a new ministry is appointed. M. Dokitch is the new prime minister.

**Stocks Fell.**  
VIENNA, April 14.—The receipt of the intelligence that King Alexandria had deposed the regents and taken upon himself the full powers of a king, caused a sharp fall in Serbian and other European securities on the bourse here.

**A PICTURE OF COLUMBUS.**  
Unpacking of the Celebrated Lotto Portrait at the World's Fair.

CHICAGO, April 14.—The event of interest at the World's fairgrounds yesterday took place in the convention hall, a duplicate of the famous room where Columbus found shelter in time of trouble and where he developed his first and undiscovered continent in the far West.

The event was the unpacking of the famous Lotto portrait of Columbus, which was received from Madrid historical exposition, where it received a gold medal for being the most authentic portrait of Columbus. From this famous likeness the copy was taken to ornament the souvenir coins of the World's Columbian exposition.

When the picture had been carefully cleaned and admired by the visitors present it was taken to the chapel wall and suspended in a favorable spot, where it will remain for inspection. The picture has become the property of James Wellworth, of this city, who purchased the famous Gutenberg Bible for \$14,000.

**Will Support the Strikers.**  
LIVERPOOL, April 14.—The dock laborers at this port have resolved to support the striking dock laborers of Hull in their demands and will therefore refuse to unload any vessels of the Wilson line while the strike is pending. The strike may cause a general paralysis in the shipping industry.

**Another Strike Probable.**  
LONDON, April 14.—The notice given yesterday by the dock laborers union at Liverpool, to the shipping federation, that unless the demands of workmen were complied with a strike would be inaugurated, seemed that the ship owners must give an answer by Monday morning next. If the demands were not conceded then, the men would at once quit work.

**Bad Fire at St. Louis.**  
ST. LOUIS, Mo., April 14.—The pump and brass goods department of L. M. Rumsey & Co.'s factory, corner of Second street and Franklin avenue, was destroyed by fire at 8 o'clock this morning. The loss is estimated at \$200,000, and is insured.

**Killed by a Tramp.**  
ATLANTA, Ga., April 14.—John Dismack, a well-to-do planter, living about seven miles north of Valdosta, was shot and instantly killed by a tramp yesterday, who was surprised by the owner in attempting to burglarize the house.

## ON A TOUR OF THE SOUTH.

The Iowa Newspaper Men Royally Received at Atlanta.

ATLANTA, Ga., April 14.—The Iowa Press association, numbering seventy strong, were here yesterday. They were met and taken in charge by a committee of citizens and shown all the points of interest. The first place visited was the Equitable building, and from the roof the party had a splendid view of the city and the surroundings.

Four open electric cars were placed at the disposal of the committee and the party boarded them and were shown through the thoroughfares. A reception was given the party at the chamber of commerce. Governor Oglesby delivered an address of welcome. President Young of the association, and Hon. W. M. McFarland, secretary of the state of Iowa, responded. The party left in the evening for Savannah.

## IT WAS NOT A CYCLONE.

A Telegraph Operator at Vicksburg Scared by a Heavy Wind Storm and Fled From His Post.

NEW ORLEANS, La., April 14.—The telegraph operator at Vicksburg sending matter south wired at 2 o'clock this morning that a cyclone had struck the city and that he must leave the building. When communication was restored it was learned that a severe wind storm had struck Vicksburg, but no damage in consequence resulted.

The storm did not assume the proportions of a cyclone. There was also a heavy shower at Jackson, but no loss of life or property resulted. The wires north of there are down and the surrounding country has not yet been heard from, so it is not known how severe the storm was in the rural districts.

## THE MISSOURI CYCLONE.

The Total of the Killed at Salem is Now Ten.

SALEM, Mo., April 14.—Two more deaths occurred at Hawkins Bank yesterday as a result of injuries in the cyclone of Tuesday night. They are: L. I. Dobney and a little child of W. Ascher. This makes the total of the killed ten.

The dead have all been buried and the wounded are on a fair way to recovery. A meeting was held last night to raise funds for the destitute and nearly \$1000 was subscribed. Searching parties have been organized and are at work in the ruins. Over \$800 in money has been found in the ruins.

**An Unfounded Report.**  
\*YPSILANTI, Mich., April 14.—Report which gained circulation here yesterday that the town of Salina had been wiped out by a cyclone proves to be unfounded. Reports this morning says that there was no damage done.

**Houses Unroofed.**  
MEMPHIS, Tenn., April 14.—A high wind and terrible downpour of rain visited Memphis at 11 o'clock last night. Two houses on Front street were unroofed. No one was hurt as far as heard from. Telegraphic wires are down in all directions and the damage can only be imagined.

**Two Policemen Killed.**  
DUNQUEEN, Ia., April 14.—Two policemen named Frith and Henry Talcott, officers in the employ of the Milwaukee Railroad company at this place, were shot dead this morning at 3 o'clock by tramps. The officers went into a coach to arrest the tramps, who had taken up quarters there for the night. The murderers have not been captured.

**New Barrier to Jury Duty.**  
LAFAYETTE, Ind., April 14.—In the case of Peter Mark, indicted for attempt to murder George Rudolph at the Opera house riot on January 6, a jury was secured yesterday. A motion for a change of venue was disallowed. No members of the Catholic church or the American Protective association were allowed on the jury.

**Murder and Cremation.**  
JANESVILLE, Wis., April 14.—Nat Gibson shot his wife and Mrs. Arthur Hearn and then fired the house and burned their bodies. Gibson's little child gave the alarm. The murderer took to the woods in the direction of Whitewater. The tragedy resulted from a family quarrel in which Mrs. Hearn acted the part of peacemaker.

**A St. Joe Sensation.**  
ST. JOSEPH, Mo., April 14.—Geo. E. Black, cashier of the German American bank of this city, has filed suit for divorce from his wife, charging her with adultery with John Donovan, Jr., president of the bank and also president of the St. Joseph Stockyards company.

**Ax Works Burned.**  
LEWISTON, Pa., April 14.—The Lewiston ax works were destroyed by fire last night. The loss is \$75,000, insurance unknown.

**Shot a Negro Woman.**  
ATLANTA, Ga., April 14.—J. W. Price, a highly-respected citizen of Oconee county, Georgia, shot and killed a negro woman in his employ yesterday morning. One report says that she insulted his wife, and another is that the shooting was accidental.

**Roach's Case.**  
WASHINGTON, April 14.—In the executive session of the senate yesterday, the Republicans berated the Democrats for their attitude in the Roach case and announced their intention of having the matter fully discussed in open session.

**Charles Longfellow Dead.**  
BOSTON, April 14.—Charles Longfellow, son of the poet, died yesterday morning after a lingering illness. Miss Longfellow is suffering from a severe attack of rheumatism.

**Killed by a Tramp.**  
ATLANTA, Ga., April 14.—John Dismack, a well-to-do planter, living about seven miles north of Valdosta, was shot and instantly killed by a tramp yesterday, who was surprised by the owner in attempting to burglarize the house.

## BALDWIN'S GOOD WORK

He is Not Endeavoring to Make Political Capital by Exposing the Pine Ring's Plundering.

He Has Submitted Strong Affidavits Mentioning Instances of Fraud Which Will be Investigated Soon.

Owing to the Great Amount of Work He Will Remain in Washington Until June.

WASHINGTON, April 14.—(Special to The Herald.)—As has appeared frequently in The Herald from Washington dispatches, Representative Baldwin believes he has unearthed a great deal of corruption in connection with timber depredations in Northern Minnesota in the past, and further than this he is of the opinion that other attempts are being made to secure control of the available pine land tracts, or the timber at any rate, in this section of the state.

Mr. Baldwin has been industriously securing evidence in order to make his case hold good, when it comes before the interior department officials for hearing. He has filed numerous affidavits which, if substantiated, will bring to light a sensation that will shake the business circles of Minnesota from center to circumference.

Secretary Smith also seems to be in earnest about pursuing the investigation on the line laid down by Mr. Baldwin, and it is more than likely that some fire will be discovered where there is such a cloud of smoke at the present time. While the St. Paul Globe is endeavoring to make political capital out of this matter, this is far from being the object of Mr. Baldwin. His action is not at all personal. His idea is that if the timber section of Minnesota is to be made a political capital out of this matter, it should be stopped, and that those who have committed the depredations should be prosecuted.

He has been very careful to cover up the evidence he has, for his idea is that before it should go to the public, Secretary Smith should have an opportunity to find out whether the charges in circulation have any foundation in fact. It is presumed that the investigation inaugurated by Mr. Baldwin will be carried on until the charges are either proved or disproved to the satisfaction of everybody.

Will Stay Until June.—Congressman Baldwin will remain in Washington until June. He is having a hot time with postmaster appointments. No sooner has he recommended a man when he is flooded with protests claiming that the applicant is either a horse thief or a Republican. He thinks there will be no general slaughter of postmasters, the idea of the administration being to take things coolly and let the present incumbents serve their time out.

Lewis Mayo has been appointed postmaster at Sauk Rapids, Stearns county, and G. H. Cunningham at Sturgeon Lake, Pine county.

A CONSPIRACY FRUSTRATED.

Another Revolution in Nicaragua Nipped in the Bud.

NEW YORK, April 14.—The Herald's Panama special says: Following closely on the discovery of a plot in Leon for the overthrow of President Sacasa, through the confession of the wife of Goikola, comes the news from Nicaragua of the frustration of another conspiracy which was being hatched.

It has been learned that a plot was proposed to strike simultaneously in Managua, Granada and Leon. When the government was informed of the plot, orders were issued for the arrest of the leaders in Managua. Ex-President Joaquin Zelaya, and the Liberal leader, Gen. Santos Zelaya, a wealthy merchant in Granada; Federico Salazar, with Col. Paez, and many other prominent persons were captured there.

The Cuban agent, Camero Cana, was arrested in Leon as an accomplice, and exiled. He was suspected of attempting to obtain arms with which to equip the revolutionists.

STRICKEN DEAD.

TRUSTWORTHY STATEMENTS.

A recent New York dispatch reads: "James C. H. is a fine looking and apparently healthy man, was observed to stagger while walking on Fifth Avenue this afternoon, and after taking one or two certain steps fell to the sidewalk. When picked up he was dead. A physician examined the body and pronounced heart disease the cause of death. A peculiar sad feature of the case is that Mr. H. was on his way to Maine, to settle in the home of his boyhood. He had passed the previous ten years in the western mining country, and had amassed a fortune. If you have any of the symptoms given in the following testimonials you should lose no time in seeking relief."

From John L. Roberts, Stratford, Pa.: "I have suffered with palpitation, irregular pulse, fainting and shaking spells, pain in shoulders, side, and arms for over forty years. For twelve years have been treated without avail by prominent physicians in my neighborhood and in New York. Growing constantly worse, smothering spells followed one another, so my life was often in danger and I needed constant care. A myson had been cured by Dr. Miles' New Heart Cure, he sent me three bottles. The first dose gave me instant relief. Before using the last bottle I was completely cured. Although seventy-five years old I feel twenty years younger. I claim my cure to be almost a miracle."

Here is a letter from Mrs. John Kolges, of Cleveland, O.: "I had been troubled with my heart and stomach for years, but for five months had been confined to my bed. I had four of the best doctors in the city, but none of them could benefit the weakness of my heart. I also had dropsy and rheumatism. I never took medicine that relieved me as once as Dr. Miles' New Heart Cure does. I am much stronger. My appetite is splendid. I gain strength with every dose. I have gained more in six weeks from your treatment than in sixteen months from all the doctors."

"Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists. It is safe, effective, agreeable, and does cure." Dr. Miles Medicine Co., Elkhart, Ind.

## A DEFICIT IS IN SIGHT.

The French Minister of Finance Has a Problem to Solve.

PARIS, April 14.—M. Dupuy's cabinet discussed yesterday the budget for 1894. The estimates show fresh expenditures amounting to 151,000,000 francs as follows: Interests guaranteed on railroad stock on account of deficiency caused by the reduction of tax on express traffic, 91,000,000 francs; increase in expenditures for navy, 20,000,000 francs; increase in expenditures for army, 17,000,000 francs; and expenditures for putting new laws into effect, 23,000,000 francs.

M. Petrel, minister of finance, finding that a balance can not be established by retrenchments, has three courses under consideration for solving the problem. One is to exclude the extraordinary naval and militia expenditures from the ordinary budget; the second is to impose fresh taxes, and the third is to appropriate toward expenditures such amount as may be needed from the 180,000,000 francs, which it is expected to save as the result of the projected conversion of the 4½ per cent rents.

OIL REFINERY DESTROYED.

Oil in a Ditch Caught Fire and Communicated to the Works.

BUFFALO, N. Y., April 14.—The A. S. Holmes refinery, covering twelve acres of ground on Seneca street, was destroyed by fire yesterday afternoon, together with twenty freight cars and a train of oil cars sidetracked near the works.

Thirty thousand barrels of oil stocked in the warehouse were also destroyed. The fire was started by an engine dropping some coals in some oil which was running on top the water in a little ditch. The wind blew the flames into the works and an explosion occurred.

Every few minutes heavy explosions occurred when ammonia and gasoline tanks blew up. Thirteen men were struck by a flying piece of metal and badly injured. Three firemen were slightly injured by one of the explosions. The loss will be heavy.

OXFORD WILL NOT COME.

Members of the Crew Unable to Bear the Expense.

LONDON, April 14.—W. A. L. Fletcher, president of the Oxford University Boat race, states in an interview that the winners of the university boat race are unable to go to America in acceptance of the invitation extended by the Harvard crew for a race with the winners of the coming boat race in that country.

It is on account of the expense that would be involved. Several of the members of the Oxford crew, Mr. Fletcher says, devote their time during their vacation to acting as tutors, and the sacrifice of such engagements through a visit to the United States would entail upon them a heavy loss that some are unable to bear.

VALUABLE HORSES KILLED.

Lightning Struck a Broad Mare Barn in Tennessee.

GALLATIN, Tenn., April 14.—At 1 o'clock yesterday morning lightning struck the broad mare barn of Charles Reed on Fairview farm, and completely destroyed the large structure and its valuable contents, including twenty-five fine thoroughbred brood mares carrying foals to St. Blaiz, Exile, Miser and other great stables.

It is thought the total loss will exceed \$100,000. A barn on Horatio Barry's Hazel Path farm was also struck by lightning and several fine horses killed.

Imperial Federation.

LONDON, April 14.—Prime Minister Gladstone was visited yesterday by a deputation which urged upon him the wisdom of advocacy of imperial federation by the government with the view of binding together the empire more closely, and at the same time of benefiting trade and commerce within the empire.

Mr. Gladstone said that he sympathized with the views expressed, but he added that it would be impossible to legislate on the subject now, as the country was otherwise occupied.

Chicago Buildings Injured.

CHICAGO, April 14.—Wednesday night's severe wind storm almost wrecked a row of several houses that were being built at Seventy-seventh street and Duncan avenue. The houses were three-story brick stone fronts. The buildings were nearly completed and only the windows remained to be put in. The canvas that had been placed over the window casings was torn away, and the entire front of the buildings was blown down.

THE SECOND OPENING.

Panton & Watson's Store Crowded Again All Day Yesterday.

Panton & Watson's second formal opening held yesterday was as smooth as monumental alabaster. During the day the big front doors were kept swinging constantly by those who passed out and in. The attentive clerks were at their posts and looked after the comfort and wishes of the visitors in a most creditable manner. The decorations of the first formal opening were still in place and added the final touches of beauty to the dazzling display of the mammoth stock of goods in the numerous departments.

The evening was the most important occasion of the day. For two hours the front door rarely closed, so constant and steady was the procession of visitors. Hours of orchestra was at its best and it was not until after 10 o'clock that it finished a most complete and fascinating program. A company of busy waiters was constantly employed in serving refreshments of various kinds and every table in the building was occupied with the merry, happy and enthusiastic people from every walk in life who attended.

Messrs. Panton & Watson were everywhere and received many compliments in the manner in which they sought to make all feel at home. The words, "a complete success," should be inscribed in indelible letters on the descriptive of the entire occasion and its many features.

## TRAGEDY IN GEORGIA

An Old Man Killed While He Was Endeavoring to Protect His House From Robbery.

The Robber Was Breaking Open a Wooden Wardrobe Where the Money Was Concealed.

When the Owner Appeared He Was Received With a Charge of Shot in the Heart.

SAVANNAH, Ga., April 14.—The Morning News has received the following special from Valdosta, Georgia: The worst crime in the history of Lowndes county was committed about sundown yesterday, seven miles south of this place, the victim being an old man named John F. Wizenbaker. Mrs. Wizenbaker, his wife, was in the house attending to her domestic duties when she was suddenly

interrupted by a loud knock. He commanded her to keep still and not make any alarm or he would kill her.

The villain then took Wizenbaker's gun from the rack and went into an adjoining room and proceeded to break open a wooden wardrobe in which the old man kept his money. Mrs. Wizenbaker slipped out and called for her husband who was hooting in a patch about fifty yards away.

When told by his wife about the stranger's actions, the old man, disregarding his wife's entreaties, entered the house and was met by a fusillade of bullets from the robber's pistol. None of them, however, took effect, and the old man raised his hoe to strike him.

The stranger quickly seized the gun and sent a charge of shot into Wizenbaker's heart and he fell, calling to his wife to run, and saying that he was killed.

Mrs. Wizenbaker then ran to the nearest neighbors and gave the alarm, but when help arrived the robber had gone, taking with him what money he could find. "Three men are under arrest on suspicion."

THE MARKHAM INQUIRY.

The Case Against Mr. Markham Has Been Closed.

ST. PAUL, April 14.—In the Markham investigation yesterday the testimony of Will Bassett, D. Willard, H. C. Acker, R. W. Jones, J. E. Glass and F. C. Fare was taken. This closes the case against Markham, and testimony will now be offered in rebuttal.

Ray W. Jones was a witness yesterday afternoon. Late in December the Minneapolis lumbermen met and discussed the Wyman bill, and he was appointed to see the probable members of the logs and lumber committee and learn how they were feeling about the bill.

After the logs and lumber committee had been appointed, called upon Mr. Markham, who assured him he was favorable to the bill. About Feb. 1 he saw Mr. Markham in the lobby at the capitol and found out there was opposition on the committee to the bill. Markham then told him that if he would help him to get the bill passed, he would give him \$100,000.

Mr. Jones asked how much money he would need to get the bill passed. He said \$100,000. Markham replied \$100,000. Then he told him that he would give him \$100,000 if he would help him to get the bill passed.

The other side was using the bill as a bait to get the money. J. E. Glass, of the Northern Mill company, was called upon by Minneapolis by Markham on Saturday before the Wyman bill was to come up. Markham asked what the lumbermen were going to do about the bill. He said they would vote against it. Markham then offered him \$100,000 to get the bill passed.

Markham then offered him \$100,000 to get the bill passed. He said he would give him \$100,000 if he would help him to get the bill passed. He said he would give him \$100,000 if he would help him to get the bill passed.

PIERCE RIOT NEAR PRAGUE. Ignorant People, Frenzied by a Superstition, Attack the Jews.

PRAGUE, April 14.—The town of Kolín, or Neu Kolín, on the river Elbe, thirty-five miles from Prague, has been the scene of a fierce struggle between a mob frenzied by a religious superstition and the military called out to protect the Jewish population.

It is a common belief among the more ignorant in this part of the country that the Jews have a custom of killing Christians in connection and conformity with Jewish religious rites.

The body of a servant girl named Marie Paulik was recently found in the Elbe at Kolín. The impression rapidly spread that the girl had been murdered by the Jews in accordance with their supposed secret rites, the body had been thrown into the river.

A multitude of the most ignorant populace believed the story and worked themselves into a frenzy of excitement, and they gathered in force and wrecked the Jewish synagogue, and attacked and wrecked the shops and residences of the Jews. The mob were in complete control of the town for several hours, and the civil authorities were compelled to call upon the military for assistance.

The soldiers marched to the scene of the rioting in considerable force, but the mob refused to disperse. The military were ordered to charge, and did charge. Egan was requested to deliver the troops, and they were ordered to fire.

The soldiers were ordered to fire, and they fired. The mob were badly wounded before the riot was subdued.

The pogromers were arrested and quiet restored, but not until after the Jewish population at Kolín had suffered a large loss of property, as well as much personal insult and injury.

THE CHILEAN REFUGEES.

Mr. Egan Requested to Deliver the Refugees Kept at the Legation.

NEW YORK, April 14.—The Herald's Valparaiso dispatch says: In the Herald, of Santiago, is published a report that the government has received word from Washington on the subject of refugees in the United States legation.

The Chilean government has sent word to Washington requesting that Mr. Egan be requested to deliver up the refugees and ordinary criminals.

Further details of a plot, the discovery of which resulted in the proclamation of a state of siege have been received. It is now given out that on the evening of April 28, the police noticed a group suspiciously collecting in the parks.

They were ordered to disperse, and an order was issued for the troops in the barracks to march to the scene and disperse them. Instructions were given to the troops to be executed with as much secrecy as possible. They reached the parks without warning and scattered the crowds. Many were taken prisoners, including the leader. Twenty of them were taken to the police station.

## The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., April 14.—The weather has cleared in all sections except over the Gulf states and the Tennessee valley, where a storm of moderate intensity is central. An area of high pressure covers the country to the west of the Mississippi accompanied by clear weather. The temperature remains low in the Northwest, and is below the average in nearly all sections of the country, but will gradually rise from now on. The coldest report is from the Northwest, the warmest 68 in the Lower Mississippi valley.

The precipitation has been comparatively heavy over the Ohio and Tennessee valleys. Over the Northwest it only amounted to a trace during the past twenty-four hours. The highest temperature here yesterday was 30, the lowest last night 21. The snowfall yesterday amounted, when melted, to .10 inch.

Duluth, April 14.—Fair, slightly warmer; east and northeast winds.

WASHINGTON, April 14.—Forecast till 8 p. m. tomorrow: Fair, Wisconsin and Minnesota; fair, winds shifting to the south; rising temperature.

## Sunday at the World's Fair.

According to the Chicago papers, 30,000 men, women and children visited Jackson park and the Midway pleasure last Sunday. There was no disorder. There was no drunkenness. There was no crime. No one was arrested. Satan, busy as usual in other parts of the world, found no idleness in all this multitude. In dress, demeanor, conversation and attention to the business in hand these myriads set an example to every church congregation in Christendom.

These are facts. Thirty thousand witnesses stand ready to verify them. Every person present was an answer to the prayer, "Lead us not into temptation." Every one present had the wonderful spectacle before him of a law-abiding people enjoying itself in the acquisition of valuable knowledge by a proper observance of the Lord's day.

What, asks the Chicago Mail, is the argument against this? What change can take place in four weeks that will justify the charges brought by the Sunday closers and their attitude regarding it? What is the moral?

Members of every class in the community worthy of rational enjoyment were in attendance. But it was the workman who predominated. He told of the hardships in which these Parisians had involved him. The employer of one will run his factory so that his men may work two nights and take Saturdays for his education on the fair grounds. Another is to stop work Saturdays after noon instead of Saturdays that he may go Mondays to broaden his mind and learn that true religion and undefiled is not of the churches, but of humanity.

There are many others who will this summer work on Sunday and rest on Saturday, the seventh day of the week, and they will rest themselves by feasting their eyes on the glories of the greatest of World's Fairs. Shall it be said that these men are irreligious? They cannot afford to stop work on Saturday, thus losing a day's wages, because the labor competition in a great city is keen, and a man who worked only five days in the week would soon find another in his place. The World's fair cannot be seen in a day nor a week. Its buildings cover miles of territory, and they will be filled to overflowing with all the curious and instructive exhibits of all the nations on the earth. There will be nothing to contribute to man's evil nature but much to elevate and instruct.

Why should not the opponents of Sunday opening appreciate these facts, and recognize the necessity and desirability of having the gates of Jackson park open on Sunday? If the closing be insisted upon and the workmen of Chicago carry out the decision of the Central Labor union to work on Sundays and rest on Saturdays this summer, a powerful blow will have been given to "the American Sunday."

## The Collection of Garbage.

The war against filth is spreading over the whole country. Everywhere, in all the states of the Union, the cities are cleaning up to avoid the dangers of pestilence. The dread of the deadly cholera has become widespread, and with the opening of spring weather which exposes the disease germs that accumulated during the winter so that the winds may scatter them among the people, the fear of disease and death is increased. The prophesied danger of a visitation of cholera is no bugaboo. It is an actual danger that must be faced, and every city in America must set its house in order to grapple effectively with the disease or suffer the awful consequences.

The mightiest foe of cholera, as The Herald has frequently remarked of late, is cleanliness. Filth is its greatest ally. It breeds in dirt and squalor and spreads with amazing rapidity in sections of city where filth and garbage litter the streets, alleys and backyards. The duty of every city is therefore manifest, and it is gratifying to observe that from all quarters comes the cry: "Clean up!"

The Duluth common council at its last

meeting instructed the ordinance committee to prepare amendments to the existing ordinances regarding the public health, so as to provide for a system of collecting and disposing of garbage. This is a step in the right direction and The Herald hails it as an indication that the city authorities have been awakened to a sense of their duty and to a realization of the great importance of radical measures to improve the sanitary condition of the city.

No time should be lost by the ordinance committee in preparing the desired amendments. They cannot do better than by submitting an ordinance on this subject, prepared on the lines of the Kansas City ordinance explained at length in The Herald a few days ago. It is a very complete system and exactly what Duluth needs. This ordinance should be submitted at next Monday night's meeting and passed at once. The people are looking to the aldermen to take such action.

## Machine Organs.

One of the most recent political events of interest in New York state is the attempt of the Hill Democrats to obtain control of the Albany Argus, which has heretofore been a strong Cleveland paper and a valiant advocate of tariff reform. It was also a powerful factor in the reform movement which resulted in Mr. Cleveland's election as governor of New York by a majority of 200,000. It has since wielded a mighty influence in New York politics under the management of the Mannings, father and son, and this influence it has owed largely to its advocacy of principles which commanded the confidence of the people. Under its new management it will be only a machine organ, animated by personal hostility to President Cleveland.

The history of machine organs, as the Kansas City Star truthfully observes, warrants the prediction that the Argus will not bring any substantial advantage or benefit to the faction which has secured control of it. The element which is behind the venture will cause the paper to be regarded with suspicion and will divert its utterances of any weight with the people. The whole scheme is too apparent to cut any figure in moulding public opinion.

The supremacy and power of the party organ is past. People take papers nowadays for the news they contain, and for the fair and impartial treatment which it is the duty of every public journal to give to current questions. Party and factional organs are not even trustworthy as news vehicles. Everything which they contain is liable to be colored in conformity with the bias of the management, and, as for the opinions of expert papers, everybody knows that they merely reflect the wishes of their bosses. In this enlightened age of the world no paper conducted on this plan can have any influence with the people or become a power in society or politics.

A newspaper must establish a reputation for honesty and sincerity before it can gain a loyal constituency. The machine organ may command a following among the special clique whose plans and purposes it may chance to subserve, but outside of that it is powerless to affect popular sentiment.

## Tomorrow's Edition.

The Saturday Herald tomorrow will contain many articles of live local interest. One of the most popular features of the Saturday edition of The Herald is the space which it devotes to special local articles. There will be several of these articles tomorrow. The thousands who intend going from this section to the World's fair will find some valuable advice founded upon the observations of a Herald representative who recently visited Chicago. In the same connection will be found a description of the exhibit which Minnesota will make, the most interesting portion of which will be from the Duluth district.

Bill Nye's letter this week will be found very humorous, ranking with his best productions. It is dated from California, and tells of the kind of "unusual spring" they have there and incidentally details his visit to an ostrich farm, accompanied with some observations on the habits of this wonderful bird. The theatrical and literary columns tomorrow will be found full and complete, and Mrs. Mendenhall will have an interesting article in her Household Economics series, dealing with "The Turkish Bath." In addition to these special features will be found all the latest telegraphic and local news, in which departments The Herald daily surpasses all other papers at the head of Lake Superior.

The News Tribune devoted considerable space this morning to a find of aluminum at Spirit Lake, and evidently imagines that it has discovered something new. The fact is that this is an old story, which was exploited at length in the columns of The Herald and the News nearly three years ago.

There is no danger of any one being over-charged in Chicago. The management of the World's fair assures all the world of fair treatment. There will be no trouble about getting rooms and board in Chicago at reasonable rates.

Scoffers at science will please subside. A scientific authority now declares that a woman's beauty only reaches its maximum after she has passed her 30th year.

## AMUSEMENTS.

### Mozart Symphony Club.

The Mozart Symphony club did not have a very large audience at the Temple last evening, not as large as it deserved, as the concert was an excellent one. The club members were all of a very high order. Especially pleasing was "Woodland Whispers," which was admirably played, and also "Love's Dream After the Ball," always a beautiful selection. Richard Stoecker's viola d'Amore solo was played with great expression and feeling and he handles the difficult instrument with fine taste. Equally good was Mario Blocker in his violin du Gamba solo and their duet was a novel and very pleasing number.

The flute solo by Herr Carl Kraushaar was one of the gems of the evening. His staccato runs and trills were wonderful and his tone excellent. Herr Th. Hoch's cornet solo was brilliant. His tone is clear, soft and mellow and his tonguing exceedingly fine. Miss Camille "Toumin" is a harpist of unusual ability as demonstrated by her solo. Percy W. Mitchell, the violinist, was disappointing, however. He lacked expression and feeling and in some of his high notes and runs was unable to sustain them as they should be. Miss Grace Milton, the soprano, also did not make a good impression. Her voice shows cultivation but is not at all expressive or sympathetic and at times is harsh and shrill.

### Jane Coombs—"Blink House."

On Monday evening Jane Coombs will appear at the Temple in a dramatization of Dickens's famous "Blink House," taking the dual roles of Lady Dedlock and Hortense. The Cincinnati Commercial Gazette says of her: "Miss Jane Coombs in the dual role of Lady Dedlock and Hortense achieved the greatest triumph of her life. She was a living representation, and the auditor soon loses consciousness of the fact that he is witnessing a play and feels that the living scenes are being enacted before his eyes."

Clarence Eddy, who will give a recital at the First Methodist church, assisted by the Arion quartet, George E. Knowles, bass; Miss Louise Brown, soprano; and Miss Cullyford, alto, Dwight's Musical Journal of Boston says of him:

"It was certainly the most interesting organ recital given in Boston for years, both as to quality of the selections and manner of the presentation. Mr. Eddy's apparent ease and 'absolute mastery' of the work before him, no less than the dignified, strongly-marked nobility of conception and the beautiful, harmonious taste displayed in phrasing and registration, made the organ speak with the eloquence of the human voice or of a combined with the power and contrasts of a full orchestra."

## "Trial by Jury."

Tomorrow evening the High School Musical society will present Sir Arthur Sullivan's charming opera "Trial by Jury" at the Lyceum, assisted by Miss Farrell and Messrs. Hangan, Quillard, Maynard, Murphy and Gearhart. There will be a chorus of six. Under the direction of Professor Cushman, the opera has been thoroughly rehearsed and an entertainment of more than ordinary merit may be looked for. The staging will be elegant. Previous to the opera the famous farce "Poor Pill-coddy" will be produced, the characters being taken over by Miss Maudie, Miss Warford, Mrs. George, Professor Cushman and G. V. Quillard, Jr.

Mackinac Straits Are Clear and Vessels Are Leaving Chicago.

Private messages received here last night say that the straits of Mackinac are open and that no ice beyond a few drifting cakes are visible. The Chicago and Milwaukee fleets leave on mass today, or at least as many of them as can be cleared before night.  
The opening of the straits is usually followed inside of ten days by the opening of the Soo, and with the present kind of weather it is quite probable that the first lower lake arrivals will be here by May 1. Last year the straits opened on April 24 and in 1891 they were not clear until the 25th.

## THE DISTRICT COURT

The Case Against Lewis Marsh, Charged With Robbery, Given to the Jury This Afternoon.

William Stevenson Secures a Verdict for \$2700 for Injuries Sustained in Hubbard & Vincent's Mill.

Thomas Cassidy, Who Was Sentenced to Stillwater, Wants His Case Reopened and a New Trial.

The case against Lewis Marsh, charged with robbery, took up the attention of Judge Lewis' court this morning. Attorney T. E. for the prosecution and Attorney Baldwin for the defense making strong pleas. The judge charged the jury after dinner and they are still out. The next case is the Italian rape case and the court room is full of swartly sons of sunny Italy.

In Judge Lewis' room the case of J. B. Douglas vs. the North Star Construction company is on trial, the plaintiff being on the stand the greater part of the morning. This is an action to recover \$2000 said to be due for professional legal services. The case of W. A. Scott vs. Paul Sharpy as sheriff is continued by consent. The Thorpe insurance cases were reported settled and were dismissed. A verdict for the defendant was returned in the case of Thos. H. Story vs. The City of Duluth. Petit Juror T. L. Lammers was excused for the balance of the term. The jury in W. F. Stevenson vs. Wm. M. Hubbard et al., the famous saw mill case, returned a verdict of \$2700 for the defendant. A stay of forty days by consent was granted.

**WANTS A NEW TRIAL.**  
Thomas Cassidy Claims to Have Pleaded Guilty Because of Undue Influences.

An affidavit made by Thomas Cassidy, who was recently taken to Stillwater to serve two years and three months for assault in the second degree, was filed with the clerk of the district court today. He wants a new trial. It will be remembered that he pleaded guilty to the charge and expected to receive only a fine, but was astonished at being sent to the state prison. The affidavit sets up as grounds for a new trial that he was subjected to undue influences to gain a confession of guilt. The motion for a new trial may be heard at special term a week from tomorrow, and it granted will result in bringing the prisoner back to this city to await trial.

It is hardly probable that R. C. Mitchell's double column adv. can have escaped the notice of any of the real estate speculators in Duluth, but if it has, it might be money in their pocket to look it up.

## THE DOG PROBLEM.

Humane Officer Haskins Thinks There Are Too Many in Duluth.

Humane Officer Henry Haskins is agitating the dog question. Not only does he think there are too many in Duluth, but he considers them dangerous conveyors of contagious diseases. A dog will dig around in a pile of fifth, gnaw at offal reeking with the germs of disease and then transmit the same to some innocent child or family. This morning he called upon City Attorney Green to secure advice as to how the nuisance can be abated. Mr. Green thought the most feasible method to provide against danger from bites from vicious canines during the season in which there is danger of that kind, will be to compel the owners to muzzle their animals and then humanely end the existence of all unlicensed or unmuzzled.

## AN EXTRAORDINARY SNAP!

A Lot of Choice Property at a Sacrifice.

Desiring to do my share towards starting up the real estate business this spring, and desiring also, some ready cash, I have concluded to offer the following choice pieces of property for sale, all in one parcel, and at such a low figure that the purchaser can double his money thereon, long before being called upon to make his last payments, viz:

Lot 8, block 96, Endion.  
Lot 9, block 96, Endion.  
Lot 10, block 96, Endion.  
Lots 154, 155 and 156, Lake Avenue, Upper Duluth.  
Lots 47 and 51, Minnesota avenue, Upper Duluth.  
Lots 343, Lake avenue, Lower Duluth.  
Lots 43, 243, 255, 258 and 260, Minnesota avenue, Lower Duluth.  
The new 1/2 of section 7, township 50, range 14.  
The SW 1/4 of section 22, township 51, range 14.  
The NW 1/4 of section 31, township 51, range 15.  
Lots 2, 18 and 19, block 9, Bay View Heights.

If you will turn to your Duluth Atlas, you will readily see that this is all very choice property. No business real estate lots than those in block 96, Endion, can be found in all Duluth. Lot 8 fronts on the Park and the entire west half of that block has been looked for condemnation for park purposes, and this adds greatly to the value of the rest of the block. The electric line passes in front of lots 9 and 10 and they lie immediately west of the "Hundred drive" or Fifth avenue cut. Go up onto these lots and see what a magnificent and unobstructed view you get.

The lots on Minnesota Point are all choice ones and some of them are "water lots"—about one-third of a mile long and 40 feet in width. The three lots on Bay View Heights were selected a very few days after that plat was put on the market and they are three of the very handsomest lots in the whole division. The 40 acres in section 23-14 is within a few rods of the proposed motor line to Rice Lake, which is morally certain will be built before the end of the year.

The 40 acres in section 23-14 is inside of the city limits, lies very near the Highland Park electric line which is now headed for Rice Lake and, in a very short time, it will be in demand for planting into five acre tracts or regular city lots.

The 40 acres in section 23-14 lies on the southeast corner of Rice Lake, right in the heart of the spot where the town here will have to be. The electric line will doubtless reach that beautiful lake in another year, when will certainly spring up there, one of the most fashionable suburbs in the vicinity of this city.

By figuring over this matter, you can easily yourself that, even in quiet times like these, this property is fairly worth, as an investment, from \$3,000 to \$5,000, but I would let it go, all in one lot, for just \$27,500, and not a dollar less; and I will make the terms of payment as favorable as any one can reasonably ask. I would only require one-fourth of the purchase price, cash down, and if desired, I will take the balance in from three to five equal annual payments—interest 7 per cent—and will stipulate that the notes may be paid at any time before maturity that the purchaser should desire.

As this choice lot of property is offered at a price so far below its market value as no other such a "snap" has been offered to the public during the last three years, as the terms of payment are so very easy, and as it can be handled with so small an amount of ready cash, it is incredible to suppose that it will remain unsold for very many days, and the first responsible man to come forward and plunk down his earnest money will get it.
